Bernie Sanders Highlights:

Meet the Candidates 2020: Bernie Sanders Scott Dworkin, 2019-06-11 What is democratic socialism Educate yourself on Bernie Sanders the liberal independent from Vermont and the 2016 underdog turned 2020 Democratic favorite Bernie Sanders shocked the establishment in 2016 with his self described political revolution mobilizing grassroots fundraising and campaigning to nearly secure the Democratic nomination over Hillary Clinton even in the face of Democratic National Convention opposition The Vermont senator and longest serving independent in congressional history hopes to do the same with a better result in 2020 Meet the Candidates 2020 Bernie Sanders A Voter s Guide will help you decide if Sanders s brand of democratic socialism is for you and if he is the right candidate to take on Donald Trump A vocal critic of Donald Trump Sanders advocates for sweeping reform single payer universal health care labor and economic inequality reform taxes on the wealthy the Green New Deal marijuana legalization free higher education Sanders has had an undeniable influence on how campaigns are run and has moved the Democratic party to the left but how will his liberal platforms play in a Democratic primary and against Trump in a general election After reading Meet the Candidates 2020 Bernie Sanders A Voter s Guide you ll be able to analyze those chances explain his positions and decide if they are what you believe is right for America The Meet the Candidates 2020 series is the informed voter s guide to making a decision in the 2020 Democratic primary and presidential election Each book gives an unbiased political insider s analysis of each contender featuring candidate interviews an introduction by campaign advisor Democratic Coalition co founder and Dworkin Report host Scott Dworkin and compilation and writing by Occupy Democrats Editor at Large Grant Stern In two hours of reading you ll understand their defining characteristics credentials campaign issues challenges presidential chances and everything else you need to know to decide who should challenge Donald Trump Whether it s for Elizabeth Warren Joe Biden Bernie Sanders Kamala Harris Julian Castro Cory Booker or another Meet the Candidates is what you need to make an informed vote for president in 2020 The Sinking Middle Class David Roediger, 2022-06-21 The Sinking Middle Class challenges the save the middle class rhetoric that dominates our political imagination The slogan misleads us regarding class nation and race Talk of middle class salvation reinforces myths holding that the US is a providentially middle class nation Implicitly white the middle class becomes viewed as unheard amidst supposed concerns for racial justice and for the poor Roediger shows how little the US has been a middle class nation The term seldom appeared in US writing before 1900 Many white Americans were self employed but this social experience separated them from the contemporary middle class of today overwhelmingly employed and surveilled Today s highly unequal US hardly qualifies as sustaining the middle class The idea of the US as a middle class place required nurturing Those doing that ideological work from the business press to pollsters to intellectuals celebrating the results of free enterprise gained little traction until the Depression and Cold War expanded the middle class brand Much later the book s sections on liberal strategist Stanley Greenberg detail saving the middle class entered presidential politics

Both parties soon defined the middle class to include over 90% of the population precluding intelligent attention to the poor and the very rich Resurrecting radical historical critiques of the middle class Roediger argues that middle class identities have so long been shaped by debt anxiety about falling and having to sell one's personality at work that misery defines a middle class existence as much as fulfillment *Instagram en la estrategia de construcción de liderazgo político* Carles Pont Sorribes, Antoni Gutiérrez-Rubí, 2020-05-28 Instagram es la red social que más ha crecido en los últimos años Su vertiginoso éxito la ha convertido en un escaparate indispensable para líderes y candidatos en todo el mundo No hay prácticamente estrategias de comunicación política que no contemplen una presencia y una actividad regular en esta plataforma Por ello la Ctedra Ideograma UPF de Comunicación Política y Democracia decidí convocar a académicos y profesionales de diferentes universidades y consultoras de Europa y América Latina y les invité a reflexionar sobre el papel y el potencial que tiene esta red social en las estrategias de comunicación de quienes nos representan o aspiran a hacerlo **Cracks in the Wall** Ben White, 2018-05-20 After decades of occupation and creeping annexation the situation on the ground in Palestine Israel can only be described as a system of apartheid Peace efforts have failed because of one inconvenient truth the Israeli maximum offer does not meet the Palestinian minimum or the standards of international law But while the situation on the ground is bleak Ben White argues that there are widening cracks in Israel's traditional pillars of support Opposition to Israeli policies and even critiques of Zionism are growing in Jewish communities as well as amongst Western progressives The election of Donald Trump has served as a catalyst for these processes including the transformation of Israel from a partisan issue into one that divides the US establishment Meanwhile the Palestinian led boycott campaign is gathering momentum prompting a desperate backlash by Israel and its allies With sharp analysis Ben White says now is the time to plot a course that avoids the mistakes of the past a way forward beyond apartheid in Palestine The solution is not partition and ethnic separation but equality and self determination for all **Israel in the American Mind** Shaul Mitelpunkt, 2018-05-10 Examines the changing meanings Americans invested in their country's intensifying relationship with Israel from the 1950s to the 1980s

