Barbarism And Its Discontents Cultural Memory In The Present:

Barbarism and Its Discontents Maria Boletsi, 2013-01-30 Barbarism and civilization form one of the oldest and most rigid oppositions in Western history According to this dichotomy barbarism functions as the negative standard through which civilization fosters its self definition and superiority by labeling others barbarians Since the 1990s and especially since 9 11 these terms have become increasingly popular in Western political and cultural rhetoric a rhetoric that divides the world into forces of good and evil This study intervenes in this recent trend and interrogates contemporary and historical uses of barbarism arguing that barbarism also has a disruptive insurgent potential Boletsi recasts barbarism as a productive concept finding that it is a common thread in works of literature art and theory By dislodging barbarism from its conventional contexts this book reclaims barbarism's edge and proposes it as a useful theoretical tool **About Europe** Denis

Guénoun, 2013-02-20 The concept of the universal was born in the lands we now call Europe yet it is precisely the universal that is Europe's undoing All European politics is caught in a tension to assert a European identity is to be open to multiplicity but this very openness could dissolve Europe as such This book reflects on Europe and its changing boundaries over the span of twenty centuries A work of philosophy it consistently draws on concrete events From ancient Greece and Rome to Christianity to the Reformation to the national revolutions of the twentieth century what we today call Europe has been a succession of projects in the name of ecclesia or community Empire Church and EU all have been constructed in contrast to an Oriental other The stakes of Europe then are as much metaphysical as political Redefining a series of key concepts such as world place transportation and the common this book sheds light on Europe as process by engaging with the most significant philosophical debates on the subject including the work of Marx Husserl Heidegger Patočka and Nancy **French**

Civilization and Its Discontents Tyler Edward Stovall, Georges Van den Abbeele, 2003-01-01 French Civilization and Its Discontents Nationalism Colonialism Race explores the ways in which considerations of difference especially colonialism post colonialism and race have shaped French culture and French studies in the modern era Rejecting traditional assimilationist notions of French national identity contributors to this groundbreaking volume demonstrate how literature history and other aspects of what is considered French civilization have been shaped by processes of creolization and differentiation

Warped Mourning Alexander Etkind, 2023-05-25 A superb study of Russian cultural memory makes all too clear ghosts of the unburied dead affect literature art public life and mental health too The Economist After Stalin's death in 1953 the Soviet Union dismantled the enormous system of terror and torture that he had created But there has never been any Russian ban on former party functionaries nor any external authority to dispense justice Memorials to the Soviet victims are inadequate and their families have received no significant compensation This book's premise is that late Soviet and post Soviet culture haunted by its past has produced a unique set of memorial practices More than twenty years after the collapse of the Soviet Union Russia remains the land of the unburied the events of the mid twentieth century are still very much alive and still

contentious Alexander Etkind shows how post Soviet Russia has turned the painful process of mastering the past into an important part of its political present Every page contains fresh striking insights not only in the intrinsic value of art itself but more significantly in the process of mourning This brilliant book will be indispensable for scholars of mourning theories Choice There is undoubtedly much that is new and exciting in this study of the impact of state violence on the form and content of art and scholarship in post Stalin Russia Russian Review A fascinating and haunting study of how successive Kremlin leaders and the intelligentsia have explained the Gulag and Stalin s crimes Strategic Europe The Mark of the Sacred Jean-Pierre Dupuy,2023-05-25 This study of religion and violence forces us to reexamine some of our most cherished self images of modern liberal democratic societies Charles Taylor Jean Pierre Dupuy prophet of what he calls enlightened doomsaying has long warned that modern society is on a path to self destruction In this book he pleads for a subversion of this crisis from within arguing that it is our lopsided view of religion and reason that has set us on this course In denial of our sacred origins and hubristically convinced of the powers of human reason we cease to know our own limits our disenchanted world leaves us defenseless against a headlong rush into the abyss of global warming nuclear holocaust and the other catastrophes that loom on our horizon Reviving the religious anthropology of Max Weber Emile Durkheim and Marcel Mauss and in dialogue with the work of Ren Girard Dupuy shows that we must remember the world s sacredness in order to keep human violence in check A metaphysical and theological detective he tracks the sacred in the very fields where human reason considers itself most free from everything it judges irrational science technology economics political and strategic thought In making such claims The Mark of the Sacred takes on religion bashers secularists and fundamentalists at once Written by one of the deepest and most versatile thinkers of our time it militates for a world where reason is no longer an enemy of faith The Mark of the Sacred is one of those rare books which in an enlightened well organized state should be printed and freely distributed in all schools Slavoj i ek *Mother Folly* Françoise Davoine,2014-07-16 If your mentally ill patient dies are you to blame For Dr Fran oise Davoine a Parisian psychoanalyst this question becomes disturbingly real as one of her patients commits suicide on the eve of All Saints Day She herself has a crisis as she reflects on her thirty year career and questions whether she should ever return to the hospital But return she does and thus commences a strange voyage across several centuries and countries in which patients fools and the actors of medieval farces rise up from the past along with great thinkers who represent the author s own philosophical and literary sources the humanist Erasmus mathematician Ren Thom writer Antonin Artaud philosopher Ludwig Wittgenstein and physicist Edwin Schr dinger to name a few Imaginary dialogues ensue as the analyst conjures up an interconnected world where apiculture wondrous rituals theater and language games illuminate her therapeutic practice as well as her personal history Deeply affected by her voyage of discovery the author becomes capable of implementing the teachings of psychotherapist Gaetano Benedetti a mentor she visits at carnival time on a final fictional stopover in Switzerland His advice that the analyst become the equal of her patients

