Mental Illness A Guide to Recovery gives you information gleaned from many sources which can help you learn to recover Coping skills needed to deal with the illness can be developed Materials which can help you reduce symptoms are presented Recovery does not happen overnight but step by step most can make significant recovery Humpty Dumpty had a great fall and all the king s horses and all the king s men couldn t put Humpty Dumpty back together again The same holds true for those of us with a mental illness The psychiatrists psychologists social workers etc can assist but it is up to the individual to create conditions which will allow recovery to happen The neurobiological basis of mental illness is often presented in a fatalistic way That s the brain chemistry you ve got and that s what you re stuck with as if the individual was unable to change the chemistry inside his or her own head Breathing changes brain chemistry So does exercise the food you eat the words you speak the thoughts you think as well as how often you smile While drugs are capable of making radical changes in the chemistry of the brain it is the slow changes over time which will help most in recovery Thorough and informative without being technical fascinating very enlightening Psychiatric Rehabilitation Journal Vol 28 No 4 Spring 2005 You have made a complex issue easier to understand Chief Kathryn Landreth Las Vegas Metropolitan Police *Mental Health, Race and Culture* Suman Fernando, 2010-01-28 This powerful text offers a unique analysis of the impact of race and culture on contemporary issues in mental health Drawing on extensive international experience Fernando challenges the traditional ideas that inform practice in clinical psychology and psychiatry in order to promote new and alternative ways of thinking Covering both theoretical perspectives and practical implications this insightful text discusses perceptions of ethnicity and identity compares practices around the world and looks at racism in mental health services This fully revised expanded and updated edition of a seminal text offers students and practitioners alike a comprehensive and reliable study of both western and non western psychiatry and mental health practices New to this Edition Covers trauma and psychosocial support Looks at the new discourses in mental health of recovery spirituality and well being Examines the mental health of refugees Refers to specific developments in low income countries including Asia and Africa Female Brain Gone Insane Mia Lundin, 2010-01-01 The first book to specifically address the emotional issues of hormonal and brain chemistry imbalances Do you wake up every morning feeling flat and like you are going through the motions Feel wired but tired Do you feel like it s all you can do to get through another day Ambivalent or lackluster about life Is your brain foggy and are you worried about your lack of sleep If any of these questions pertain to you you may feel like you have gone insane but there is an emergency guidebook that can rescue you Female Brain Gone Insane is the hands on manual for women who feel like they are falling apart losing it or going insane and focuses on the emotional symptoms of hormone and brain chemistry imbalances associated with the combination of stress filled lives and life transitions such as PMS perimenopause menopause and
