Bernie Sanders Homosexuality:

Lesbianism: A Study in Female Homosexuality David H. Rosen, Rachel Rosen, 2020-09-23 This new edition of *Lesbianism* allows one to understand lesbianism as a way of life The original 1965 1966 research study is included in its entirety Unlike Freud who based his view that lesbianism was a mental disorder on a single case study this breakthrough and innovative research project concerns interviews and psychological testing of 26 lesbians who were not psychiatric patients And as one would predict these lesbians were not disturbed as far as mental health was concerned The original research was done before homosexuality was removed as a mental disorder It seems odd today to even consider Freud's view as accurate We have come a long way in recognizing that one's sexual preference is just that This study was a pioneering one that disproved a false idea that lesbianism was evidence of an emotional disorder And this 2020 edition includes a conversation about the book with Rachel Rosen who is a lesbian The dialogue between the author and his daughter provides insightful questions and a true understanding of lesbianism

The Struggle to Be Gay—in Mexico, for Example Roger N. Lancaster, 2024-02-06 Being gay is not a given Through a rigorous ethnographic inquiry into the material foundations of sexual identity *The Struggle to Be Gay* makes a compelling argument for the centrality of social class in gay life in Mexico for example and by extension in other places as well Known for his writings on the construction of sexual identities anthropologist and cultural studies scholar Roger N Lancaster ponders four decades of visits to Mexican cities In a brisk series of reflections combining storytelling ethnography critique and razor edged polemic he shows first how economic inequality affects sexual subjects and subjectivities in ways both obvious and subtle and second how what it means to be *de ambiente* on the scene or in the life has metamorphosed under changing political economic conditions The result is a groundbreaking intervention into ongoing debates over identity politics and a renewal of our understanding of how identities are constructed struggled for and lived

The Coming Tyranny David A. Herrera, 2021-06-30 *The Coming Tyranny* How Socialism Will Lead to Civil War in America is a step by step prediction of how socialism in America will develop by nefarious and corrupt Democrats whose concerns are not the interests and well being of the American people but are concerns about redistributing wealth attaining power control and enriching themselves After the 2020 suspected fraudulent election Democrats practically control the Federal government Their Utopian socialist dream consists of taking substantial wealth from the rich through oppressive taxes and redistributing this wealth for government assistance to illegal migrants for black reparations to bail out poorly managed Democrat states disguised as COVID 19 relief for infrastructure for green energy for government run healthcare for COVID 19 vaccines to support the UN the Paris Peace Accord climate deal the World Health Organization and for Palestinian aid The Chinese born COVID 19 pandemic has enabled the worse election fraud in US history to occur in a concerted effort to steal the 2020 election by election computer fraud ballot counters state elected officials in key states mail carriers and election officials Incredulously key state supreme courts and the US Supreme Court all refused to listen to any evidence or witnesses

