

Invited Collaborations for Acute Coronary Syndromes Guideline

The 2025 ACC/AHA/ACEP/NAEMSP/SCAI Guideline for the Management of Patients with Acute Coronary Syndromes was developed in collaboration with and endorsed by the American College of Emergency Physicians, National Association of EMS Physicians, and Society for Cardiovascular Angiography and Interventions.

Acute Coronary Syndromes In Clinical Practice

James L. Januzzi

Acute Coronary Syndromes In Clinical Practice:

Managing Acute Coronary Syndromes in Clinical Practice Anthony A. Bavry,Deepak Bhatt,2011-11-07 Review of the necessary knowledge to provide optimal evidence based care for the acute coronary syndrome patient Comprehensive guide to acute coronary syndrome Expert commentary from two key thought leaders in the field Extensive illustrations tables figures and appendix to further guide the reader

Acute Coronary Syndromes in Clinical Practice Anthony A Bavry,Deepak L. Bhatt,2008-12-16 Acute coronary syndromes affect millions of individuals annually by causing considerable morbidity and mortality In developed countries this disease remains the number one killer despite significant improvements in its management over the last several decades Acute coronary syndromes are challenging as the field is a fast moving one with a rapid proliferation of drug and device trials These new studies become incorporated into separate guideline recommendations by both American and European writing committees which are frequently updated Moreover there are separate guideline recommendations for stable angina non ST elevation acute coronary syndrome ST elevation myocardial infarction and percutaneous coronary intervention This may make it relatively difficult for practitioners to keep up to date with the field Unfortunately there is often a gap between the guideline recommendations and the care that is delivered in the real world In this book we have attempted to distill the considerable literature on this topic into an accurate succinct and up to date review of acute coronary syndromes Many specialties are involved in the diagnosis and management of these syndromes therefore our audience includes a variety of practitioners cardiologists general practitioners emergency medicine physicians nurses nurse practitioners nursing students physician trainees medical students pharmacists and paramedics We take the reader through the epidemiology and prognosis diagnosis and clinical manifestations risk stratification and percutaneous and medical therapies across the entire spectrum of acute coronary syndromes We end with a discussion on current controversies and future approaches to the treatment of acute coronary syndromes

Acute Coronary Syndromes in Clinical Practice Anthony A. Bavry,Deepak L. Bhatt,2011-03-22
