The Political Thought of Anacharsis Cloots Frank Ejby Poulsen, 2023-11-06 Historians have often either ignored Anacharsis Cloots 1755 1794 or considered him deranged because he claimed to be the orator of the human race and devised a universal republic based on the sovereignty of the human race This book is the first comprehensive study of the entire body of Cloots's written works and political actions By contextualizing them the book not only rehabilitates Cloots as a political thinker worthy of consideration but also argues that his political thought constitutes a specific branch of republicanism in the age of Atlantic revolutions cosmopolitan republicanism The introduction suggests how 18th century French cosmopolitanism was a new philosophical tradition but was composed of several themes which the book then analyses in Cloots's writings The first chapter provides a brief overview of his life The second chapter explains why he called himself orator and wrote pamphlets and why contemporary readers should not discard this as non philosophical Having established Cloots's writings as

constituting a philosophical system the following chapters explores it through the themes laid out in the introduction First the concept of reason and his understanding of science Second the paradigm of natural law and the role of nature in moral and political thought Third the conception of humanity and individuals in nature and society Finally republicanism and its principles The last chapter summarizes the elements of Cloodts cosmopolitan republicanism and opens a research programme to other political thinkers in the age of Atlantic revolutions for historians and political theorists

Why We Fight Christopher Blattman, 2023-04-18 Why We Fight reflects Blattman's expertise in economics political science and history Blattman is a great storyteller with important insights for us all Richard H Thaler winner of the Nobel Memorial Prize in Economic Sciences and coauthor of Nudge Engaging and profound this deeply searching book explains the true origins of warfare and it illustrates the ways that despite some contrary appearances human beings are capable of great goodness Nicholas A Christakis author of Blueprint The Evolutionary Origins of a Good Society Why did Russia attack Ukraine Will China invade Taiwan and launch WWII Why has the number of civil wars reached their highest level in decades Why are so many cities in the Americas plagued with violence And finally what can any of us do about it It feels like we're surrounded by violence Each conflict seems unique and insoluble With a reason for every war and a war for every reason what hope is there for peace Fortunately it's simpler than that Why We Fight boils down decades of economics political science psychology and real world interventions giving us some counterintuitive answers to the question of war The first is that most of the time we don't fight Around the world there are millions of hostile rivalries yet only a fraction erupt into violence Most enemies loathe one another in peace The reason is simple war is too costly to fight It's the worst way to settle our differences In those rare instances when fighting ensues that means we have to ask ourselves What kept rivals from the normal grudging compromise The answer is always the same It's because a society or its leaders ignored those costs of war or were willing to pay them Why We Fight shows that there are just five ways this happens From warring states to street gangs ethnic groups and religious sects to political factions Christopher Blattman shows that there are five reasons why violent conflict occasionally wins over compromise Through Blattman's time studying Medellin Chicago Liberia Northern Ireland and more we learn the common logics driving vainglorious monarchs dictators mobs pilots football hooligans ancient peoples and fanatics Why We Fight shows that war isn't a series of errors accidents and emotions gone awry There are underlying strategic ideological and institutional forces that are too often overlooked So how to get to peace Blattman shows that societies are surprisingly good at interrupting and ending violence when they want to even gangs do it The best peacemakers tackle the five reasons shifting incentives away from violence and getting rivals back to dealmaking And they do so through tinkering not transformation Realistic and optimistic this is a book that lends new meaning to the adage Give peace a chance
