Seduction by Contract Oren Bar-Gill, 2012-08-23 Consumers routinely enter into long term contracts with providers of goods and services from credit cards mortgages cell phones insurance TV and internet services to household appliances theatre and sports events health clubs magazine subscriptions transportation and more Across these consumer markets certain design features of contracts are recurrent and puzzling Why do sellers design contracts to provide short term benefits and impose long term costs Why are low introductory prices so common Why are the contracts themselves so complex with numerous fees and interest rates tariffs and penalties *Seduction by Contract* explains how consumer contracts emerge from the interaction between market forces and consumer psychology Consumers are short sighted and optimistic so sellers compete to offer short term benefits while imposing long term costs Consumers are imperfectly rational so sellers hide the true costs of products and services in complex contracts Consumers are seduced by contracts that increase perceived benefits without actually providing more benefits and decrease perceived costs without actually reducing the costs that consumers ultimately bear Competition does not help this behavioural market failure It may even exacerbate it Sellers operating in a competitive market have no choice but to align contract design with the psychology of consumers A high road seller who offers what she knows to be the best contract will lose business to the low road seller who offers what the consumer mistakenly believes to be the best contract Put bluntly competition forces sellers to exploit the biases and misperceptions of their customers *Seduction by Contract* argues that better legal policy can help consumers and enhance market efficiency Disclosure mandates provide a promising avenue for regulatory intervention Simple aggregate disclosures can help consumers make

better choices Comprehensive disclosures can facilitate the work of intermediaries enabling them to better advise consumers Effective disclosure would expose the seductive nature of consumer contracts and as a result reduce sellers incentives to write inefficient contracts Developing its explanation through a general framework and detailed case studies of three major consumer markets credit cards mortgages and cell phones Seduction by Contract is an accessible introduction to the law and economics of consumer contracts and a powerful critique of current regulatory policy *Seeking the Truth from Mobile Evidence* John Bair, 2017-11-17 Seeking the Truth from Mobile Evidence Basic Fundamentals Intermediate and Advanced Overview of Current Mobile Forensic Investigations will assist those who have never collected mobile evidence and augment the work of professionals who are not currently performing advanced destructive techniques This book is intended for any professional that is interested in pursuing work that involves mobile forensics and is designed around the outcomes of criminal investigations that involve mobile digital evidence Author John Bair brings to life the techniques and concepts that can assist those in the private or corporate sector Mobile devices have always been very dynamic in nature They have also become an integral part of our lives and often times a digital representation of where we are who we communicate with and what we document around us Because they constantly change features allow user enabled security and or encryption those employed with extracting user data are often overwhelmed with the process This book presents a complete guide to mobile device forensics written in an easy to understand format Provides readers with basic intermediate and advanced mobile forensic concepts and methodology Thirty overall chapters which include such topics as preventing evidence contamination triaging devices troubleshooting report writing physical memory and encoding date and time stamps decoding Multi Media Messages decoding unsupported application data advanced validation water damaged phones Joint Test Action Group JTAG Thermal and Non Thermal chip removal BGA cleaning and imaging In System Programming ISP and more Popular JTAG boxes Z3X and RIFF RIFF2 are expanded on in detail Readers have access to the companion guide which includes additional image examples and other useful materials *Life with Siri* Jodi Dery, 2012-01-06 Life with Siri 2nd Edition 2012 Siri is the unique iPhone personal assistant with amazing voice recognition capabilities Siri understands natural informal speech like no non human device has ever done before Your grammar can be totally deficient but Siri will almost always understand what you mean Now Life With Siri provides you with an awesome guide to getting the most fun and usefulness from Siri This new 2nd Edition published in January 2012 includes More than 50 screenshots of the questions that evoke the FUNNIEST SIRI ANSWERS More than 50 screenshots of the BEST SIRI TIPS including the way to have Siri send Tweets and post on Facebook A comprehensive guide to SIRI PUNCTUATION COMMANDS A comprehensive list of ALL THE THINGS SIRI CAN DO FOR YOU Author Jodi Dery expresses great pride in this new eBook She says We feel that presenting Siri s responses in this illustrative manner with maximum use of screenshots and no more text than necessary will help people remember the best questions to ask Siri and the best way to get useful results In fact this eBook has many more screenshots with less text
