Rhetoric and Governance under Trump Bernd Kaussler, Lars J. Kristiansen, Jeffrey Delbert, 2020-07-09 Rhetoric and Governance under Trump Proclamations from the Bullshit Pulpit analyzes the rhetoric of Donald Trump to argue that Trump's deeply illiberal rhetoric, cruel policies, corruption, disruptive foreign policy, and disdain for the rule of law makes him a textbook populist. However, his embrace of mainstream conservative policies and the culture war narratives that come with them made him a rather conventional Republican. Being more plutocrat than populist, Trump had to bridge this fundamental contradiction by employing populist and polarizing rhetoric alongside fabricated crises to uphold the veneer of being an anti-status quo politician. Bernd Kaussler, Lars J. Kristiansen, and Jeffrey Delbert argue that for Trump, bullshit confrontational politics and fear has emerged as a vital political strategy. Through an analysis of Trump's first three years in office, the authors find that President Trump governed using a communication strategy that a) denied facts, relied heavily on bullshit lies, and fabricated counter narratives; b) attacked news outlets and the opposition to foster identity-based polarization in order to sideline critics and stir up factions for specific political ends; and c) dismissed legitimate criticism of policies and the conduct of the administration, and the president himself as fake news. Kaussler, Kristiansen, and Delbert argue that the repeated use of this strategy, along with a mixture of public complacency and concerted efforts on the part of his own party, has allowed Trump to work toward normalizing these lies and cover-ups throughout his tenure, only further exacerbating the highly polarized and partisan political environment in the United States. Scholars of rhetoric, communication, political science, and media studies will find this book particularly useful.

Digital Demagogue Christian Fuchs, 2018-02-20 From Covfefe to FraudNews, CNN and FakeNews, Donald Trump's tweets have caused an international frenzy. He is a reality TV and Twitter President who uses digital and entertainment culture as an ideological weapon as an expression of his authoritarianism. This book delves into new political-economic structures as expressed through political communication to explain the rise of authoritarian capitalism, nationalism, and right-wing ideology throughout the world. Christian Fuchs does this through updating Marxist theory and the Frankfurt School's critical theory. He reinvigorates the works on authoritarianism of Franz L. Neumann, Theodor W. Adorno, Erich Fromm, Herbert Marcuse, Max Horkheimer, Wilhelm Reich, Leo Lowenthal, and Klaus Theweleit in the age of Trump and Twitter. In the age of big data and social media, Digital Demagogue studies the expressions of ideology, nationalism, and authoritarianism today and discusses prospects for overcoming capitalism and renewing the Left.
