Federal Register, 2013-07 **Driven** David Kiley, 2004-03-24 An exclusive look at one of the world's most successful and controversial companies and the mysterious family behind it BMW is arguably the most admired carmaker in the world Its financial performance is the envy of its competitors and BMW products inspire near fanatical loyalty While many carmakers struggle with falling sales profits and market share demand for BMWs continues to grow frequently outpacing production Now David Kiley Detroit Bureau Chief at USA Today and author of Getting the Bugs Out which covered Volkswagen's demise and rebirth goes inside the fabled German automaker to see how it does what it does so well With unprecedented access to BMW executives Kiley goes behind the walls of BMW's famed Four Cylinders headquarters in Munich at a time when the company is in its most aggressive and some say riskiest expansion in its history and when some of the company's new products like the 7 Series sedan and Z4 roadster are for the first time drawing as many barbs from critics as bouquets Kiley covers intimate details of the boardroom drama surrounding the company's nearly disastrous acquisition and subsequent sale of the British Rover Group and its expansion into selling MINI and Rolls Royce cars Besides being a world class carmaker BMW is also considered one of the smartest consumer marketing companies and Kiley explores the extraordinary value and management

of the BMW brand mystique He also takes a revealing look at the mysterious and ultra private Quandt family of Bad Homburg Germany which owns a controlling stake in BMW Johanna and Susanne Quandt two of the wealthiest women in Europe and Stefan Quandt one of the wealthiest bachelors on the continent David Kiley Ann Arbor MI is the Detroit Bureau Chief at USA Today who has covered the auto industry for 17 years He has been featured on Nightline CNBC CNN MSNBC NPR and the Today show He is also the author of Getting the Bugs Out The Rise Fall and Comeback of Volkswagen in America 0 471 26304 4 also available from Wiley

The Automotive Industry and the Environment P Nieuwenhuis, P Wells, 2003-07-25 The automotive industry currently faces huge challenges The fundamental technological paradigm it relies on volume production has become progressively more unprofitable in the face of increasingly segmented niche markets At the same time it faces increasing regulatory and social pressures to improve both the sustainability of its products and methods of production Building on a wealth of research The automotive industry and the environment addresses those challenges and how they can be met in producing a sustainable and profitable industry for the future The authors first discuss the development of the automotive industry and the problems it currently faces They then consider the solutions the industry can adopt The book reviews trends in more environmentally friendly technologies such as the use of more sustainable fuel sources and new types of modular design with built in recyclability However these technologies can only be fully exploited if methods of manufacture change The book also describes models of decentralised production particularly the micro factory retailing MFR model which provide an alternative to volume production and promise to be both more sustainable and more profitable The automotive industry and the environment provides both a cogent diagnosis of the environmental and other problems facing the industry and a blueprint for a better future It will be widely welcomed by the industry policy makers and all those concerned with sustainable transport Addresses the challenges facing the automotive industry from the increasing unprofitability of volume production to regulatory and social pressures to improve environmental and product sustainability Examines how the automotive industry can meet the current challenges in producing a sustainable and profitable industry for the future Reviews trends in more environmentally friendly technologies such as the use of more sustainable fuel sources and new types of modular design with built in recyclability
