Bernie Sanders's Democratic Socialism Nicolas Gachon,2021-03-20 This book provides a framework for understanding and analyzing Bernie Sanders's democratic socialism its origins its maturation and its evolution between 1972 when Sanders ran for the Vermont gubernatorial election for the first time and 2020 when he made his second presidential run The core argument is that Bernie Sanders's characteristic brand of socialism evolved from the mould of late 19th century utopian radicalism to radical demands for state and corporate accountability in the 21st century turning into a social movement for reparative justice that rose to national prominence in the wake of the Great Recession in 2008 and of the Occupy Wall Street movement in 2011

Politicians may be sleazy and spineless but they re not stupid The candidate who tells the people what they want to hear is usually the one who wins facts be damned The only way to break the cycle is to understand why Americans fall for the deception over and over again Beck reveals the startlingly simple answer fear Progressives from both parties exploit this by offering solutions that are based on two things lies and an unrelenting hunger for power and control **The Wealth**

Hoarders Chuck Collins,2021-03-08 For decades a secret army of tax attorneys accountants and wealth managers has been developing into the shadowy Wealth Defence Industry These agents of inequality are paid millions to hide trillions for the richest 0 01% In this book inequality expert Chuck Collins who himself inherited a fortune interviews the leading players and gives a unique insider account of how this industry is doing everything it can to create and entrench hereditary dynasties of wealth and power He exposes the inner workings of these agents of inequality showing how they deploy anonymous shell companies family offices offshore accounts opaque trusts and sham transactions to ensure the world s richest pay next to no tax He ends by outlining a robust set of policies that democratic nations can implement to shut down the Wealth Defence Industry for good This shocking expos of the insidious machinery of inequality is essential reading for anyone wanting the inside story of our age of plutocratic plunder and stashed cash Also available as an audiobook **Stinking Rich** Carl

Rhodes,2025-01-21 Billionaires are an ultra elite social class whose numbers are growing alongside their obscene wealth while others struggle suffer or even die They represent a scourge of economic inequality but how do they get away with it A set of dangerous and deceptive inter connected myths portrays them as a force for good the heroic billionaire asserts they are gallant protagonists of the American Dream gone global the generous billionaire pretends that their philanthropic efforts and personal good deeds should be lauded for generosity and benevolence the meritorious billionaire insists that extreme wealth is a worthy reward for individual hard work and talent the vigilante billionaire claims to be able to solve the world s biggest problems where bureaucrats and politicians have failed Each of these myths enables billionaire wealth and power to set us back to old style feudalism and plutocracy Offering a trenchant critique this incisive book testifies to the growing international political will to take concrete actions in supporting economic justice and democratic equality *Be Free or Not Be Free* A. Y. Ph.D.,S. Y. Ph.D.,2020-11-19 *Be Free Or Not Be Free* is a discourse on the socialist freedom and how freedom in some socialist countries is really exercised It discusses many freedoms that socialism and the socialists often address to the people Freedom from Exploitations Freedom from Oppressions Freedom from Economic Deprivations Freedom from Inequalities Freedom from Many Burdens Freedom from Unhappiness Freedom from Nightmares and Freedom from Captivities Readers would discover that those promises of freedom are highly exalted and presented by the socialist leaders

yet in reality people in socialist countries could hardly enjoy those freedoms but they would see and experience corruptions through social ownership suppressions through big government economic deprivations through wealth distributions and inequalities through egalitarian society They also see many distortions evil abuses of power and limited freedom Be Free Or Not Be Free also reveals that the Scandinavian countries are not the socialist countries but they are the strong democratic countries with high tax high value of labor and strong free market enterprises It is not the socialist economic system but the capitalist economic operation that brings about the economic prosperity and great social welfares to the citizens of these Scandinavian countries Be Free Or Not Be Free also discusses the attempts of many democrats leftists and socialists in trying to deny the Christian faith Christian contributions Christian practices and Christian influences and how President Donald J Trump and his Administration turns the situations around as they try to repeal the Johnson s Amendment remove taxpayers mondy from funding abortions by Planned Parenthood and restore many Christian practices in public *Political Philosophy* Jonathan Quong,2026-03-03 How to understand a long standing puzzle in political philosophy the relationship between justice and legitimacy Can laws be unjust and yet remain in some sense morally legitimate In this book Jonathan Quong considers central issues in political philosophy through the lens of this single question He explores and evaluates recent influential work on this topic and then proposes a novel approach of his own The puzzle at the heart of his account is the phenomenon of legitimate injustice laws and policies that are substantively unjust yet may be legitimately imposed by government officials How can such laws be legitimate if as some have argued justice is the first virtue of social institutions Quong analyzes the work of those who deny that injustice committed by states can be legitimate simply by virtue of its democratic or procedural pedigree the Kantian account of legitimate institutions and justice instrumental approaches to political legitimacy and the recent wave of work in democratic theory focused on its egalitarian character Arguing that these analyses do not offer an adequate solution to the puzzle and that there are compelling reasons to revise or reject them Quong lays out his view and explains the implications for more general theories of political morality He argues that we can explain legitimate injustice by appeal to distributive justice If political disagreement is inevitable then unjust legislation is largely unavoidable it constitutes a burden that must be distributed according to just principles Quong s novel and illuminating framework offers a unique introduction to crucial questions in political philosophy **Arguing with Socialists** Glenn Beck,2020-04-07 A NEW YORK TIMES BESTSELLER The New York Times bestselling author of The Great Reset arms you to the teeth with information necessary to debunk the socialist arguments that have once again become popular and proves that the free market is the only way to go With his trademark humor Beck lampoons the resurgence of this bankrupt leftist philosophy with thousands of stories facts arguments and easy to understand graphics for anyone who is willing to ask the hard questions He shows that this new shiny socialism is just the same as the old one a costly and dangerous failure that leaves desperation poverty and bodies in its wake **The 12 Commandments of Socialism** A.Y Ph.D.,S.Y

Ph.D.,2020-10-13 The 12 Commandments of Socialism is an in depth description of the reality of life and the reality of socialism in socialist countries It proves the limited freedom and serious violations of human rights It presents how freedom is exercised with the limited accesses to Free Press Free Speech Free Assembly Free Trials By Jury Free Travel Free Votes and Free Social Benefits The 12 Commandments of Socialism also leads the readers to the enlightenment and the fact that the socialist egalitarian utopia has never become a reality in any country that had and has been applying socialism in more than one century of its existence Socialism indeed delivers so many injustices sufferings inequalities suppressions poverty and deaths The 12 Commandments of Socialism is not a speculation or theory but it is well supported with many true stories of socialist victims These victims faced either the life long imprisonment and hard labor camps for 10 years to 30 years or the execution of their lives and the endless sufferings of their family members Millions of people were starved or run their exodus from the socialist regimes The 12 Commandments of Socialism is composed with a great writing style and rhetorical devices that are used to lead the readers to the reality of socialism and remind the readers to be discerning to the many great and tempting promises of socialism and the socialists who promise heaven but hell is the final outcome and destination The 12 Commandments of Socialism is also a great philosophical and religious discussion of many areas of life and value Thus is it not only a great book for reading but also for reflections and refreshments It is also a touching and inspiring book for a must to read book
