The Radical Mind David Horowitz, 2023-11-14 A harrowing journey through the corridors of the twenty first century totalitarianism that goes by the name of progressivism Must read DINESH D SOUZA David Horowitz is a modern legend This book is critical to understanding the left and how we defeat them CHARLIE KIRK AMERICA IS HEADING TOWARD THE ABYSS THE RADICAL MIND is both a stark warning and call to arms to protect the country from decline ruin and disgrace It identifies the crisis facing the nation as a crisis of faith faith in the Constitution that has shaped our destiny faith in individual freedom and accountability faith in the principle of equality before the law At stake Nothing less than the American way of life and the liberty and freedoms all Americans enjoy In his latest broadside against the radical left New York Times bestselling author David Horowitz pulls back the curtain of secrecy and lies and exposes the dangerous methods and agendas of a woke left mob and identifies what a decent society needs to do to keep the country from slipping away including Defend families against the intrusion of outside forces ideological and governmental which seek to capture the hearts and minds of children to serve their destructive agendas Stop radicals from debasing Judeo Christian values and silencing Christian communities and voices in favor of political state control Reject progressive blindness including false racist narratives that America is a racist country Challenge the existential threat to American democracy from a Democratic Party that has made dialogue compromise and bipartisanship impossible and uses a corrupt and compliant media to unleash a constant tsunami of hate toward conservatives and ordinary Americans alike Renew faith in the Constitution and in individual freedom Read THE RADICAL MIND and join the fight against the destructive plans of the woke left The hour is late and the forces of darkness are upon us To save our freedoms Americans must renew their faith in their country relearn its history reacquaint themselves with the wisdom of the founders

and reject the siren songs of the envious the resentful and the haters of human diversity who have malice in their hearts

DAVID HOROWITZ *America: Unite or Die* Douglas E. Schoen, Carly Cooperman, 2021-12-21 WHAT AMERICA MUST DO TO ACHIEVE UNITY AND SAVE OUR DEMOCRACY AMERICA UNITE OR DIE is a real time analysis of why American Democracy is crumbling and why both sides Republicans and Democrats are responsible for its collapse This is the first objective nonpartisan analysis of what has happened and most importantly explains what we can do to avoid impending doom for our system and most of all our nation ONE NATION INDIVISIBLE America is the only country in the history of the world founded on an idea and that idea is liberty It s an idea that resulted in the most flourishing citizenry in human history but today that idea is under attack not just from foreign adversaries but from within as the extreme right of the Republican Party and extreme left of the Democratic Party move further and further apart These dangerous corrosive positions pose a serious threat to the foundations of American democracy as we now face A political class that has lost touch with mainstream America Public loss of trust in the institutions of democracy The rise and mobilization of extremism on the right and left both threatening violence The rise of social media websites and cable TV news that splinters audiences and creates alternate realities Inequality of opportunity that creates a two tiered society of haves and have nots Anti democratic regimes ruling China and Russia that threaten freedom around the world In an era of growing distrust demonization and hatred as we live America s tragic Tale of Two Cities our most inspired turn is to embrace the idea engendered in a true symbol of American democracy the mighty woman with a torch the Statue of Liberty Enlightening the World Give me your tired your poor Your huddled masses yearning to breathe free When citizens who work hard and play by the rules believe they have no shot at the American Dream or conclude that the American values identity and the principles they grew up with are vanishing a giant question mark hangs over the future of our democracy If we hope to preserve our democracy both sides must start by reaffirming their belief in the democratic principles of America so they can move from the fringes to the moderate middle of the road positions that millions of Americans embrace AMERICA UNITE OR DIE is an inspired plan to turn the Divided States of America into the Reunited State of America America Unite or Die is a must read for anyone interested in politics and governing or in the current dysfunction of our political system Douglas Schoen and Carly Cooperman are great scholars and practitioners of American politics They are two of the country s finest pollsters and strategists who have seen it all from advising presidents in the White House to analyzing the voters in the precincts across America The polarization in this country today is explained clearly Every citizen who cares about this extraordinary country of ours should read this book and be enlightened about what s going on around them Ed Rollins former assistant to President Reagan for political and governmental affairs and former co chairman to the National Republican Congressional Committee *Is College Worth It?* Richard Ohmann, Ira Shor, 2024-04-16 This work addresses how the titular question in and of itself facilitates the commercialization of higher education **Share the Wealth!** Jonathan Gauvin, Angella MacEwen, 2021-05-25 Canada is a

