And Complexity Tax Simplification Experiences Around:

The Complexity of Tax Simplification Simon James, Adrian Sawyer, Tamer Budak, 2016-04-29 Simplicity in taxation has considerable potential advantages However attempts to simplify tax systems are only likely to be successful and enduring if they take account of the reasons why taxation is complex There are strong pressures on tax systems to accommodate a range of important factors as well as complex and changing national and international environments within which modern tax systems have to operate This book explores the experiences of simplification in a range of countries and jurisdictions The authors analyse a range of manifestations of simplification including tax systems tax law taxpayer communications and tax administration They also review the longer term or more fundamental approaches to simplification suggesting that in order to strike the optimum balance between simplicity and the aims of a tax system in terms of efficiency and equity a range of complex environmental factors must all be taken into account With chapters reflecting on experiences from Australia China Canada Malaysia New Zealand Russia South Africa Thailand Turkey the UK and the US the authors illustrate differences between jurisdictions and the changing environment in which they operate This book addresses the crucial balance between simplicity and the other objectives of tax design and reform and suggests that reformers of the tax system should include simplicity as one of the key evaluators of any design or reform proposal

Taxation in the Digital Economy Nella Hendriyetty, Chris Evans, Chul Ju Kim, Farhad Taghizadeh-Hesary, 2022-07-11 A robust and

efficient tax administration in a modern tax system requires effective tax policies and legislation Policy frameworks should cover all aspects of tax administration and include the essential processes of capturing processing analyzing and responding to information provided by taxpayers and others concerning taxpayers affairs By far the greatest challenges facing tax administrations in all countries are those posed by the continuing developments in the digital economy Whereas societies are grappling to come to terms with the transitions from the third industrial or digital revolutions revenue authorities grapple with the consequences for the sustainability of their tax bases and the efficient administration and collection of taxes This book presents a critical review of the status of tax systems in Asia and the Pacific in the era of the digital economy The book suggests how countries can maximize their domestic resource mobilization when confronted by the challenges that digitalization inevitably produces as well as how they can best harness or take advantage of aspects of digitalization to serve their own needs The full implications of the COVID 19 crisis are still too uncertain to predict but it is clear that the crisis will accelerate the trend towards digitalization and also increase pressures on public finances This in turn may shape the preference for and the nature of both multilateral and unilateral responses to the tax challenges posed by digitalization and the need to address them This book will be a timely reference for those researching on taxation in digital economy and for policy makers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Administrative Law in Action Robert Thomas, 2022-02-10 This book investigates and analyses how administrative law works in practice through a detailed case study and evaluation of one of the UK's largest and most important administrative agencies the immigration department In doing so the book broadens the conversation of administrative law beyond the courts to include how administrative agencies themselves make apply and enforce the law Blending theoretical and empirical administrative legal analysis the book demonstrates why we need to pay closer attention to what government agencies actually do how they do it how they are organised and held to account Taking a contextual approach the book provides a detailed analysis of how the immigration department performs its core functions of making policy and law taking mass casework decisions and enforcing immigration law The book considers major recent episodes of immigration administration including the development of the hostile environment policy and the treatment of the Windrush generation By examining a diverse range of material the book presents a model of administrative law based upon the organisational competence and capacity of administration and its institutional design Alongside diagnosing the immigration department's failings the book advances positive proposals for its reform

Corporate Tax Base in the Light of the IAS/IFRS and EU Directive 2013/34: A Comparative Approach Mario Grandinetti, 2016-06-17 The recent relaunch of the European Commission's Common Consolidated Corporate Tax Base CCCTB project promises a sorely needed leap forward in the harmonization of the rules by which companies calculate their taxable profits In particular the initiative hopes to remedy the severe barrier to cross border business caused by the the

accounting Tower of Babel by which companies tax bases are determined under national law This thorough analysis and commentary covers the influence of accounting rules on tax considering both generally accepted standards international accounting standards IAS and international financial reporting standards IFRS and EU Directive 2013/34 Three introductory chapters usher in detailed comparative overviews of the effect of these rules on taxation in nine EU Member States as well as in two other major EU trading partners the United States and Brazil Fully explaining the remarkable recent improvement in the comparability of accounts that represent favourable preconditions for creating a single market for financial services within the EU this book covers every relevant detail including the following and much more criterion of evaluation of alternative fixed assets based on revaluated amounts criterion based on fair value provisions applicable to income statements notes reports and financial statements rules applicable to the publication of documents transparency in payments to governments dispositions on exemptions hierarchy of general provisions and principles balance sheet and profit and loss account simplifications for small and medium sized enterprises SMEs system of creditors protection and protection of investors interests This book is a peerless explication of the taxation choices granted to Member States under IAS IFRS and EU Directive 2013/34 and how they will be affected by ongoing Commission initiatives Because relevant timely reliable and comparable information assumes a leading role in protecting the interests of investors creditors and other stakeholders as well as in ensuring that all operators act on a level playing field under equal conditions the analysis presented here is of immeasurable value to lawyers business persons and officials concerned with taxation not only in Europe but anywhere within the reach of international trade
