Creative Imagination in the Sūfism of Ibn 'Arabī

Henry Corbin with a preface by Harold Bloom

Alone With The Alone Henry Corbin

Joan Copjec

Alone With The Alone Henry Corbin:

Alone with the Alone Henry Corbin, 1998 Ibn Arabi was one of the great mystics of all time Through the richness of his personal experience and the constructive power of his intellect he made a unique contribution to Shi'ite Sufism In this book which features a powerful new preface by Harold Bloom Henry Corbin brings us to the very core of this movement with a penetrating analysis of Ibn Arabi's life and doctrines *Alone with the Alone* Henry Corbin, 1998 *Cloud: Between Paris and Tehran* Joan Copjec, 2025-05-06 A theoretical examination of veiling shame and modesty in the films of the Iranian director Abbas Kiarostami through the lenses of Islamic philosophy and Lacanian psychoanalysis In *Cloud Between Paris and Tehran* Joan Copjec examines the films of the Iranian director Abbas Kiarostami The key to these films she argues lies in the image of a fragile yet sheltering tree that appears in several of his films This simple image depicts a central concept of Islamic philosophy which is known as the Cloud or the Imaginal World It designates the place out of which all the things of this world manifest themselves and covers or veils that which must remain hidden The concept of the Cloud plays a significant role in defining 1 the unique nature of the Islamic God who is not a creator or father 2 the nature of the image which assumes a priority and a greater power than it is elsewhere accorded and 3 the nature of modesty shame and sexuality Copjec walks her readers through the thicket of Islamic philosophy while demonstrating how its abstract concepts produce what audiences see on screen The most ambitious aspect of the book lies in its attempt to demonstrate the inheritance by psychoanalysis of a new notion of knowledge or gnosis formulated by Muslim thinkers who radically redefined the relation between body and thought **Jung's Red Book for Our Time** Murray Stein, Thomas Arzt, 2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness as Max Weber wrote already a century ago This collective dark night of the soul is driven by climate change related disasters rapid technological innovations and opaque geopolitical realignments In the wake of what policy analysts refer to as Westlessness the post modern age is characterized by incessant distractions urgent calls to responsibility and in humanly short deadlines which result in a general state of exhaustion and burnout The hovering sense of living in a time frame that is post history induces states of confusion on a personal level as well as in the realm of politics Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis Thinkers scholars and Jungian analysts are increasingly looking to C G Jung's monumental oeuvre *The Red Book* as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus The essays in this series on Jung's *Red Book for Our Time* Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work **Toward Carpatian Divinity** Michael Markevich, 2010-12-23 The suggestion within the title accurately sums up the direction that the author has taken with the character story and allegory of the second book The extremely unique and gifted characters of the Carpathian legend have journeyed to the Skeletal Coast of Africa in order to bear witness to the birth of a savior She will usher

in the Fifth Civilization of mankind but these followers of that cause are not yet spiritually sufficient Toward Carpatian Divinity quickly begins to outline the direction that these disciples will realize in travels and inner sanctum The chapters are organized as parables and each is a message within the broad communication of integrity and moral code The tools and locations of these metaphysical errands are as diverse and novel as the entire imaginative spectrum Holoflux becomes a hive in the creative process of transmigration as it develops from the witchery of a coven of white Wiccans Claire is introduced as the beautiful and fragile recipient of a powerful Magnolia vision that spins away phenomenal debris She is left with the stationary ancient and unfaltering soul of her matriarchal line and gives that hearts desire to Dneipo The Mystic aboriginal sorcerers become entangled in the source helix of the manifest and are able to cross time and space Intent is described as a pawl designed to catch in the ratchet of moment discontinuity Ron and Vani play a chess like game as pawns able to capture the most superior concepts and Vanisila maintains her earthly presence as a Valkyrie and bypasses the aging process The parables continue bringing insight and awareness to the characters The final chapter is a eulogy praising the spiritual enlightenment of the illuminati as it opens with We now become Divine Carpatians

