Acupuncture Logic Acupuncture Logic:

Acupuncture Logic Michael J. Migliore, 2005-12-20 The information contained in this book although familiar to many practitioners and students is presented in a concise logistical format This unique method of utilizing acupuncture treatment algorithms for differential diagnosis of disease states is logically systematic and useful both as an acupuncture treatment text and reference guide The compilation of material is extracted from Chinese Acupuncture and Moxibustion Foreign Language Press Beijing The disease states are listed alphabetically and are located at the top of the page They are then subcategorized and differentiated according to their main manifestations The acupuncture treatment points that are specific to the disease state are found next followed by the tongue and pulse diagnosis Located at the bottom of the page are acupuncture treatment points that are common to the various subdivisions of the disease states It is often helpful to start at the bottom of the page identifying common acupuncture treatment points to each subdivision if there are any This unique presentation of the material appears visually clear uniform and easier to decipher and commit to memory The appendix contains the disease states and acupuncture treatment points listed in a quick reference chart This document will prove to be a valuable tool to both practitioner and student

Applied Intelligence De-Shuang Huang, Wei Chen, Chuanlei Zhang, Yijie Pan, Qinhu Zhang, Xiangzeng Kong, 2025-02-24 This 2 volume set CCIS 2387 2388 constitutes the proceedings of the Second International Conference on Applied Intelligence ICAI 2024 held in Zhengzhou China during November 22 25 2024 The 72 full papers presented in this proceedings were carefully reviewed and selected from 228 submissions The papers cover a wide range on theoretical aspects of biomedical data modeling and mining computer vision and deep learning They were organized in topical sections as follows Part I Biomedical data modeling and mining information security pattern recognition Part II Image Processing intelligent data analysis and prediction machine learning

Healthcare and Medical Devices Jay Kalra and Nancy J. Lightner, 2022-07-24 Healthcare and Medical Devices Proceedings of the 13th International Conference on Applied Human Factors and Ergonomics AHFE 2022 July 24 28 2022 New York USA

Acupuncture in Neurological Conditions Val Hopwood, Clare Donnellan, 2010-07-23 Written by two leading experts in the field Acupuncture in Neurological Conditions aims to improve patient care by combining Western and Traditional Chinese Medicine TCM concepts of treatment The language of TCM is uniquely combined with that of evidence based clinical reasoning to provide an approach relevant to both acupuncture and physiotherapy clinical practice All major types of neurological conditions encountered in clinical practice are examined Chinese medical patterns relevant to the application of acupuncture are described as well as key patterns of dysfunction based on a Western medical perspective The place of acupuncture within the overall management of different neurological conditions is also discussed Clinical reasoning options from both TCM and Western medical perspectives are provided and illustrated by real cases from clinical practice forming a sound platform for true integrated medicine Fully evidence based Provides clinical reasoning options from TCM and Western medical

perspectives Illustrates clinical reasoning with real cases from clinical practice Provides detailed examination of all major types of neurological conditions encountered in clinical practice

Advances in Human Factors and Ergonomics in Healthcare and Medical Devices Nancy J. Lightner, Jay Kalra, 2019-06-10 This book explores how human factors and ergonomic principles are currently transforming healthcare It reports on the design of systems and devices to improve the quality safety efficiency and effectiveness of patient care and discusses findings on improving organizational outcomes in the healthcare setting as well as approaches to analyzing and modeling those work aspects that are unique to healthcare Based on papers presented at the AHFE 2019 International Conference on Human Factors and Ergonomics in Healthcare and Medical Devices held on July 24 28 2019 in Washington DC USA the book highlights the physical cognitive and organizational aspects of human factors and ergonomic applications and shares various perspectives including those of clinicians patients health organizations and insurance providers Given its scope the book offers a timely reference guide for researchers involved in the design of medical systems and healthcare professionals managing healthcare settings as well as healthcare counselors and international health organizations

Advances in Social and Occupational Ergonomics Richard H. M. Goossens, 2018-06-23 This book reports on cutting edge research on social and occupational ergonomics presenting innovative contributions to the optimization of sociotechnical management systems related to organizational policy and logistical issues It discusses timely topics related to communication crew resource management work design participatory design as well as teamwork community ergonomics cooperative work and warning systems and explores new work paradigms organizational cultures virtual organizations telework and quality management The book also describes pioneering infrastructures implemented for different purposes such as urban health and enterprise and examines the changing role of automated systems offering innovative solutions that address the needs of particular populations Based on the AHFE 2018 International Conference on Social and Occupational Ergonomics held in Orlando Florida USA on July 21 25 2018 the book provides readers with a comprehensive overview of the current challenges in both organizational and occupational ergonomics highlighting key connections between them and underlining the importance of emotional factors in influencing human performance

