Around Oxford Postcard History:

Around Oxford Joseph A. Lordi, Dolores I. Rowe, 2009 *Around Oxford* features vintage postcards and photographs from Oxford and the surrounding area including Lincoln University the oldest African American institution of higher learning in America and Nottingham With the arrival of the Philadelphia to Baltimore railroad in 1860 Oxford began to grow and prosper Because the area is one of the most fertile regions of Pennsylvania it became a major agricultural center Along with carriage and candy making the surrounding area produced important industries including chrome and magnesium mining pottery making and the quarrying of limestone *The Oxford History of Popular Print Culture* Gary Kelly, Joad Raymond, Christine Bold, 2011 Planned nine volume series devoted to the exploration of popular print culture in English from the beginning of the sixteenth century to the present A Postcard History of the Passenger Liner Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting Around Oxford Joseph A. Lordi, 2009 *Along Massachusetts's Historic Route 20* Michael J. Till, 2012 Route 20 was named a federal highway in 1926 and for the first half of the 20th century it was Massachusetts's most important east west road Extending from Boston's dynamic Kenmore Square to bucolic Hancock Shaker Village on the New York border the road's history beauty and contribution to Massachusetts's vitality were unmatched Fortunately almost all of the original road still exists and can be traveled by the modern motorist seeking a nostalgic adventure In *Along Massachusetts's Historic Route 20* more than 200 vintage postcards tell the road's story Included are scenes along the Boston Post Road and Jacob's Ladder Trail two of the highway's most historic segments and also images of main streets village greens historic sites scenic rural vistas and of course the roadside tourist courts diners and gas stations that made automobile travel possible *Photographs Across Time: Studies in Urban Landscapes* Mary J. Thornbush and Sylvia E.

Thornbush, 2015-01-06 **Photographs Across Time** Studies in Urban Landscapes presents a record of urban environments in Britain including Oxford York Scarborough Dunbar Edinburgh and Inverness It is a unique demonstration of how digital photography bridges urban landscape studies with archaeology and heritage studies The book revisits several landscape and weathering studies in churchyards throughout England and Scotland in the UK The book explains cross temporal and archival applications of digital photography and explores the archaeological use of photographs Readers can also learn about issues related to creating and maintaining digital records as well as issues relevant to heritage sustainability Researchers landscape experts and professional photographers as well archivists will find **Photographs Across Time** as a handy reference for quantitative geomorphological studies on English heritage sites and the qualitative realm of historical archaeology

Public Space and the Ideology of Place in American Culture, 2009-01-01 We typically take public space for granted as if it has continuously been there yet public space has always been the expression of the will of some agency person or institution who names the space gives it purpose and monitors its existence And often its use has been contested These new essays written for this volume approach public space through several key questions Who has the right to define public space How do such places generate and sustain symbolic meaning Is public space unchanging or is it subject to our subjective perception Do we given the public nature of public space have the right to subvert it These eighteen essays including several case studies offer convincing evidence of a spatial turn in American studies They argue for a re visioning of American culture as a history of place making and the instantiation of meaning in structures boundaries and spatial configurations Chronologically the subjects range from Pierre L Enfant s initial majestic conceptualization of Washington D C to the post modern realization that public space in the U S is increasingly a matter of waste Topics range from parks to cities to small towns from open air museums to airports encompassing the commercial marketing of place as well as the subversion and re possession of public space by the disenfranchised Ultimately public space is variously imagined as the site of social and political contestation and of aesthetic change

Dahl's History of the Book William A. Katz, 1995 From cave paintings to computers this overview of the history of books and communication is written for the layperson and student It provides clear information on how books shaped and reflected major social political and literary developments As a general guide it moves from the earliest writing in the Middle East and Egypt to Greece Rome and early Christian contributions to book production and literacy Major sections discuss publishing during the Middle Ages and how the invention of printing drastically changed and improved the distribution of knowledge Later chapters take the reader from the age of encyclopedias in the seventeenth century to the great technological advances of the nineteenth and twentieth centuries For those who wish to pursue specific areas in the history of the book in greater detail there are three parts devoted to additional reading with descriptive critical annotations general histories and bibliographies scribes and printers and printing to the modern period Extensive notes and documentation will lead to additional sources

Architecture Thinking across Boundaries Rajesh Heynickx, Ricardo

Costa Agarez, Elke Couchez, 2021-01-14 While most studies on the history of architectural theory have been concerned with what has been said and written this book is concerned with how architecture theory has been created and transmitted Architecture Thinking across Boundaries looks at architectural theory through the lens of intellectual history Eleven original essays explore a variety of themes and contexts each examining how architectural knowledge has been transferred across social spatial and disciplinary boundaries whether through the international circulation of ideas transdisciplinary exchanges or transfers from design practice to theory and back again Dissecting the frictions transformations and resistances that mark these journeys the essays in this book reflect upon the myriad routes that architectural knowledge has taken while developing into architectural theory They critically enquire the interstices geographical temporal and epistemological that lie beyond fixed narratives They show how unstable vital and eminently mobile the processes of thinking about architecture have been

Snapshots and Short Notes Kenneth Wilson, 2020-08-14 Snapshots and Short Notes examines the photographic postcards exchanged during the first half of the twentieth century as illustrated first hand accounts of American life Almost immediately after the introduction of the generic postcard at the turn of the century innovations in small accessible cameras added black and white photographs to the cards The resulting combination of image and text emerged as a communication device tantamount to social media today Postcard messages and photographs tell the stories of ordinary lives during a time of far reaching technological demographic and social changes a family's new combine harvester that could cut 40 acres a day a young woman trying to find work in a man's world the sight of an airplane in flight However postcards also chronicled and shared hardship and tragedy the glaring reality of homesteading on the High Plains natural disasters preparations for war and the struggles for racial and gender equality With a meticulous eye for detail painstaking research and astute commentary Wilson surveys more than 160 photographic postcards reproduced in full color that provide insights into every aspect of life in a time not far removed from our own