available in the worst election fraud in US history Examples of Democrat socialist presidential candidates and their leftist views are presented to show how far left socialists want to take America Examples are given as to how corrupt leaders such as Obama Hillary Clinton and Joe Biden not only tried to rig the 2016 election but sought to influence the election of Benjamin Netanyahu forced Pope Benedict to resign and be replaced by a liberal Pope and how the Obama Administration and others were involved with the Vatican and Pope Francis to try to align abortion and homosexuality morality in Catholic doctrine with leftist political morality to be gaslighted as acceptable moral behavior in the US by Hillary Clinton and Tim Kaine in preparation for the 2016 election The Biden Administration signed a slew of executive orders and tax policies that mandated culture change and triggered oppression of Americans Step by step predictions are made how Democrats will change election laws so that they will always remain in power Socialist policies are predicted to cause economic chaos failure and instability Many Americans will lose their jobs and suffer Crime poverty and homelessness will increase Police departments and the military will be politicized to support and enforce tyrannical laws passed by the socialist Federal US government to deprive Americans of their freedoms Conservatives will react as tyranny and oppression intensify A secession of states will likely occur leading to a 2nd American Civil War Unfortunately the war will not fare well for freedom loving Americans for reasons stated Only a miracle from God can save the USA Leftist policies and reconstruction efforts will further weaken the US As Muslim immigrants grow exponentially in the US and Muslim population centers in states increase over time this book predicts that a 3rd Civil War will occur between Muslims and non Muslims In the end the old US will become divided into Muslim and non Muslim countries never to return to the greatest country on earth that it was *Trump And The Puritans* James Roberts, Martyn Whittock, 2020-01-14 The year 2020 is a hugely significant one for the United States of America marking as it does the 400th anniversary of the arrival of the Mayflower Pilgrims to the New World and their establishment of a godly colony in what was for them the American wilderness But it is also the year of the next Presidential election one where the current occupant is expected to stand for re election Many millions of Americans will not see this as a random juxtaposition of events since for them the unlikely person of Donald Trump is the one chosen by God to implement a twenty first century programme of godly rule and the restoration of American spiritual exceptionalism that is directly rooted in those far off times when Puritan settlers who followed in 1630 first established a semi theocratic New Jerusalem in the New World The USA is the home of more Christians than any other nation on earth In 2014 research revealed that 70.6 per cent of Americans identified as Christians of some form with 25.4% identifying as Evangelicals Eighty one per cent of them around 33.7 million people voted Trump in 2016 How can it be that self described Christians of the Evangelical Religious Right see of all people Donald Trump as their political representative and thus defender of their cause Trump and the Puritans argues that while Donald Trump is no Puritan the long term influence of these 17th century radicals makes the USA different from any other Western democracy and that this influence motivates and energizes a key element of his base to an

astonishing degree and has played a major part in delivering political power to Trump *Homosexuality in the Work of Gore Vidal* Jörg Behrendt, 2002 Since his first novel with a homosexual topic *The City and the Pillar* appeared in 1948 Gore Vidal has been seen as an enfant terrible of American letters Through his ongoing writing career he has examined homo sexuality in the context of cultural religious and socio political developments so that it is fascinating to revisit his critical sometimes cynical and always wittily presented ideas which were formed at a time when Gay Liberation Gay Literature and Gay Identity were still unheard of and to discover the meaning these ideas still hold for us today *Gays and the Military* Marc Wolinsky, Kenneth Sherrill, 1993-09-07 In April 1987 Joseph C Steffan one of the ten highest ranking midshipmen in his class at the U S Naval Academy and only six weeks from graduation was denied his diploma and forced to resign his commission because he answered Yes sir to the question I d like your word are you a homosexual Six years later his cause and that of other gay men and lesbians seeking to serve their country by enlistment in the military has become the subject of intense national controversy This unusual and innovative work based on the litigation strategy and court papers filed in the case of Joseph C Steffan v Richard Cheney Secretary of Defense et al brings the resources of clinical psychiatry clinical and social psychology cultural history and political science to bear upon the fundamental questions at issue How is sexual orientation determined How and why have socially prejudiced stereotypes about male and female homosexuals developed Why have gays faced special obstacles in defending themselves against discrimination How much political power do gays have Marc Wolinsky and Kenneth Sherrill argue that gays constitute a politically powerless class that has been unjustly deprived of its constitutional right to equal protection under the law They have collected here the affidavits filed on behalf of Joseph Steffan in his suit against the United States government together with the counter arguments of the Department of Defense and the extraordinary opinion of the U S District Court for the District of Columbia Whatever the outcome of the case presently on appeal to the United States Court of Appeals for the District of Columbia Circuit this book will stand as a lasting and indispensable guide to the sources of sexual discrimination *LGBTQ Americans in the U.S. Political System* Jason Pierceson, 2019-11-11 This comprehensive sourcebook covers the evolution of LGBTQ engagement in American politics from the emergence of gay rights as a political issue in the early 1970s to the present day when LGBTQ issues occupy a prominent place in politics This work provides a broad and authoritative survey of the ways in which gay Americans are influencing the tenor and trajectory of U S politics at the local state and national levels An encyclopedic section offers thorough coverage of all of the individuals organizations cultural forces political issues and legal decisions that have combined to elevate the role of LGBTQ people at the ballot box on the campaign trail in Washington and in mayors offices city councils and school boards across the country Complementing reference entries are in depth essays on the rising prominence of gay Americans as voters candidates public officials lawmakers and opinion leaders providing further context for understanding their impact on modern U S political processes and institutions from the perspective of liberals and conservatives alike Finally the set

