Nights are marred by the relentless pounding of your heartbeat, vertigo, isolation. Months, then years, go by searching for any kind of relief from the mounting pain and confusion. This book chronicles the author's harrowing experience with SCDS, a rare inner ear condition causing hearing and balance issues. Desperately seeking answers, she is forced to turn inward, calling on her intuition for the motivation and courage to move forward. Through this candid retelling of her own experience with SCDS, the author illuminates the mysteries of this shocking illness and offers a practical guide for living intuitively, understanding SCDS, and coping with an invisible illness. **Teaching Adolescents Religious Literacy in a Post-9/11 World** Robert Nash, Penny A. Bishop, 2009-11-01 For thousands of years, religion has been a key element of human societies. Whenever we, as educators, exclude or minimize religion's vast role in society, we leave out a large part of our world's shared history. This is a serious act of educational omission, even neglect, on the part of our nation's public middle and secondary schools, particularly when adolescents are so ready to engage in meaningful conversation about the world that surrounds them. Our book's central purpose is to provide middle-level and high school teachers with the necessary background knowledge and pedagogical skills necessary to help adolescents become religiously literate learners and citizens. Currently, there is no text like ours on the market that both covers a number of world religions and presents concrete recommendations for teaching and learning this material. Our book is meant to educate the following audiences: teacher educators, middle-level and high school teachers in all content areas, administrators, school boards, and parents. For us, educating for religious literacy is all about bringing adolescents into the 21st century of teeming religious and spiritual diversity, a long-neglected component of the multicultural curriculum in public schools. In a post-9/11 world, religious literacy requires that students understand the

whats and whys of differing religious beliefs both in their own country and elsewhere It means looking for commonalities as well as differences between and among the great wisdom traditions both nationally and internationally It is about understanding how all of us might live peacefully in a religiously diverse world Our book accomplishes these goals by being informative practical experiential case based and above all accessible to beginners **Like Love** Maggie Nelson,2024-04-02
