

The background of the book cover is an abstract composition. It features a dark blue field with various red and white geometric elements. In the top left, there's a red circular shape. In the top right, there are several concentric red circles. A large red triangle is positioned in the middle right. Another red triangle is in the bottom right. A red spiral is in the bottom left. White lines and shapes, including a small circle and some angular forms, are scattered across the blue background.

Approaches And Methods In Language Teaching Cambridge Language Teaching Library:

Approaches and Methods in Language Teaching Jack C. Richards, Theodore S. Rodgers, 2001-04-09 In addition to the approaches and methods covered in the first edition this edition includes new chapters such as whole language multiple intelligences neurolinguistic programming competency based language teaching co operative language learning content based instruction task based language teaching and The Post Methods Era Approaches and Methods in Language Teaching Jack C. Richards, Theodore S. Rodgers, 2001-03-12 In addition to the approaches and methods covered in the first edition this edition includes new chapters such as whole language multiple intelligences neurolinguistic programming competency based language teaching co operative language learning content based instruction task based language teaching and The Post Methods Era *Approaches and Methods in Language Teaching* Jack C. Richards, Theodore Stephen Rodgers, 1986-01-31 This book presents a clear description and analysis of the major approaches and methods used in second and foreign language teaching *Establishing Self-Access* David Gardner, Lindsay Miller, 1999-03-11 Establishing Self Access examines establishing maintaining and developing self access language learning SALL While much of it presents practical ideas dealing with issues related to SALL they are supported by references to relevant literature and research This link between theory and practice makes the debate about SALL accessible and makes this a useful resource for establishing and running self access learning facilities Its unique features include a typology of self access facilities a discussion about how to manage self access a step by step guide on evaluating self access a wide variety of practical suggestions for implementing self access in different contexts It is suitable for anyone concerned with self access from pre service teacher trainees to experienced teachers and from managers of dedicated self access centres to administrators concerned with financing self access facilities *Language Test Construction and Evaluation* J. Charles Alderson, Caroline Clapham, Dianne Wall, 1995-05-26 This book describes the process of language test construction and reviews current practice Beyond Training Jack C. Richards, 1998-02-13 Beyond Training examines the nature of second language teacher development and how teachers practices are influenced by their beliefs and principles It seeks to move discussion of language teacher development beyond the level of training which reflects a technical view of specific teaching practices Instead it takes a more holistic approach to teacher development built on the notion of the teacher as critical and reflective thinker The argument pursued throughout is that teacher education needs to engage teachers not merely in the mastery of techniques but in an exploration of the knowledge beliefs and attitudes that underly their teaching practices Materials Development in Language Teaching Brian Tomlinson, 2011-04-07 Materials Development in Language Teaching aims to help readers apply current theoretical principles and research findings to the practical realities of developing and exploiting classroom materials The authors also suggest new ideas and directions in materials development which readers can pursue for themselves This book is accessible to readers with little previous experience in the field and is essential reading for all those involved in

developing materials for language teaching In the second edition of this highly popular title each chapter has been comprehensively revised and updated to take into account both recent research and the significant technological developments since the first edition was published in 1998 Two new chapters have been added to assess the potential of electronic media for materials development These chapters include an overview of the technologies available as well as individual case studies and activities

Computer Assisted Learning Ivan Tomek, 1992-05-27 ICCAL the International Conference on Computers and Learning is a forum for the exchange of ideas and presentation of developments in the theory and practice of computer uses in education with a focus on post secondary education ICCAL 92 was held at Acadia University in Wolfville Nova Scotia Canada June 17 20 1992 This volume presents the proceedings of ICCAL 92 and features 45 submitted and 6 invited papers Topics addressed include hypermedia systems multimedia learning environments educational strategies knowledge based tutors program visualization systems intelligent tutoring systems mouse and touchscreen comparison cooperative multimedia authoring systems language learning spelling remediation teaching geometry a tutoring assistant for arithmetic a learning package for statistics conversational pattern learning adaptive navigational tools and many more
