Handbook of Exposure Therapies David C.S. Richard, Dean Lauterbach, 2011-10-11 Exposure Therapy refers to any clinical intervention in which a client directly confronts a source of fear Since high levels of anxiety can not be maintained indefinitely repeated exposure leads to decreased anxiety This type of treatment is effective with phobias post traumatic stress disorder obsessive compulsive disorders panic generalized anxiety and several other disorders It's also been found to be effective in helping to treat substance abuse Although exposure based treatments have been extensively researched and reported in the literature there is no single comprehensive treatment of exposure therapies Writings tend to be limited to larger pieces on treating specific disorders or types of patients A comprehensive book on the use of these

treatments across patient disorders will be of great use to practitioners The book is divided into three sections Foundation Applications and Issues Foundation chapters considers theoretical and assessment issues Applications chapters will discuss research literature on each disorder having been proven to be successfully treated with exposure therapy Issue chapters will discuss liability issues false memory syndrome and the use of computers and virtual reality in exposure therapy Covers the broad range of exposure therapies in one comprehensive source Provides an integrated look at exposure therapy across a variety of disorders Each such chapter will include a case study Blends literature review and practice guidelines User Modeling Anthony Jameson,Cecile Paris,Carlo Tasso,2014-05-04 User modeling researchers look for ways of enabling interactive software systems to adapt to their users by constructing maintaining and exploiting user models which are representations of properties of individual users User modeling has been found to enhance the effectiveness and or usability of software systems in a wide variety of situations Techniques for user modeling have been developed and evaluated by researchers in a number of fields including artificial intelligence education psychology linguistics human computer interaction and information science The biennial series of International Conferences on User Modeling provides a forum in which academic and industrial researchers from all of these fields can exchange their complementary insights on user modeling issues The published proceedings of these conferences represent a major source of information about developments in this area