rich country getting richer But over the past 20 years a huge portion of the country s wealth increase has gone to a small handful of the super rich Canada s one per cent have seen their share of Canada s wealth grow by almost six times since 1999 to 2 203 000 000 000 USD today Meanwhile half of all Canadian families experience income insecurity and can t get the support they need from ever shrinking public services Canada s super rich gained 76 billion during the 12 months after COVID 19 hit Canadians are ready for measures that would distribute wealth more fairly and give governments the funds to pay for pharmacare improve long term care take serious climate action implement paid sick leave and more But the Liberal government took no serious measures in its 2021 budget to tackle this issue Policy experts Jonathan Gauvin and Angella MacEwen show exactly how Canada s wealth can be more fairly shared with measures that would impact only the one per cent a wealth tax higher taxes on the highest incomes higher taxes on large corporations and higher taxes on big profits coming from capital gains They also propose measures to shut down tax loopholes and tax havens and to tax web giants This book shows how we can share the wealth so everyone will be better off even the richest

You're Paid What You're Worth Jake Rosenfeld,2021-02-16 This is the book to throw at your human resources director not literally of course when any attempt is being made to bamboozle you about how decisions on pay have been made It is a closely argued thoroughly researched treatise on how we got here and how pay could be both fairer and more effective as a reward Stefan Stern Financial World A flat out revelation of a book by one of the nation s top scholars of the labor market required reading for anyone who cares about the future of work in America Matthew Desmond author of Poverty by America Jake Rosenfeld pulls back the curtain on the multifaceted cultural institutional and market forces at play in wage setting This timely book illuminates the power dynamics and often arbitrary forces that have contributed to the egregious inequality in the U S labor market and then lays out a clear blueprint for progressive change Thea Lee President of the Economic Policy Institute Job performance and where you work play a role in determining pay but judgments of productivity and value are highly subjective What makes a lawyer more valuable than a teacher How do you measure the output of a police officer a professor or a reporter Why in the past few decades did CEOs suddenly become hundreds of times more valuable than their employees The answers lie not in objective criteria but in battles over interests and ideals Four dynamics are paramount power inertia mimicry and demands for equity Power struggles legitimize pay for particular jobs and organizational inertia makes that pay seem natural Mimicry encourages employers to do what their peers are doing And workers are on the lookout for practices that seem unfair Jake Rosenfeld shows us how these dynamics play out in real world settings drawing on cutting edge economics and original survey data

with an eye for compelling stories and revealing details You re Paid What You re Worth gets to the heart of that most basic of social questions Who gets what and why On the Frontlines Nathan L. Street,2019-11-20 Our culture is under attack The battlefield is covered with the ruins of landmarks and monuments of the past dedicated to morality and natural law Throughout the centuries Christians have held high the banner of Jesus Christ for the world to see The culture has been protected and defended by the Christian soldiers in America since its founding However there is a darkness spreading throughout the land Leftist doctrines are gaining footholds and acquiring the fortresses of old The hallowed bastions of learning called American public schools once venerated by the world are now languishing crippled by the leftist ideologies they have now adopted in place of classical liberal education Christianity once the standard moral center of the community has now been replaced by pluralism relativism and postmodernism The epicenter of this transformation has been and still is the public schools On the Frontlines Exposing Satan s Tactics to Destroy a Generation is a clarion call from a Christian educator and administrator to the church It is time we as a body of believers stand up and be counted among those who refuse to allow the religion of the left to prevail **Bernie Sanders's Democratic Socialism** Nicolas Gachon,2021-03-20 This book provides a framework for understanding and analyzing Bernie Sanders s democratic socialism its origins its maturation and its evolution between 1972 when Sanders ran for the Vermont gubernatorial election for the first time and 2020 when he made his second presidential run The core argument is that Bernie Sanders s characteristic brand of socialism evolved from the mould of late 19th century utopian radicalism to radical demands for state and corporate accountability in the 21st century turning into a social movement for reparative justice that rose to national prominence in the wake of the Great Recession in 2008 and of the Occupy Wall Street movement in 2011 **Donald Trump and American Populism** Richard S. Conley,2020-06-18 This book evaluates the presidency of Donald Trump from a comparative historical approach to connect his populist style to his predecessors