Summary of Adam Kinzinger's Renegade Milkyway Media, 2024-01-23 Get the Summary of Adam Kinzinger's Renegade in 20 minutes Please note This is a summary not the original book Renegade by Adam Kinzinger offers a detailed account of the January 6 2021 Capitol attack the events leading up to it and its aftermath from the perspective of the congressman and former Air Force pilot Kinzinger a critic of Trumpism describes the former president's inaction during the assault and his role in spreading election fraud allegations The book delves into Kinzinger's personal life his upbringing in a religious community and his military service which shaped his values and political views **2016: the Campaign Chronicles** JD Foster, 2017-01-19 How did Donald Trump a man with zero direct political experience and no particular affiliation to either political party go in the span of a two year campaign from preposterous aspirant to President elect of the United States It will likely take years if not decades before a confident consensus develops but formulating an answer begins

with chronicling the key events in the campaign in the country and sometimes in the wider world as they happened This book is an attempt to provide such a chronicle by no means the last word but perhaps a useful and entertaining first word toward answering the question What the heck The Psychology of Radical Social Change Brady Wagoner,Fathali M. Moghaddam,Jaan Valsiner,2018-04-03 Since 2011 the world has experienced an explosion of popular uprisings that began in the Middle East and quickly spread to other regions What are the different social psychological conditions for these events to emerge what different trajectories do they take and how are they are represented to the public To answer these questions this book applies the latest social psychological theories to contextualized cases of revolutions and uprisings from the eighteenth to the twenty first century in countries around the world In so doing it explores continuities and discontinuities between past and present uprisings and foregrounds such issues as the crowds collective action identity changes globalization radicalization the plasticity of political behaviour and public communication **Twilight of the Social** Henry A. Giroux,2015-12-03 In *The Twilight of the Social* Henry A Giroux looks at the decline of social spaces which enable grievances to be dealt with and considers new ways in which citizens can create social spaces today After decades of neoliberalism today s young people lack a voice and are saddled with economic political and social conditions that have rendered them marginalised and ultimately disposable Giroux covers a broad range of topics from youth and the promise of new media technologies the economic Darwinism of globalisation and the need for a renewed democratic culture *The Twilight of the Social* is a compelling account of the erosion in recent decades of the very idea of the social in America and other societies **The Psychopathology of American Capitalism** Thomas Paul Bonfiglio,2017-06-08 This book synthesizes psychoanalytic and Marxist techniques in order to illuminate the resistance to a socialization of the American economy the protectionist discourses of anomalous American capitalism and the suppression of the capitalist welfare state After the Second World War Democrats and Republicans effectively eliminated the communist and socialist parties from the American political spectrum and suppressed their allied labor movements The right wing shift of both parties fabricated a false opposition of left and right that does not correspond to political oppositions in the industrialized democracies Marxist perspectives can account for the massive inequality of the political economy but they are insufficient for illuminating its preservation Psychoanalysis is necessary in order to explain why Americans continue to vote within a two party system that neglects the lower classes and why the working class tends to vote against its own interests The psychoanalytic techniques employed include doubling repetition displacement condensation inversion denial fetishizing and cognitive repression In examining the fixation upon the proxy binary of Democrat vs Republican which suppresses the true opposition of left vs right and neutralizes alternatives the work analyses numerous contemporary political issues through applications of Marxist psychoanalytic theory
