Arshile Gorky Arshile Gorky, Whitney Museum of American Art, 2004 *Arshile Gorky* Arshile Gorky, Harry Cooper, 2009

Arshile Gorky c 1904 1948 was one of the central figures in American art's shift toward abstraction during the first half of the 20th century. Accompanying the first major retrospective of his work in almost thirty years, this stunning book traces the evolution of Gorky's arresting visual style. Nearly 200 paintings, drawings, sculptures, and prints from all phases of his career, a number of which are published here for the first time, are beautifully reproduced, including a large figurative painting from 1927 known previously only through its preparatory studies. Throughout the volume, some of Gorky's best known and most powerful works are paired with related pieces or with meticulous preliminary studies, shedding new light on his artistic process. Illustrated essays incorporating recently discovered biographical information and photographs examine his experience of the Armenian genocide during which he witnessed the death of his mother, his collaboration with the Works Progress Administration, and his early explorations of abstraction and Surrealism, providing important reassessments of his life and career. Admired by many of his contemporaries and hugely influential on subsequent generations of artists, Gorky created a complex and deeply moving body of work that encompasses styles ranging from Impressionism to Cubism, Surrealism, and the beginnings of Abstract Expressionism.

From the Author of *Frida: The Moving and Heroic Story of One of the Central Painters of the Twentieth Century*. Born in Turkey around 1900, Vosdanik Adoian escaped the massacres of Armenians in 1915, only to watch his mother die of starvation and his family scatter in their flight from the Turks. Arriving in America in 1920, Adoian invented the pseudonym Arshile Gorky and obliterated his past. Claiming to be a distant cousin of the novelist Maxim Gorky, he found work as an art teacher and undertook a program of rigorous study, schooling himself in the modern painters he most admired, especially Cézanne and Picasso. By the early forties, Gorky had entered his most fruitful period and developed the style that is seen as the link between European modernism and American abstract expressionism. His masterpieces influenced the great generation of American painters in the late forties, even as Gorky faced a series of personal catastrophes: a studio fire, cancer, and a car accident that temporarily paralyzed his painting arm. Further demoralized by the dissolution of his seven-year marriage, Gorky hanged himself in 1948. A sympathetic, sensitive account of artistic and personal triumph as well as tragedy, Hayden Herrera's biography is the first to interpret Gorky's work in depth. The result of more than three decades of scholarship and a lifelong engagement with Gorky's paintings, *Arshile*