includes a collection of important primary source documents that illuminate landmark events examine gay policy priorities and preferences and showcase the beliefs and experiences of prominent LGBTQ Americans in the world of politics

A Critical Analysis of Sexuality Education in the United States Tiffani Kocsis, 2019-10-11 A Critical Analysis of Sexuality Education in the United States explores the development of sexuality education in North America and uses economic legal and psychological paradigms to identify and trace exclusionary programming and practices in schools By analyzing legal and political documents as well as state and private curricula this insightful text considers the historical and contemporary experiences of adolescents in connection to the social structures of sexuality education Challenging the current state of sex education in the United States in terms of both content and delivery the chapters succinctly illustrate how schools are failing to meet the developmental needs of all students Student perspectives and evidence based research demonstrate that an exclusionary curriculum is failing to equip students with the knowledge and understanding they require to undergo a process of empowerment about their sexuality and engage in safe informed and consensual sexual activity Finally by employing a rights based approach to sexuality education the author offers important recommendations for change in state and federal curricula Offering unique and comprehensive insight into the state of sex education in the United States this text will be of great interest to graduate and postgraduate students academics researchers policy makers and libraries in the fields of sexuality education education policy and politics sociology of education gender studies and curriculum studies

The Propagandists' Playbook Francesca Bolla Tripodi, 2022-01-01 An examination of what algorithmic polarization means for society and how conservative elites use media literacy tactics to spread propaganda The Propagandists Playbook peels back the layers of the right wing media manipulation machine to reveal why its strategies are so effective and pervasive while also humanizing the people whose worldviews and media practices conservatism embodies Based on interviews and ethnographic observations of two Republican groups over the course of the 2017 Virginia gubernatorial race including the author's firsthand experience of the 2017 Unite the Right rally the book considers how Google algorithms YouTube playlists pundits and politicians can manipulate audiences reaffirm beliefs and expose audiences to more extremist ideas blurring the lines between reality and fiction Francesca Tripodi argues that conservatives who embody the Christian worldview give authoritative weight to original texts and interrogate the media using the same tools taught to them in Bible study for example using Google to fact check the news The result of this practice tied to conservative marketing tactics is more than a reaffirmation of existing beliefs it is a radicalization of content and a changing of narratives adopted by the media Tripodi also demonstrates the pervasiveness of white supremacy in the conservative media ecosystem as well as its mainstream appeal scope and spread

The Stronghold Thomas F. Schaller, 2015-01-28 Once the party of presidents the GOP in recent elections has failed to pull together convincing national majorities Republicans have lost four of the last six presidential races and lost the popular vote in five of the last six In their lone victory the party incumbent won during wartime by the slimmest

of margins In this fascinating and important book Thomas Schaller examines national Republican politics since President Ronald Reagan left office in 1989 From Newt Gingrich s ascent to Speaker of the House through the defeat of Mitt Romney in 2012 Schaller traces the Republican Party s institutional transformation and its broad consequences not only for Republicans but also for America Gingrich s Contract with America set in motion a vicious cycle Schaller contends as the GOP became more conservative it became more Congress centered and as its congressional wing grew more powerful the party grew more conservative This dangerous loop unless broken may signal a future of increasing radicalization dependency on a shrinking pool of voters and less viability as a true national party In a thought provoking conclusion the author discusses repercussions of the GOP decline among them political polarization and the paralysis of the federal government
