Building Social Business Yunus:

Building Social Business Muhammad Yunus, 2010-05-11 Nobel Prize winner and bestselling author of *Banker to the Poor* shows how entrepreneurial spirit and business smarts can be harnessed to create sustainable businesses that can solve the world's biggest problems a reminder that capitalism can take kinder forms Spectator Social business is a visionary new model for capitalism developed by Muhammad Yunus the practical genius who pioneered microcredit and won the Nobel Peace Prize for his efforts to combat global poverty Now social business which harnesses the energy of capitalism to fulfill human needs rather than reward shareholders is being adopted by leading corporations as well as entrepreneurs and social activists across Asia South America Europe and the United States Through examples of corporations such as BASF Adidas Danone Uniqlo and others Building Social Business shows how an inspiring theory has become a world altering practice and offers practical guidance for those who want to create social businesses of their own

Building Social Business

Muhammad Yunus, 2010 Muhammad Yunus the practical visionary who pioneered microcredit and won the 2006 Nobel Peace Prize has developed a new dimension for capitalism which he calls social business By harnessing the energy of profit making to the objective of fulfilling human needs social business creates self supporting viable commercial enterprises that generate economic growth even as they produce goods and services that make the world a better place Here Yunus shows how social business has gone from being a theory to an inspiring practice adopted by leading corporations entrepreneurs and social activists across Asia South America Europe and the US He demonstrates how social business transforms lives offers practical guidance for those who want to create social businesses of their own explains how public and corporate policies must adapt to make room for the social business model and shows why social business holds the potential to redeem the failed promise of free market enterprise From publisher description Building Social Business by Professor Muhammad YUNUS. Analyzing the Advantages and the Limits of Microcredits Jean Cédric Obame Emame, 2018-09-19 Seminar paper from the year 2016 in the subject Business economics Miscellaneous grade A Atlantic International University course SEMINAR ADMINISTRATIVE DEVELOPMENT language English abstract A social business is a new type of businesses designed by Professor Muhammad Yunus to serve social purposes Yunus was a former economics professor at Dhaka University and the founder and managing director of Grameen Bank lenders of microcredits to world's poorest who won the 2006 Nobel Peace Prize A social business is an alternative against poverty and its objective is to make the poor participate in the process that helps them get out of that situation of slavery poverty by causing them to become micro entrepreneurs who increase their income in order to become independent people The process will eventually change their living conditions and living standards In Yunus words there are two kinds of social businesses The first category is one that is a non loss Non dividend Company whose main purpose is basically a social goal The second category is a profit making company possessed by poor people devoted to a well defined social cause Besides social businesses must be self sustaining and its owners have to be dedicated to never take any

dividend beyond the return of the original amount they put in the business Yunus Above all his book is very amazing as Yunus proposes a new model to solve the problems of poverty not with more charities but with the creation of social businesses Charities on the contrary encourage dependence and have not resolved the issue of poverty until now In that perspective Yunus 2010 sustains that for years governments have been incapable of solving the problems of poverty Conversely the number of poor people has increased over the years This clearly illustrates that solving the issue of poverty is not only to be a governmental solution as governments have proved to be incompetent in this respect Another solution was to be found it is the one he proposes in his book In fact social businesses have become so successful that traditional capitalism is thinking somewhat how to shift the way things have been handled on their part so far As an illustration Yunus 2010 thinks that social business is a new type of capitalism that will help humankind to overcome poverty and have a better life "Building Social Business" by Muhammad Yunus. An Essay Christopher Mills,2016-08-03 Essay from the year 2016 in the subject Business economics Company formation Business Plans American International University Bangladesh course Psychology language English abstract Yunus in his book Building Social Business dedicates the nine short chapters of the book to explaining the meaning of a social business in the current world Many scholars have characterized it way before Yunus did However Yunus still thinks of a social business as just another form of monetary association that connects an ecological social and even moral ecological target with a business He also provides a guide in relation to how the new businesses can expand and even develop in different dimensions and also thrive in the business world In the real sense I discovered much to appreciate in the book as far as Yunus arguments are put into consideration The essay aims at analyzing the book Building Social Business by majorly focusing on his ideas on social business strategies and the experiences provided in the book **Creating a World Without Poverty** Muhammad Yunus,2007 The author describes his vision for an innovative business model that would combine the power of free markets with a quest for a more humane egalitarian world that could help alleviate world poverty inequality and other social problems **Social Business** Andrea Grove,Gary A. Berg,2014-02-13 Conceptualized and put into practice by Nobel Peace Prize Laureate and Presidential Medal of Freedom recipient Dr Muhammad Yunus social businesses work to address social ills such as poverty lack of health care gaps in education and environmental challenges This book explores the ideation practice and evaluation of the concept of social business Not just theoretical foundations but several case studies of social businesses around the world and state of the art assessment of the issues that arise in the planning marketing and evaluation of social businesses are featured in this book This cutting edge collection of articles presented by the California Institute for Social Business CISB in collaboration with Professor Yunus is one of the first comprehensive collections of theory and research on the emerging field of social business The diverse group of authors come from around the world and from various disciplinary backgrounds representing the leading academic experts on social business phenomena *Building Social Business : the New Kind of Capitalism that Serves Humanitys Most Pressing Needs*
