Building Culture Innovation Practical Framework Ebook:

EBOOK: Leadership and Change for the Health Professional Elizabeth A. Curtis, John Cullen, 2017-06-16 Leadership and Change for the Health Professional will provide health professionals with the latest thinking on leadership theory and research. It highlights the issues that can block successful healthcare leadership initiatives and explores ways of constructively engaging with the opportunities provided by change. Each chapter draws out practical lessons for effective and efficient leadership of care that is compassionate and safe. Leaders and students at all levels will be able to use this book to expand their leadership repertoire in a text that engages with many themes including: The basics of leadership and the idea of leadership as a calling; Motivating employees; Implicit leadership theory; Developing trust; Building learning organisations; Gender and equality; Planning and organising change in healthcare; Leading change; The links between the theory and practice of healthcare leadership are skilfully explored with examples of research implemented in practice and the textbook further equips your study with helpful summaries and suggestions for further reading. This is essential reading for all healthcare professionals in clinical practice as well as students studying or engaged in research on health care management and leadership. With a foreword by Thomas Garavan, Edinburgh Napier Business School, UK. Amongst the vast number of leadership texts published every year, this book stands out. It has been edited with considerable care by two highly respected scholars in the field to make it accessible to all those interested in and practising leadership, whether healthcare professionals or students. It is well organised and moves seamlessly to address many important questions about the nature of leadership, including important questions of ethics, gender, trust, motivation, innovation, teams and distributed leadership. The final section focuses on leading change in healthcare, a critical element of leadership practice in today's world. Too many leadership books ignore context. This book, however, is firmly rooted in the healthcare context and aspires to help professionals in this sector to reflect deeply on the complexities of leading through uncertain times. Whilst each chapter stands alone, the book's merit is in offering multiple perspectives. Curtis and Cullen have encouraged the book's contributors to address the big debates and themes in healthcare leadership today whilst keeping in sharp focus the practice of leadership. Sharon Turnbull, Visiting Professor, Lancaster University Management School, UK. In *Leadership and Change for the Health Professional*, Elizabeth Curtis and John Cullen have crafted an exceptionally timely collection of practically based research insights. As global healthcare systems face disruptive and often uncomfortable forces for change, this book tackles complex topics that health leaders must understand. While oriented toward generative practice and creative leadership skills, Curtis and Cullen do not shy away from engaging with controversial aspects of leadership development, such as bias, gendered practice or even clinical failure, making it a valuable resource for educators and practitioners alike. Accessible and lively, *Leadership and Change for the Health Professional* is a successful blend of current issues with a visionary future. Kathy Lund, Dean, Board of Trustees, Distinguished Professor of Leadership Ethics, Gustavus Adolphus College, USA. Curtis and Cullen

bring together a comprehensive overview of leadership from its historical development up to its role within the current healthcare context presented by a variety of scholars The particular challenges and demands faced by leaders and those who aspire to lead are discussed within and it addresses the many facets of leadership approaches Anyone interested in the development of leadership and change will find this particularly stimulating and a valuable text for academic and students alike Alison H James School of Healthcare Sciences Cardiff University UK This book covers many aspects of leadership which are timely in nature and directly relevant to health professionals The contributors are highly respected and offer different perspectives on this complex issue We need to encourage practitioners to see themselves as leaders this evidence based text will serve to guide them in this quest De emphasising the individual leadership qualities and including those of teams makes this book stand out from others The NHS features prominently but despite this readers from other countries should be able to easily transfer the content to their own health services The useful websites at the end of each chapter provide further direction for readers This is a text that is written with a very positive stance even though the difficulties of being a leader are not ignored It ends with a discussion on the vision for leadership at individual team and organisational levels Lots to read absorb and you can do this a chapter at a time which is great Professor Bridie Kent Head of School of Nursing and Midwifery Plymouth University UK This book addresses an important topic where there is huge scope to add value This is partly due to the scale of the NHS The language makes the text accessible to professionals as well as academics It is also good to see that the issue of learning organisations is addressed as well as impact of leadership on patients Professor John G Burgoyne Lancaster University Management School UK Leadership and Change for the Health Professional is a timely and authoritative academic and professional exposition of the challenges for clinicians and healthcare managers in carrying out their management roles in our modern medical and healthcare systems Its focus on change is both apt and relevant in the context of the dynamic development of our healthcare structures Niamh Brennan Michael MacCormac Professor of Management University College Dublin

