Meet the Candidates 2020: Bernie Sanders Scott Dworkin, 2019-06-11 What is democratic socialism Educate yourself on Bernie Sanders the liberal independent from Vermont and the 2016 underdog turned 2020 Democratic favorite Bernie Sanders shocked the establishment in 2016 with his self described political revolution mobilizing grassroots fundraising and campaigning to nearly secure the Democratic nomination over Hillary Clinton even in the face of Democratic National Convention opposition The Vermont senator and longest serving independent in congressional history hopes to do the same with a better result in 2020 Meet the Candidates 2020 Bernie Sanders A Voter s Guide will help you decide if Sanders s brand of democratic socialism is for you and if he is the right candidate to take on Donald Trump A vocal critic of Donald Trump Sanders advocates for sweeping reform single payer universal health care labor and economic inequality reform taxes on the wealthy the Green New Deal marijuana legalization free higher education Sanders has had an undeniable influence on how campaigns are run and has moved the Democratic party to the left but how will his liberal platforms play in a Democratic primary and against Trump in a general election After reading *Meet the Candidates 2020 Bernie Sanders A Voter s Guide* you ll be able to analyze those chances explain his positions and decide if they are what you believe is right for America The *Meet the Candidates 2020* series is the informed voter s guide to making a decision in the 2020 Democratic primary and presidential election Each book gives an unbiased political insider s analysis of each contender featuring candidate interviews an introduction by campaign advisor Democratic Coalition co founder and Dworkin Report host Scott Dworkin and compilation and writing by Occupy Democrats Editor at Large Grant Stern In two hours of reading you ll understand their defining characteristics credentials campaign issues challenges presidential chances and everything else you need to know to decide who should challenge Donald Trump Whether it s for Elizabeth Warren Joe Biden Bernie Sanders Kamala Harris Julian Castro Cory Booker or another *Meet the Candidates* is what you need to make an informed vote for president in 2020 *Bigger Than Bernie* Micah Uetracht, Meagan Day, 2021-04-06 Win or lose Bernie has reshaped the landscape of American politics Where does the political revolution go next The political ambitions of the movement behind Bernie Sanders have never been limited to winning the White House Since Bernie first entered the presidential primaries in 2016 his supporters have worked to organize a revolution intended to encourage the active participation of millions of ordinary people in political life That revolution is already underway as evidenced by the massive growth of the Democratic Socialists of America the teachers Bernie motivated to lead strikes across red and blue states and the rising new generation of radicals in Congress led by Alexandria Ocasio Cortez and Ilhan Omar inspired by his example In *Bigger than Bernie* activist writers Meagan Day and Micah Uetracht give us an intimate map of this emerging movement to remake American politics top to bottom profiling the grassroots organizers who are building something bigger and more ambitious than the career of any one candidate As participants themselves Day and Uetracht provide a serious analysis of the prospects for long

term change offering a strategy for making political revolution more than just a campaign slogan They provide a road map for how to entrench democratic socialism in the halls of power and in our own lives Bigger than Bernie offers unmatched insights into the people behind the most unique campaign in modern American history and a clear eyed sense of how the movement can sustain itself for the long haul This Is Not America Alan Friedman,2017-07-11 What has happened to America and what s become of the American dream Behind the self confident image of world s most influential country we now see a nation tearing itself apart The United States may be arguably the world s only superpower but its internal tensions are a symptom of suffering and division a condition only exacerbated by the election of President Donald Trump In this searing account expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens Set against the backdrop of the 2016 presidential election campaign and the inauguration of President Trump Friedman tells a vivid story of terrible inequality from the excesses of Wall Street to the grinding poverty of Mississippi and explores the issues from racism and gun control to Obamacare that have polarised a nation Drawing on his personal interviews with Trump and with Russia s President Putin Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world Dark and provocative **This Is Not America** may just be the most important book of the year **Why America Didn't Become Great Again** Robert Chernomas,Ian Hudson,2025-04-22 Examining the conditions that not only blocked attempts to make America great again but also actively made the country worse **Why America Didn't Become Great Again** identifies those organizations institutions politicians and prominent characters in the forefront of the economic and social policies ultimately asking who is responsible The period from the late 1970s to 2020s became the best of times for America s corporate class As profits grew along with the wealth and income that they delivered for their stockholders and management their goal was to set new rules for the rest of us to live by with a clear class agenda Institutions have been organized government policies reoriented and economists journalists and politicians recruited funded and promoted And so it has not been the best of times for working families as inequality stagnant wages debt and ever longer working hours became their fate This book critically analyzes those who very deliberately set out to implement policies enacted at the state and federal level in order to redistribute wealth and income upwards and change the balance of power in the United States in response to the class gender and racial challenges that resulted in compressed income and wealth differentials before the 1980s An essential book on contemporary inequality in America **Why America Didn't Become Great Again** surveys the past near half century that resulted in American economic instability and inequality environmental crisis a crumbling physical and harmful social infrastructure among the very worst health outcomes child poverty food insecurity and social mobility of the industrialized countries culminating in a Trump regime and the road to further ruin At what Cost Nicholas Freudenber,2021 An incisive and powerful investigation of corporate impact on human and planetary well being Freedom of choice lies at the heart of American society Every day

