The Movement for Reproductive Justice Patricia

Zavella, 2024-05-19 2021 Outstanding Academic Title Choice Magazine Shows how reproductive justice organizations collaborative work across racial lines provides a compelling model for other groups to successfully influence change Patricia Zavella experienced firsthand the trials and judgments imposed on a working professional mother of color her own commitment to academia was questioned during her pregnancy as she was shamed for having children too young And when she finally achieved her professorship she felt out of place as one of the few female faculty members with children These experiences sparked Zavella's interest in the movement for reproductive justice In this book she draws on five years of ethnographic research to explore collaborations among women of color engaged in reproductive justice activism While there are numerous organizations focused on reproductive justice most are racially specific such as the National Asian Pacific American Women's Forum and Black Women for Wellness Yet Zavella reveals that many of these organizations have built coalitions among themselves sharing resources and supporting each other through different campaigns and struggles While the coalitions are often regional or even national the organizations themselves remain racially or ethnically specific presenting unique challenges and opportunities for the women involved Zavella argues that these organizations provide a compelling model for negotiating across differences within constituencies In the context of the war on women's reproductive rights and its disproportionate effect on women of color and increased legal violence toward immigrants and now incorporating an updated preface addressing the Dobbs decision which struck down Roe v Wade The Movement for Reproductive Justice demonstrates that a truly intersectional movement built on grassroots organizing culture shift work and policy advocating can offer visions of strength resiliency and dignity for all

of sports at amateur semiprofessional Olympic and professional levels. Some even made their mark in the sports world by becoming the first Mexican athlete to reach the big leagues and win Olympic medals or world boxing and tennis titles. These sporting achievements were not theirs alone; an entire cadre of supporters, families, friends, coaches, managers, promoters, sportswriters, and fans rallied around them and celebrated their athletic success. The Mexican nation and community at home or abroad elevated Mexican athletes to sports hero status with a deep sense of cultural and national pride. Alamillo argues that Mexican origin males and females in the United States used sports to empower themselves and their community by developing and sustaining transnational networks with Mexico. Ultimately, these athletes and their supporters created a sporting Mexican diaspora that overcame economic barriers, challenged racial and gender assumptions, forged sporting networks across borders, developed new hybrid identities, and raised awareness about civil rights within and beyond the sporting world.