Evidence-based Clinical Chinese Medicine - Volume 5: Allergic Rhinitis Claire Shuiqing Zhang, Qiulan Luo, 2018-08-30 Evidence based Clinical Chinese Medicine provides a whole evidence analysis of the Chinese medicine management of allergic rhinitis Evidence from the classical Chinese medicine literature contemporary clinical literature and the outcomes of clinical trials and experimental studies are reviewed analysed and synthesized The data from all these sources are condensed to provide evidence based statements which will inform clinical practice and guide future research This book has been designed to be an easy reference at the point of care During a patient consultation Chinese medicine practitioners can refer to this book for guidance on which Chinese herbal medicine formulas specific herbs or acupuncture points can best treat their patient and be confident there is evidence which supports its use Currently Chinese

medicine practitioners who develop a special interest in a particular health condition such as allergic rhinitis have to consult a variety of sources to further their knowledge Typically they use the contemporary clinical literature to understand the theory aetiology pathogenesis and obtain expert opinions on the Chinese medicine management of allergic rhinitis They search the electronic literature to identify systematic reviews of clinical trials if any exist to obtain assessments of the current state of the clinical evidence for particular interventions If they have the skills and resources they may search the classical Chinese medicine literature for an historical perspective on treatments that have stood the test of time This book provides all of this information for practitioners in one handy easy to use reference This allows practitioners to focus on their job of providing high quality health care with the knowledge it is based on the best available evidence **Integrative**

Rheumatology Randy Horwitz, Daniel Muller, 2011 In this volume the authors describe a rational and evidence based approach to the integrative therapy of rheumatologic allergic and autoimmune disorders integrating the principles of alternative and complementary therapies into the principles and practice of conventional medical therapy Research Design in Chinese Medicine Dongcheng Li, 2025-01-03 Research Design in Chinese Medicine Linking Social and Health Sciences is an innovative and comprehensive guide that bridges the ancient wisdom of Traditional Chinese Medicine TCM with modern research methods in social and health sciences Authored by an expert with a background in Chinese medicine and a doctorate in education from Johns Hopkins University this book is set to revolutionize the way TCM is studied and practiced in the contemporary world Designed for a diverse readership from TCM students and practitioners to those in social sciences and holistic medicine the book provides a unique integration of traditional techniques and modern research approaches It offers invaluable resources for Doctor of Acupuncture and Herbal Medicine DAHM students helping them deepen and refine their research skills Additionally it serves as an essential academic tool for educators in TCM and related fields perfectly suited for course adoption in over 50 accredited acupuncture schools within the U S and extending its reach globally Research Design in Chinese Medicine Linking Social and Health Sciences offers a balanced emphasis on both qualitative and quantitative research approaches This holistic methodology ensures that readers gain a full spectrum of knowledge from formulating research questions to conducting ethical studies The step by step guide provided in the book is supplemented with a wealth of resources including a dedicated website downloadable templates and case studies making it not just a book but a complete learning experience The book is positioned to be a key resource in the field of TCM research Its interdisciplinary approach and practical guidance make it invaluable to anyone looking to conduct meaningful research in TCM The combination of the author s expertise and the practical tools offered makes this book a must have for students practitioners and researchers in the field *Advances in Human Factors and Ergonomics in Healthcare and Medical Devices* Jay Kalra, Nancy J. Lightner, Redha Taiar, 2021-07-07 This book is concerned with human factors and ergonomics research and developments in the design and use of systems and devices for effective and safe healthcare delivery It reports on

approaches for improving healthcare devices so that they better fit to people's including special population's needs. It also covers assistive devices aimed at reducing occupational risks of health professionals as well as innovative strategies for error reduction and more effective training and education methods for healthcare workers and professionals. Equal emphasis is given to digital technologies and to physical, cognitive and organizational aspects which are considered in an integrated manner so as to facilitate a systemic approach for improving the quality and safety of healthcare service. The book also includes a special section dedicated to innovative strategies for assisting caregivers, patients and people's needs during pandemic. Based on papers presented at the AHFE 2021 Conference on Human Factors and Ergonomics in Healthcare and Medical Devices held virtually on 25-29 July 2021 from USA, the book offers a timely reference guide to both researchers and healthcare professionals involved in the design of medical systems and managing healthcare settings as well as to healthcare counselors and global health organizations.
