Imagination, Music, and the Emotions Saam

Trivedi, 2017-08-07 Both musicians and laypersons can perceive purely instrumental music without words or an associated story or program as expressing emotions such as happiness and sadness But how In this book Saam Trivedi discusses and critiques the leading philosophical approaches to this question including formalism metaphorism expression theories arousalism resemblance theories and persona theories Finding these to be inadequate he advocates an imaginationist

solution by which absolute music is not really or literally sad but is only imagined to be so in a variety of ways In particular he argues that we as listeners animate the music ourselves imaginatively projecting life and mental states onto it Bolstering his argument with empirical data from studies in neuroscience psychology and cognitive science Trivedi also addresses and explores larger philosophical questions such as the nature of emotions metaphors and imagination
