Allyn Bacon Guide To Masters Programs In Psychology:

Allyn & Bacon Guide to Master's Programs in Psychology and Counseling Psychology William Buskist, Amy Mixon, 1998
The most extensive source for master's programs in psychology in the United States, U.S. Territories and Canada over 300 schools listed. In addition to the names, phone numbers and e-mail addresses for key contact persons for each program, this extensive resource also provides Web sites where possible, the number of openings available during the upcoming academic year, deadlines and types of master's degree offered. Succeeding in Graduate School Steven Walfish, Allen K. Hess, 2001-06 Clear, crisp and comprehensive with extensive references for further exploration. Succeeding in Graduate School offers much needed practical advice on choosing the right program, acquiring the necessary skills in and out of courses, coping with t **The Complete Guide to Graduate School Admission** Patricia Keith-Spiegel, Michael W. Wiederman, 2000-03 Should I go to graduate school? How do I choose where to apply? Are my grades and accomplishments good enough to get in? Who should I ask to write recommendation letters for me and how should I approach these people? How do I write my personal statement? When will I hear my fate and how should I make my final decision? These are just a few of the many questions to which this well researched, thorough and extremely user friendly book offers answers. Students who are contemplating graduate training in psychology, counseling and related fields are often apprehensive and confused about applying to graduate school, but this book takes the guesswork and anxiety out of the process. The tone and features such as the Q & A format, timeline for application related tasks and activities and special advice for special populations that made the first edition so successful, eliciting hundreds of thank you notes and e-mail messages to the author, are just as evident in this new edition. The book has been thoroughly updated to include coverage of new topics such as use of the internet and e-mail as well as changing trends in the professions. The most obvious difference is that the book is now significantly shorter as a result of meticulous rewriting, making it even easier to use. There have been attempts since the publication of the first edition to copy the format of this book, but none of the others have successfully duplicated the depth of research based advice and the supportive style that make this book the guide of choice for thousands of graduate school bound students and their advisors. Graduate Study in Psychology Tara L. Kuther, 2004 In Graduate Study in Psychology: Your Guide to Success, author Tara Kuther takes the reader step by step through the graduate admissions process. She begins with posing the question of whether graduate school is right for everyone and the differences between pursuing a master's degree or a doctoral degree. The following chapters contain information regarding what graduate school is like, how to evaluate and choose the right graduate program for you and what graduate schools are looking for in an applicant. Kuther also addresses how to improve an applicant's chances of getting selected for graduate school by improving credentials and obtaining research and applied experience during college. This book offers advice on how to seek financial aid to fund graduate education and a timetable for complying with admission application requirements. There are chapters that detail how to study

for the Graduate Record Exam how to write an admissions essay how to prepare for interviews and how to ask for letters of recommendation Each chapter concludes with tips from graduate students about each challenge encountered Graduate Study in Psychology closes with an appendix of resources and recommended readings and websites to help the reader at each stage of choosing applying to and succeeding in graduate school
