A History of the Apocalypse Catalin Negru, 2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history

Metaphysical World of Isaac Newton John Chambers, 2018-02-13 Newton's heretical yet equation incisive writings on theology spirituality alchemy and prophecy written in secret alongside his Principia Mathematica Shows how Newton's brilliance extended far beyond math and science into alchemy spirituality prophecy and the search for lost continents such as Atlantis Explains how he was seeking to rediscover the one true religion that existed prior to the Flood of Noah when science and spirituality were one Examines Newton's alternate timeline of prehistory and his study of prophecy through the Book of Revelations including his prediction of Apocalypse in the year 2060 Isaac Newton 1643 1727 is still regarded by the world as the greatest scientist who ever lived He invented calculus discovered the binomial theorem explained the rainbow built the first reflecting telescope and explained the force of gravity In his famous masterpiece Principia Mathematica he described the mechanics of the physical universe with unimagined precision proving the cosmos was put together according to laws The perfection of these laws implied a perfect legislator To Newton they were proof that God existed At the same time Newton was writing Principia Mathematica he was writing a twin volume that he might have called had it been completed Principia Theologia Principles of Theology This other masterpiece of Newton kept secret because of the heresies it contained consists of thousands of essays providing equation incisive answers to the spiritual questions that have plagued mankind through the ages Examining Newton's secret writings John Chambers shows how his brilliance extended into alchemy spirituality the search for lost continents such as Atlantis and a quest to uncover the corrupted texts that were rife in the Bibles of his time Although he was a devout Christian Newton's work on the Bible was focused not on restoring the original Jewish and Christian texts but on rediscovering the one true religion that existed prior to the Flood of Noah when science and spirituality were one The author shows that a single thread runs through Newton's metaphysical explorations He is attempting to chart the descent of man's soul from perfection to the present day The author also examines Newton's alternate timeline of ancient history and his study of prophecy through the Book of Revelations including his prediction of an Apocalypse in the year 2060 followed by a radically transformed world He shows that Newton's great hope was that these writings would provide a moral compass for humanity as it embarked upon the great enterprise that became our technological world *The Dawning of the Golden Age of Aquarius* Albert Amao Ph. D., 2012 We are at the threshold of a

transitional period from the Age of Pisces to the Age of Aquarius What should we expect from this coming New Era What are its signs What is the fate of human spirituality What will the new concepts of God and of religion be This book attempts to answer these questions based on well researched sources complemented and endorsed by cosmology archeology psychology religion Near East studies and mythology among other scientific disciplines The book also intends to clarify the confusion created by some Protestant religious leaders and sensationalistic writers who have misinterpreted the signs of the transitional period as the end of the world The truth is that we are witnessing a shift of ages that is the slow evolution from the Piscean Era to the commencing of a new worldwide social order a new chapter in human history called the Aquarian dispensation The huge conspiracy propounded by false prophets and some New Age writers whether overtly or covertly feeds the fear and anxiety of ordinary people with unfounded apocalyptic propaganda This book attempts to give the reader an accurate perspective regarding the planetary transformations that are taking place it offers hope and inspiration as we approach the Golden Age

Ancient Gods Jim Willis, 2017-02-14 Where do we come from What are the origins of modern civilization Do the world's pyramids the Nazca Lines Easter Island statues and other enigmatic structures archeological wonders and geographic anomalies contain evidence of ancient gods Sifting through the historical and archaeological evidence Ancient Gods Lost Histories Hidden Truths and the Conspiracy of Silence by ordained minister Jim Willis probes the myths stories history and facts of ancient civilizations lost technologies past catastrophes archetypical astronauts and bygone religions to tease out the truth of our distant past and modern existence It takes an in depth look at the facts fictions and controversies of our ancestors origins who we are as a people and who might have come before us Ancient Gods tackles more than 60 nagging stories of ancient gods ancestors alien visitors theories and explanations such as 40 000 years ago why did our ancestors across Europe and Asia crawl deep underground sometimes as much as a mile to paint magnificent images on the walls of caves How did the megalithic temple site called G bekli Tepe come to be built 11 600 years before the agricultural revolution and before humans learned how to grow their own food How were massive stones weighing up to four tons dragged 140 miles across England to build Stonehenge Who and why were pyramids built on the equatorial band circling the earth What does modern DNA analysis tell us of mankind's heritage Are we to believe the Ancient Alien Theory Along the way Willis examines human history and searches for the sparks of contemporary society It also includes a helpful bibliography and an extensive index adding to its usefulness

Religion, Supernaturalism, the Paranormal and Pseudoscience Hodayun Sidky, 2019-11-30 Religion Supernaturalism the Paranormal and Pseudoscience provides a comprehensive rejoinder to the challenges posed to science scientific anthropology evolutionary theory and rationality by the advocates of supernatural paranormal and pseudoscientific perspectives and modes of thought associated with the current rise of irrationalism antiintellectualism and emboldened religious fundamentalism and violence Drawing upon H Sidky's scientific anthropological background and ethnographic field research of supernatural and paranormal beliefs and practices

in several cultures over three decades the book answers several important questions Why do humans have a proclivity for the supernatural and paranormal thinking Why has humanity remained shackled to sets of ideas inherited from a violent past that have no basis in reality and which bestow an illusionary solace promote bloodshed endless cruelties and fervent hatreds and have come at a high cost Why have ancient superstitions been held as sacred inviolate truths while other aspects of the archaic belief systems of which they were a part have long been discarded Why have not humans outgrown religion and paranormal beliefs

Throw No More Stones Frank Conte, 2022-11-03 I don't have all the answers I make no claim how I came to perceive should replace today's acceptable understanding of the Bible But what I do know is one thing I do know About of nearly eight billion humans on earth of necessity no two were ever appointed to think or act precisely alike But since souls were created in the image of God humans inevitably followed suit meaning humans are intelligent However without solid evidence to back up questions of human life mysteries who is qualified to proclaim what is truth and what is not So as a novice curiosity beckoned me to strive However it has taken me forty seven years of on again off again studying fifteen years of that to undergo a skill I did not possess that as an author I stood fast in my pursuit to try to do the best I could especially to share with those who are likewise disadvantaged Anything and everything becomes possible if one is stimulated enough There is nothing to fear for everything in life has a purpose Not comfortable as a proselytizer but if my effort in some way could motivate at least just one other soul among the eight billion I consider this struggle of mine justified This book is dedicated to all herein mentioned and then some authors who played a crucial role in my understanding what the meaning of life is all about

[Bible Code II](#) Michael Drosnin, 2003-10-28 The Bible code the ancient code encrypted in the Bible that may reveal our future was made known to the world by investigative reporter Michael Drosnin Now he reveals startling new predictions warning that we may have only three years to stop the countdown to Armageddon This dramatic account opens on the morning of September 11 2001 when Drosnin witnessed the attack on the World Trade Center and then found the terrible event predicted in detail in the 3 000 year old Bible code But according to the code September 11 was only the beginning The Bible code says we are already in the End of Days the Apocalypse foretold by all three major religions of the West Drosnin has traveled the globe to meet with world leaders to prevent the impending danger and to search for the Code Key a long buried ancient object that may completely unlock the Bible code just in time to save our world