EBOOK: Healthcare Management Kieran Walshe, Judith Smith, 2017-10-27 This popular book is written by leading experts in the field and covers all the key aspects of healthcare management Written with healthcare managers professionals and students in mind it provides an accessible and evidence based guide to healthcare systems services organizations and management Key areas covered include Structure and delivery of healthcare services in the international context including mental health acute care primary care chronic disease and integrated care Allocating resources for healthcare setting and managing priorities Health technologies research and innovation Global health policy governing health systems across borders Patient and public involvement in healthcare Healthcare governance and performance This third edition has been significantly rewritten with 10 new contributors and a new chapter structure designed to better support learning practical application and further study In addition there is a more international focus and each chapter includes new case studies giving global examples of health systems and services new and updated learning

activities to encourage application to your own organization and a range of links to useful online resources Healthcare Management is essential research based reading for students teachers and healthcare professionals involved in management research and health policy making Walshe and Smith have assembled an invaluable introduction to healthcare management and health systems With their fellow authors they provide a comprehensive review of a range of issues related to the funding and provision of care and how services are organised and managed Now in its third edition Healthcare Management has been updated and revised to meet the needs of teachers and students alike Professor Chris Ham Chief Executive The King's Fund UK This book covers the main areas of knowledge which managers need and gives tools for thinking and empirical examples relevant to current challenges Evidence based management might not always be possible but this book gives a way for a manager to become research informed and therefore more effective This third edition of the book is even more relevant internationally and improved to help readers apply the ideas to their situation Professor John Vretveit Director of Research LIME MMC The Karolinska Institute Sweden No one learns to be a manager in a classroom or from a book but books that take this disclaimer as their starting point are indispensable Walshe and Smith and their fellow authors invite their audience healthcare managers healthcare policy makers and postgraduate students taking courses in healthcare management to critically combine experiential learning with academic learning and to acquire knowledge from both practice and theory By doing so they have found the third way between the advocates of evidence based management and their critics Dr Jan Kees Helderma Associate Professor in Public Administration Institute for Management Research Radboud University Nijmegen the Netherlands

EBOOK: Implementing Excellence in your Health Care Organization: Managing, Leading and Collaborating Robert McSherry, Jerry Warr, 2010-07-16 This second book in this practical introductory series on practice issues in healthcare explores the key issues and factors which influence the workings of a healthcare organisation and how these may be addressed through collaborative working and user focused care at an introductory and practical level The book will be presented in three sections Working in Organisations Collaborative working User Focused Care The emphasis of this second text is on how the organization and those who work within it contribute to both positively and negatively the excellence of the healthcare organization and the care it gives Rather than a theoretical tome on team working leadership and change management this book instead highlights and explores the tools and techniques that ALL healthcare staff need to be successful employees and managers delivering excellent care The authors will outline and examine the evidence available for all areas covered both to support and to critique excellence standards and give a lively and practical introduction to the key organizational factors of a healthcare setting Meaty topics abound including Management leadership ethics equity governance user involvement team working interprofessional excellence The focus on multiprofessional working will make this accessible to a variety of healthcare groups In keeping with the series the book will include case examples real life practice and reflective exercises as well as the theory needed to inform delivery of excellence Contributors Claire Brewis Dr

Corrina Dickson Dr Lee Ann Fenge Karen Grimwood Dr Sarah Hean Vanessa Heaslip Jenny Kell Melaine McSherry Dr Sabi Redwood Lisa Smith Kevin Stubbings Jackie Tonkin Katie Tucker
