Safeguarding Mindfulness in Schools and Higher Education Leigh Burrows, 2017-08-04 Although mindfulness can be located in a number of different traditions and disciplines it was originally an esoteric and powerful practice based on developing a capacity attainable only by certain people After previously publishing on the positive outcomes in this book the author identifies a range of adverse effects of mindfulness meditation for some individuals that from the point of view of mindfulness in schools and higher education represents uncharted territory The author demonstrates through research personal experience and case studies how mindfulness activities can be safe for all students in education settings including the most vulnerable This book assists teachers in school and higher education settings to make informed decisions about whether to include mindfulness in their teaching depending on their own capacity student cohorts and activities to make sure it is safe for more vulnerable students This guidance is based on a combination of existing pedagogical and clinical knowledge about meeting the needs of vulnerable students clients and patients and the specialized expertise of trained mindfulness clinicians and teachers This book puts school and university teachers in the driver's seat as regards mindfulness teaching in education settings It argues that the only way forward for mindfulness in education is to adopt an individualized approach which builds on what effective teachers already do in their work with vulnerable students

through extending their knowledge about mindfulness and its possible effects In this way teachers existing skills are celebrated and extended and mindfulness pedagogy develops organically with teachers becoming a genuine and felt experience both for themselves and their students rather than an add on intervention **Vedanta Bodha Swami**

fascinating as much as it is frustrating because information about its various aspects is exceptionally hard to find Tantra Mantra and Yantra of Sri Vidya is an endeavor to explore the Sri Vidya tradition and understand it as the unfolding of Shakti the inherent power which lies at the core of our being and holds the key to our worldly and spiritual success Sri Vidya practice comprises tantra a technique or framework for worship whose two main elements are mantra sacred sound and yantra sacred geometry Tantra can be described in simple terms as the utilization of the mental faculty to pursue the objectives of worship using mantra and yantra Mantra is the use of sound energy to bring about oneness with the Divine while yantra is a geometric drawing that serves as a tool to reach the Divine The book delves into concepts such as Sankhya Yoga Karma and Kundalini in order to establish the context of how Sri Vidya is to be approached combining elements of knowledge devotion and ritual The author has kept in mind the sensibilities of the modern spiritual seeker and their needs and interests presenting the information in a non dogmatic and practical manner thereby allowing everyone an opportunity to learn and experience the benefits of Sri Vidya This is the third book by the author in the Spirituality Series The first book was about the Sri Chakra Yantra and the second book had Chakras as its subject *Udaan* Nadia Parvin Mou,2020-10-02 Udaan is prosperous gait of souls as souls would again desire it is the backward forward nation In poetic vision to love and beloved is religion It is never filthy desire in mire but more to glorify our soul again it is a message to our beloved nation Good Evil Sin Virtue is same ingrained in faith It is not again instinct s rage to win the Divine but more it will be prophecy of love the real Dharma in Divine eye The Lord is neither rich nor poor to indulge His soul again but He is again kind in heart for every soul s desire It is the material desire of every soul to hoard more Again it is imaginative flight of the poet to equality and fraternity The souls must seek to and fro money is the goal Under the capitalistic philosophy the poor souls will expect more The great lesson must provide us the love is not instinct s rage but it is to glorify our soul Jay Shiv Shankara Let s say Omkara When the instinct will again mingle to Om our desire is really numb The instinct is a disease of body the introspection is it is soul s love beyond the body Human love is glorious essence in nation the best creature to evoke the trifling greater existence **Internationalising the University** Kalyani Unkule,2019-09-24 This book takes a critical look at the internationalisation of higher education and argues for the importance of grounding education in spiritual perspectives Using spiritual traditions to review the practices programmes and philosophies of learning that internationalise universities the author proposes a paradigm for internationalisation that respects other ways of knowing This focus seeks to decolonize knowledge and promote intercultural understanding as well as help students achieve holistic personal development while studying abroad