The Spirituality of Shi'i Islam

Mohammad Ali Amir-Moezzi, 2011-01-31 The second largest branch of Islam with between 130 and 190 million adherents across the globe Shi i Islam is becoming an increasingly significant force in contemporary politics especially in the Middle East This makes an informed understanding of its fundamental spiritual beliefs and practices both necessary and timely Mohammad Ali Amir Moezzi is one of the most distinguished scholars of Shi i history and theology and in this volume he offers a wide ranging and engaging survey of the core texts of Shi i Islam Examining in turn the origins and later developments of Shi i spirituality the author reveals the profoundly esoteric nature of the beliefs which accrued to the figures of the early Imams and which became associated with their interaction between the material and spiritual worlds Many of these beliefs have remained much misunderstood even within the wider Muslim world Furthermore Western scholarship has tended to follow the lead of the earlier orientalist and critics viewing Shi i teachings as marginal In this study the author shows by contrast how central and creative the very nature of spirituality was to the development of Shi i Islam as well as to classical Muslim civilisation as a whole In this comprehensive treatment the esoteric nature of Shi i spirituality emerges as an essential phenomenon for understanding Shi i Islam

Sufism and Zen in the West Saeko Yazaki, Michael

Conway, 2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common However in the West their spiritual messages are often perceived as strikingly similar In this book scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of

easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities *Selected Writings* Paracelsus,1988 The enigmatic sixteenth century Swiss physician and natural philosopher Philippus Aureolus Theophrastus Bombastus von Hohenheim called Paracelsus is known for the almost superhuman energy with which he produced his innumerable writings for his remarkable achievements in the development of science and for his reputation as a visionary not to mention sorcerer and alchemist Little is known of his biography beyond his legendary achievements and the details of his life have been filled in over the centuries by his admirers This richly illustrated anthology presents in modernized language a selection of the moral thought of a man who was not only a self-willed genius charged with the dynamism of an impetuous and turbulent age but also in many ways a humble seeker after truth who deeply influenced C G Jung and his followers Muslim Faith and Values Robert A. Hunt,2019-10-18 Christians are called to love Muslims in all their little particularities This was the advice Duncan Black MacDonald famous scholar of Islam and teacher of missionaries to Muslim lands gave to his students His words from a hundred years ago remain true today This book invites the reader to explore Islam as a human religion a religion embodied in what Muslims believe and value Learning about Islam through the beliefs and values that Muslims hold the reader will be prepared to engage in fruitful conversation with Muslim neighbors and better understand their struggles and aspirations Along the way the reader will learn about Muhammad and the Qur'an discover the rich history of Islamic civilizations and learn the ways contemporary Muslims confront the challenges of the modern world The reader will meet poets mystics theologians and everyday people living out their response to God's call to Islam to submission and peace and will compare Muslim beliefs to Christian beliefs learning how they coincide and differ By the end the reader will have a richer understanding of Muslims and the religion of Islam and will have explored the most fruitful ways to relate to the Muslim neighbors they are obliged to love Pregnant Darkness Monika Wikman,2005-01-28 Author psychologist and astrologer Monika Wikman has worked for decades with clients and their dream symbols and witnessed the presence of the divine hand at work in the psyche In *The Pregnant Darkness* Wikman shows readers that the best way to cope with their darkest hours is by fostering a connection to the deeper current of life those mysteries that give life form and meaning Wikman's analysis of dream material leads readers into a practical explanation of alchemical symbolism Far from being a quaint ancient practice *The Pregnant Darkness* shows that alchemy is at work in contemporary everyday life Alchemical symbolism properly understood can be applied to unraveling the meaning of visions in meditation active imagination and dream work Wikman shows how readers can participate in the divine energies to help miraculous changes occur in their lives Wikman writes In Greek mythology Pegasus upon taking to the air pushed hard with a back hoof and penetrated the earth A spring rose up where his hoof dashed the earth and in this hole the muses reside One of the roles of the religious function of which Jung speaks is to bring us toward that inner spring of the muses where something beyond ego resides instructs and inspires Like a hole created from Pegasus leaping foot contact with

this inner spring often entails a crack in our field of ordinary consciousness In the inner world the spring of living symbols and accompanying presences is the source of dreams and visions as well as the fountain of inspiration at the heart of poetry art ritual mythology and even religion
