Remanufacturability Assessment for the Circular Economy Yang Shanshan, S. K. Ong, A.Y.C. Nee, 2022-12-02 This book presents decision support tools that can be used in the early design stage to analyze the feasibility of a product and its components for remanufacturing. It also covers how to design a product specifically for remanufacturing and offers supporting case studies. This is a comprehensive solutions guide for remanufacturing decision making. The book illustrates an approach that can be used at the product End of Life (EOL) stage to generate optimized recovery plans for the returned products. Opportunities for Industry 4.0 to support remanufacturing along with case studies are included to showcase the decision making tools. Remanufacturing and Remanufacturability Assessment for the Circular Economy: A Solutions Guide will be of interest to practitioners, business professionals and researchers that work in the industrial and manufacturing sectors. Those involved with supply chain management and advanced technologies associated with Industry 4.0 sustainability and integrated techniques of circular supply chains will also find this book very useful.
