Artemisia Gentileschi The Language Of Painting:

Artemisia Gentileschi Jesse Locker, 2015-01-01 Hailed as one of the most influential and expressive painters of the seventeenth century Artemisia Gentileschi 1593 ca 1656 has figured prominently in the art historical discourse of the past two decades This attention to Artemisia after many years of scholarly neglect is partially due to interest in the dramatic details of her early life including the widely publicized rape trial of her painting tutor Agostino Tassi and her admission to Florence s esteemed Accademia del Disegno While the artist s early paintings have been extensively discussed her later work has been largely dismissed This beautifully illustrated and elegantly written book provides a revolutionary look at Artemisia s later career refuting longstanding assumptions about the artist The fact that she was semi illiterate has erroneously led scholars to assume a lack of literary and cultural education on her part Stressing the importance of orality in Baroque culture and in Artemisia s paintings Locker argues for her important place in the cultural dialogue of the seventeenth century

Locker, 2021-01-19 An important reassessment of the later career and life of a beloved baroque artist Hailed as one of the most influential and expressive painters of the seventeenth century Artemisia Gentileschi 1593 ca 1656 has figured prominently in the art historical discourse of the past two decades This attention to Artemisia after many years of scholarly neglect is partially due to interest in the dramatic details of her early life including the widely publicized rape trial of her painting tutor Agostino Tassi and her admission to Florence s esteemed Accademia del Disegno While the artist s early paintings have been extensively discussed her later work has been largely dismissed This beautifully illustrated and elegantly written book provides a revolutionary look at Artemisia s later career refuting longstanding assumptions about the artist The fact that she was semi illiterate has erroneously led scholars to assume a lack of literary and cultural education on her part Stressing the importance of orality in Baroque culture and in Artemisia s paintings Locker argues for her important place in the cultural dialogue of the seventeenth century *Artistic Representations of Suffering* Mark Celinscak, Curtis Hutt, 2021-10-18 Artistic expression frequently engages with the question of suffering In so doing it confronts the gravity and complexity of the human condition This volume investigates the relationship between art and suffering In short the contributors to this volume collectively demonstrate that suffering is an undisputed and shareable motivating experience This collection features original essays that focus on the subject of art and suffering including topics such as the representation of violence and the intersections of art and human rights Some of the key questions explored are as follows How has suffering motivated artists around the world

How have artists used their platforms to call attention to human rights abuses How can suffering be incorporated responsibly and ethically in works of art What role does art play in the struggle against violations of human dignity and the promotion of building a more equitable world Each essay is complemented by full color reproductions of artistic works that illustrate the concepts being discussed including a graphic essay on the topic of comfort women *The Italian Academies 1525-1700* Jane E. Everson, Denis V Reidy, Lisa Sampson, 2016-04-14 The intellectual societies known as Academies played a vital role in the development of culture and scholarly debate throughout Italy between 1525 1700 They were fundamental in establishing the intellectual networks later defined as the R publique des Lettres and in the dissemination of ideas in early modern Europe through print manuscript oral debate and performance This volume surveys the social and cultural role of Academies challenging received ideas and incorporating recent archival findings on individuals networks and texts Ranging over Academies in both major and smaller or peripheral centres these collected studies explore the interrelationships of Academies with other cultural forums Individual essays examine the fluid nature of academies and their changing relationships to the political authorities their role in the promotion of literature the visual arts and theatre and the diverse membership recorded for many academies which included scientists writers printers artists political and religious thinkers and unusually a number of talented women Contributions by established international scholars together with studies by younger scholars active in this developing field of research map out new perspectives on the dynamic place of the Academies in early modern Italy The publication results from the research collaboration The Italian Academies 1525 1700 the first intellectual networks of early modern Europe funded by the Arts and Humanities Research Council and is edited by the senior investigators Women Artists in the Early Modern Courts of Europe Tanja L. Jones, 2025-10-01 Women Artists in the Early Modern Courts of Europe c 1450 1700 presents the first collection of essays dedicated to women as producers of visual and material culture in the Early Modern European courts offering fresh insights into the careers of among others Caterina van Hemessen Sofonisba Anguissola Luisa Rold n and Diana Mantuana Also considered are groups of female makers such as ladies in waiting at the seventeenth century Medici court Chapters address works by women who occupied a range of social and economic positions within and around the courts and across media including paintings sculpture prints and textiles Both individually and collectively the texts deepen understanding of the individual artists and courts highlighted and more broadly consider the variety of experiences of female makers across traditional geographic and chronological distinctions The book is also accompanied by the Global Makers Women Artists in the Early Modern Courts digital humanities project www.globalmakers.ua.edu extending and expanding the work begun here **Authorizing Early Modern European Women** James Fitzmaurice, Naomi Miller, Sara Jayne Steen, 2025-10-01 The essays in this volume analyze strategies adopted by contemporary novelists playwrights screenwriters and biographers interested in bringing the stories of early modern women to modern audiences It also pays attention to the historical women creators themselves who be they saints or midwives visual

artists or poets and playwrights stand out for their roles as active practitioners of their own arts and for their accomplishments as creators Whether they delivered infants or governed as monarchs or produced embroideries letters paintings or poems their visions the authors argue have endured across the centuries As the title of the volume suggests the essays gathered here participate in a wider conversation about the relation between biography historical fiction and the growing field of biofiction that is contemporary fictionalizations of historical figures and explore the complicated interconnections between celebrating early modern women and perpetuating popular stereotypes about them *Reimagining the Magdalene* Siobhán Jolley, 2025-03-20 This book offers a new intersectional feminist approach to utilising and interpreting the visual reception of Mary Magdalene Through employment of Liberative Reception Criticism which develops traditional reception theory in line with liberative hermeneutics via the insights of intersectionality as critical theory Siobhán Jolley provides a novel means of analysing how women and particularly the Magdalene are imaged in Christian tradition Knowledge of both the biblical figure of Mary Magdalene and her cultural reception continue to be dominated by long discredited ideas about her life and sexuality which bear the hallmarks of their development under patriarchy Through close study of relevant biblical texts and extracanonical accounts and a comprehensive survey of the Magdalene's presentation in the Italian art of the Counter Reformation Jolley demonstrates that the patriarchal portrayal of the Magdalene as a sexualised penitent and mournful witness to the resurrection is sustained by its mythic attachment to biblical text Rather than adopting the same tropes uncritically we are invited to look again at artworks and related texts in order to explore what happens when the influence of patriarchy is actively and intersectionally resisted Ultimately the Magdalene is transformed from a reductive and patriarchally mythologised figure to a multidimensional character who is relatable and liberative as an exemplar

Fundamentals of Art History Anne D'Alleva, Michael Cothren, 2021-08-05 This invaluable guide enables students to get the most from their art history course Written in an accessible style the book introduces two basic art historical methods formal analysis and contextual analysis In this new edition revising author Michael Cothren has extended the discussion on iconography and iconology as well as adding discussions on the effects of the market and museums on art Greater emphasis is placed on the global and multicultural aspects of art creation and analysis with new images and more case studies There is more step by step guidance on how to use these methods to prepare for exams and write papers *Sex and Slaughter in the Tent of Jael* Colleen M. Conway, 2017 This book traces the retelling of the biblical story from Judges 4-5 in ancient retellings of the Bible visual art poems plays and novels The book shows how these cultural productions of an old biblical story intersect with broader conversations about the often conflicted and sometimes violent relationship between women and men