and immerse herself in their madness so as to open up a space for treatment is premised on the belief that individual illness is a reflection and result of severe historical trauma *Mother Folly* which ends on a positive note is an important intervention in the debate about how to treat the mentally ill particularly those with psychosis A practicing analyst and a skilled reader of literary and philosophical texts Davoine provides a humane antidote to our increasingly mechanized and drug reliant system of dealing with fools and madmen

The Specter of Capital Joseph Vogl, 2014-10-22 In his brilliant interdisciplinary analysis of the global financial crisis Joseph Vogl aims to demystify finance capitalism with its bewildering array of new instruments by tracing the historical stages through which the financial market achieved its current autonomy Classical and neoclassical economic theorists have played a decisive role here Ignoring early warnings about the instability of speculative finance markets they have persisted in their belief in the inherent equilibrium of the market describing even major crises as mere aberrations or adjustments and rationalizing dubious financial practices that escalate risk while seeking to manage it The market knows best this is a secular version of Adam Smith's faith in the market's invisible hand his economic interpretation of eighteenth century providentialist theodicy which subsequently hardened into an oikodicy an unquestioning belief in the self regulating beneficence of market forces Vogl shows that financial theory assisted by mathematical modeling and digital technology itself operates as a hidden hand pushing economic reality into unknown territory He challenges economic theorists to move beyond the neoclassical paradigm to discern the true contours of the current epoch of financial convulsions

Philosophy and Melancholy Ilit Ferber, 2013-06-12 This book traces the concept of melancholy in Walter Benjamin's early writings Rather than focusing on the overtly melancholic subject matter of Benjamin's work or the unhappy circumstances of his own fate Ferber considers the concept's implications for his philosophy Informed by Heidegger's discussion of moods and their importance for philosophical thought she contends that a melancholic mood is the organizing principle or structure of Benjamin's early metaphysics and ontology Her novel analysis of Benjamin's arguments about theater and language features a discussion of the *Trauerspiel* book that is amongst the first in English to scrutinize the baroque plays themselves *Philosophy and Melancholy* also contributes to the history of philosophy by establishing a strong relationship between Benjamin and other philosophers including Leibniz Kant Husserl and Heidegger

Outlaw Justice Theodore W. Jennings, Jr., 2013-04-17 This book offers a close reading of *Romans* that treats Paul as a radical political thinker by showing the relationship between Paul's perspective and that of secular political theorists Turning to both ancient political philosophers Plato Aristotle and Cicero and contemporary post Marxists Agamben Badiou Derrida and Iek Jennings presents *Romans* as a sustained argument for a new sort of political thinking concerned with the possibility and constitution of just socialities Reading *Romans* as an essay on messianic politics in conversation with ancient and postmodern political theory challenges the stereotype of Paul as a reactionary theologian who invented Christianity and demonstrates his importance for all regardless of religious affiliation or academic guild who dream and work for a society based on respect

rather than domination division and death In the current context of unjust global empires constituted by avarice arrogance and violence Jennings finds in Paul a stunning vision for creating just societies outside the law Human Rights as a Way of Life Alexandre Lefebvre, 2013-06-05 The work of Henri Bergson the foremost French philosopher of the early twentieth century is not usually explored for its political dimensions Indeed Bergson is best known for his writings on time evolution and creativity This book concentrates instead on his political philosophy and especially on his late masterpiece The Two Sources of Morality and Religion from which Alexandre Lefebvre develops an original approach to human rights We tend to think of human rights as the urgent international project of protecting all people everywhere from harm Bergson shows us that human rights can also serve as a medium of personal transformation and self care For Bergson the main purpose of human rights is to initiate all human beings into love Forging connections between human rights scholarship and philosophy as self care Lefebvre uses human rights to channel the whole of Bergson s philosophy
