Balance of Payments Manual Sixth Edition, 2009. **IMF Committee on Balance of Payments Statistics**. International Monetary Fund. Statistics Dept., 2010-04-08. This report constitutes the annual report of the IMF Committee on Balance of Payments Statistics Committee. The Committee, which held its annual meeting at the European Central Bank (ECB) in Frankfurt, Germany, in October 2008, was established in 1992 to improve the availability, consistency, and reliability of balance of payments and international investment position statistics worldwide. This annual report provides an overview of recent trends in balance of payments and international investment position statistics, discusses the Committee's work program during 2008, and reviews the issues the Committee plans to address in the coming year.

Exchange Rate Pass-Through in Sub-Saharan African Economies and its Determinants. Mr. Ivohasina Fizara Razafimahefa, 2012-06-01. This paper analyzes the exchange rate pass-through to domestic prices and its determinants in sub-Saharan African countries. It finds that the pass-through is incomplete. The pass-through is larger following a depreciation than after an appreciation of the local currency. The average elasticity is estimated at about 0.4. It is lower in countries with more flexible exchange rate regimes and in countries with a higher income. A low inflation environment, a prudent monetary policy, and a sustainable fiscal policy are associated with a lower pass-through. The degree of pass-through has declined in the SSA region since the mid-1990s following marked improvements in macroeconomic and political environments.

Trinidad and Tobago. International Monetary Fund, 2012-06-01. This 2011 Article IV Consultation highlights that the economy of Trinidad and Tobago is turning the corner and growth is expected to resume in 2012 after an extended slowdown lasting three years. Real economic activity is expected to increase by 1.7 percent in 2012 as the nonenergy sector picks up momentum with the acceleration of government investment. Executive Directors have welcomed the signs of economic recovery following a prolonged slowdown and commended the authorities for implementing supportive policies aided by ample buffers which had helped maintain stability.

International Financial Statistics Yearbook, 2017. International Monetary Fund. Statistics Dept., 2017-08-18. This paper focuses on composition of the basket that was changed on the basis of updated data for 1972-1976. The weights of some currencies were also changed. The amount of each of the 16 currencies in the revised basket was such as to ensure that the value of the Special Drawing Right (SDR) in terms of any currency on June 30, 1978, was exactly the same in the revised valuation as in the previous valuation. Since January 1, 1981, the value of the SDR has been determined based on the currencies of the five member countries having the largest exports of goods and services during the 5-year period ending one year before the date of the latest revision to the valuation basket. Broadly reflecting the currencies' relative importance in international trade and finance, the weights are based on the value of the exports of goods and services of the members issuing these currencies and the balances of their currencies officially held by members of the
