

ADEMCO 5828/5828V

Wireless Bidirectional Fixed-Word Keypad

USER GUIDE

GENERAL INFORMATION

The 5828 and 5828V are wireless keypads that can be used to operate and get status from your security system. The 5828 and 5828V have the following features (voice annunciation features apply only to the 5828V):

- Can be used to arm/disarm, and perform other system operations.
- Can display and/or annunciate system status.
- Can automatically display and/or annunciate a change in system status if AC powered (e.g., for an alarm, the keypad will announce the type of alarm (fire or burglary) and location (e.g. kitchen window).
- Message Center can be used to record and play back a voice memo to yourself, or leave a message for a family member.
- Can be battery- or AC-powered (AC-powered units have several advantages, described below).

Battery-Powered Operation: When powered by battery, the keypad must first be activated by pressing any numbered key. The keypad will display the current system status within a few seconds. You may at any time before or after receiving status, arm, disarm, send a panic alarm, or perform other system operations. The keypad becomes inactive when no keys have been pressed for 15 seconds, and must be reactivated the next time you want to use it.

AC-Powered Operation: When powered by the optional AC adapter, the keypad remains active at all times, (on Lynx-R systems, when the system is disarmed, the visual display will turn off after 15 seconds if there is no activity at the keypad; on Lynx-REN systems, the display remains on). Any change in system status will cause the display to automatically turn on (if blank) and display/annunciate the new status. If AC power is lost, the keypad reverts to battery-powered operation until AC power is restored and a new status request is made (* key).

NOTE: Whether the unit is powered by battery or AC, the 5828/5828V may take a few seconds to display and/or annunciate the new status after pressing the [*] key.
