Application Forms Of Durban University:

Achieving Equity and Quality in Higher Education Mahsood Shah, Jade McKay, 2018-07-05 Across the world higher education is witnessing exponential growth in both student participation and types of educational providers. One key phenomenon of this growth is an increase in student diversity; governments are widening access to higher education for students from traditionally underrepresented groups. However, this raises questions about whether this rapid growth may in fact compromise academic quality. This book presents case studies of how higher education institutions in diverse countries are maintaining academic excellence while increasing the access and participation of students from historically underrepresented backgrounds. Including case studies spanning four continents, the authors and editors examine whether increasing widening participation positively impacts upon academic quality. This volume will be of interest and value to students and scholars of global higher education, representation and participation in education, and quality in higher education.

Re-imagining Curriculum Lynn Quinn, 2019-11-15 The book argues that academics, academic developers, and academic leaders need to undertake curriculum work in their institutions that has the potential to disrupt common sense notions about curriculum and create spaces for engagement with scholarly concepts and theories to re-imagine curricula for the changing times. Now more than ever in the history of higher education, curriculum practices and processes need to be shared; the findings of research undertaken on curriculum need to be disseminated to inform curriculum work. We hope the book will enable readers to look beyond their contextual difficulties and constraints to find spaces where they can dream and begin to implement innovative and creative solutions to what may seem like intractable challenges or difficulties.