individuals decide what to eat which doctors to see who to connect with online and where to educate their children Yet many Americans don't realize that these choices are illusory at best By the start of the 21st century every major industrial sector in the global economy was controlled by no more than five transnational corporations and in about a third of these sectors a single company accounted for more than 40 percent of global sales The available options in food healthcare education transportation and even online presence are largely constructed by corporations whose sweeping influence have made them the public face and executive agents of 21st century capitalism At What Cost confronts how globalization financial speculation monopolies and control of science and technology have enhanced the ability of corporations and their allies to overwhelm influences of government family community and faith As corporations manipulate demand through skillful marketing and veto the choices that undermine their bottom line free consumer choice has all but disappeared and with it the personal protections guarding our collective health At What Cost argues that the world created by 21st century capitalism is simply not fit to solve our most serious public health problems from climate change to opioid addiction However author and public health expert Nicholas Freudenberg also shows that though the road is steep human and planetary well being constitute a powerful mobilizing idea for a new social movement one that will restore the power of individual voice to our democracy With impeccably detailed research and an eye towards a better future At What Cost arms ordinary citizens activists and health professionals with an understanding of how we've arrived at the precipice and what we can do to ensure a healthier collective future

This Fight Is Our Fight Elizabeth Warren, 2017-04-18 1 New York Times bestseller The fiery U S Senator from Massachusetts and bestselling author offers a passionate inspiring book about why our middle class is under siege and how we can win the fight to save it Senator Elizabeth Warren has long been an outspoken champion of America's middle class and by the time the people of Massachusetts elected her in 2012 she had become one of the country's leading progressive voices Now at a perilous moment for our nation she has written a book that is at once an illuminating account of how we built the strongest

middle class in history a scathing indictment of those who have spent the past thirty five years undermining working families and a rousing call to action Warren grew up in Oklahoma and she s never forgotten how difficult it was for her mother and father to hold on at the ragged edge of the middle class An educational system that offered opportunities for all made it possible for her to achieve her dream of going to college becoming a teacher and later attending law school But now for many these kinds of opportunities are gone and a government that once looked out for working families is instead captive to the rich and powerful Seventy five years ago President Franklin Roosevelt and his New Deal ushered in an age of widespread prosperity in the 1980s President Ronald Reagan reversed course and sold the country on the disastrous fiction called trickle down economics Now with the election of Donald Trump a con artist who promised to drain the swamp of special interests and then surrounded himself with billionaires and lobbyists the middle class is being pushed ever closer to collapse Written in the candid high spirited voice that is Warren s trademark This Fight Is Our Fight tells eye opening stories about her battles in the Senate and vividly describes the experiences of hard working Americans who have too often been given the short end of the stick Elizabeth Warren has had enough of phony promises and a government that no longer serves its people she won t sit down she won t be silenced and she will fight back

The Failure of the Free Market and Democracy

Daniel Ritter,2020-02-13 In this wide ranging but accessible overview economist Daniel Ritter examines the changing circumstances that have led to the economic decline of the West and the rise of populism He looks at the effects of globalisation and how increasing mechanisation has fuelled discontent the collapse of existing communities and a sense of disenfranchisement The fault he argues lies not with advances in technology or a lack of growth but in rising inequality and an over reliance on the free market Examining the West s situation in a global context both in relation to the rise of China and the ascendancy of private interest groups he claims that the free market has failed and with it representative democracy arguing that we must update our very notions of work and reward if we are to survive the current crisis Informed lucid and strongly argued Ritter s compelling analysis is a must read for anyone concerned to discover the origins of our current economic and political malaise and its possible solutions

Six Faces of Globalization

Anthea Roberts,Nicolas Lamp,2021-09-28 Does globalization help everyone or just the rich Is it the enemy of sustainability or the only hope against climate change Rival camps are dug in but Anthea Roberts and Nicolas Lamp find points of agreement Isolating the value conflicts that drive the globalization debate they show where consensus lies and argue for achievable policy change
