The Efflorescence of Caricature, 1759-1838 Todd Porterfield,2017-07-05 Searing disputes over caricature have recently sparked flames across the world the culmination not the beginning of the story of one of modernity s definitive artistic practices Modern visual satire erupts during a period marked by reform and revolution by cohering

nationalisms and expanding empires and by the emerging discipline of art history This has long been recognized as its Golden Age It is time to look anew In *The Efflorescence of Caricature 1759-1838* an international interdisciplinary and intergenerational team of scholars reconfigures the geography of modern visual satire as the expansive narrative reaches from North America to Europe to China and the Ottoman Empire Caricature's specific visual cultures are also laid bare its iconographic means and material support as well as the diverse milieu of its making the military the art academy diplomacy politics art criticism and popular entertainment Some of its greatest practitioners James Gillray and Honoré Daumier are seen in a new light alongside some of their far flung and opportunistic pastichers Most trenchant assumptions about the consequences of caricature's rise come under intense scrutiny interrogated for its cherished and long vaunted civilizational claims on individual character artistic supremacy political liberty and global domination
