And Clean White History Environmental Racism:

Clean and White Carl A Zimring, 2014-09-26 A comprehensive and provocative exploration of environmental racism from the founding of the republic until the 1960s American Historical Review *Clean and White* offers a history of environmental racism in the United States focusing on constructions of race and hygiene In the wake of the civil war as the nation encountered emancipation mass immigration and the growth of an urbanized society Americans began to conflate the ideas of race and waste Certain immigrant groups took on waste management labor fostering connections between the socially marginalized and refuse Ethnic purity was tied to pure cleanliness and hygiene became a central aspect of white identity In *Clean and White* Carl A Zimring draws on historical evidence from statesmen scholars sanitarians novelists activists advertisements and the United States Census of Population to reveal changing constructions of environmental racism The material consequences of these attitudes endured and expanded through the twentieth century shaping waste management systems and environmental inequalities that endure into the twenty first century Today the bigoted idea that non whites are dirty remains deeply ingrained in the national psyche continuing to shape social and environmental inequalities

Not Just Green, Not Just White Mary E. Mendoza, *Environmental Justice in North America* Paul C. Rosier, 2023-11-01 Emphasizing the voices of activists this book s diverse contributors examine communities common experiences with environmental injustice how they organize to address it and the ways in which their campaigns intersect with related movements such as Black Lives Matter and Indigenous sovereignty The global COVID 19 pandemic exposed the ways in which BIPOC Black Indigenous People of Color communities and white working class communities have suffered disproportionately from the crisis due to sustained exposure to toxic land air and water creating a new urgency for addressing underlying conditions of systemic racism and poverty in North America In addition to exploring the historical roots of the Environmental Justice movement in the 1980s and 1990s the volume offers coverage of recent events such as the DAPL pipeline controversy the Flint water crisis and the rise of climate justice The collection incorporates the experiences of rural and urban communities Alaska Natives Native Hawaiians Puerto Ricans and Indigenous peoples in the U S Canada and Mexico The chapters offer instructors undergraduate and graduate students and general readers a range of accessible case studies that create opportunities for comparative and intersectional analysis across geographical and ethnic boundaries

Technology and the Environment in History Sara B. Pritchard, Carl A. Zimring, 2020-10-13 New perspectives on how envirotech can help us engage with the surrounding world in ways that are more sustainable for humanity and the planet Today s scientists policymakers and citizens are all confronted by numerous dilemmas at the nexus of technology and the environment Every day seems to bring new worries about the dangers posed by carcinogens superbugs energy crises invasive species genetically modified organisms groundwater contamination failing infrastructure and other troubling issues In *Technology and the Environment in History* Sara B Pritchard and Carl A Zimring adopt an analytical approach to explore current

research at the intersection of environmental history and the history of technology an emerging field known as envirotech Technology and the Environment in History They discuss the important topics historical processes and scholarly concerns that have emerged from recent work in thinking about envirotech Each chapter focuses on a different urgent topic Food and Food Systems How humans have manipulated organisms and ecosystems to produce nutrients for societies throughout history Industrialization How environmental processes have constrained industrialization and required shifts in the relationships between human and nonhuman nature Discards What we can learn from the multifaceted forms complex histories and unexpected possibilities of waste Disasters How disaster which the authors argue is common in the industrialized world exposes the fallacy of tidy divisions among nature technology and society Body How bodies reveal the porous boundaries among technology the environment and the human Sensescape How environmental and technological change have reshaped humans and potentially nonhumans sensory experiences over time Using five concepts to understand the historical relationships between technology and the environment porosity systems hybridity biopolitics and environmental justice Pritchard and Zimring propose a chronology of key processes moments and periodization in the history of technology and the environment Ultimately they assert envirotechnical perspectives help us engage with the surrounding world in ways that are we hope more sustainable and just for both humanity and the planet Aimed at students and scholars new to environmental history the history of technology and their nexus this impressive synthesis looks outward and forward identifying promising areas in more formative stages of intellectual development and current synergies with related areas that have emerged in the past few years including environmental anthropology discard studies and posthumanism [Art, Ecology, and the Resilience of a Maine Island](#) Barry A. Logan, Jennifer Pye, Frank H. Goodyear III, 2024-09-03 A richly illustrated catalogue of visual art recording the changing ecology of Monhegan Island a renowned artist destination off the coast of Maine With its rugged shoreline magnificent Cathedral Woods and rustic cedar shingled homes Monhegan Island is quintessential Maine This historic fishing village situated 10 miles off the coast has long been a haven for artists drawn to the splendor of its ocean vistas and picturesque wildlands and for ecologists fascinated by its complex natural history Merging art science and history this book explores the broad arc of ecological events on the island the formation and abandonment of pastureland forest recovery and the critical importance of land conservation through their representation in visual art Indeed for well over a century painters photographers printmakers and cartographers alike have observed and depicted this dynamic landscape Inspired by a Rockwell Kent painting of white spruce saplings set against blue sea and golden sky biologist Barry Logan recognized that the island's ecology could be traced through its artistic depictions across the ages This collaboration between Logan and Monhegan historian Jennifer Pye and art historian Frank Goodyear yields a new and unprecedented survey of the art of the island through the lens of ecology This story of Monhegan parallels that of other land conservation efforts throughout the country yet it is one uniquely well told by island artists ecologists historians and

community members Loving Music Till it Hurts William Cheng, 2020 *Loving Music Till It Hurts* explores how people's intense love and protectiveness of music can lead to interpersonal conflicts, societal injustices, and violence. But how might we love music even embrace it as vital to human thriving without weaponizing this love? What can we do when loving music and loving people seem at odds **Empire of Rags and Bones** Anne Berg, 2024 *Empire of Rags and Bones* offers a fresh perspective on the history of the Third Reich and the Nazi genocide of the Jews. Historicizing the much championed ideal of zero waste, this book explains the connections between Nazi resource thinking, imperial expansion, and racial purging.

Asphalt Kenneth O'Reilly, 2021-07 *La Brea Tar Pits* once trapped prehistoric mammals. Today that killer has a chemical cousin in the Athabasca oil sands of Alberta, Canada: immense deposits of natural asphalt destined for upgrading to synthetic crude oil. If the harvesting of this natural asphalt continues unabated, we might find ourselves stuck in a muck of a different kind. Humanity has used asphalt for thousands of years. This humble hydrocarbon may have glued the first arrowhead to the first shaft, but the changes wrought by this material are most dramatic since its emergence as pavement. Since the 1920s, the automobile and blacktop have allowed unprecedented numbers of Americans to experience the beauty of their continent from the Adirondacks to the Rockies and beyond to Big Sur and the Pacific Coast Highway. Blacktop roads, runways, and parking lots constitute the central arteries of our environment, creating a distinct political territory and a political economy of velocity. In *Asphalt: A History*, Kenneth O'Reilly provides a history of this everyday substance. By tracing the history of asphalt in both its natural and processed forms from ancient times to the present, O'Reilly sets out to identify its importance within various contexts of human society and culture. Although O'Reilly argues that asphalt creates our environment, he believes it also eventually threatens it. Looking at its role in economics, politics, and global warming, O'Reilly explores asphalt's contribution to the history and future of America and the world *The Settler Sea* Traci Brynne Voyles, 2021-11 2022 Choice Outstanding Academic Title 2022 WHA Caughey Western History Prize for the most distinguished book on the American West. Can a sea be a settler? What if it is a sea that exists only in the form of incongruous, head-scratching contradictions: a wetland in a desert, a wildlife refuge that poisons birds, a body of water in which fish suffocate? Traci Brynne Voyles's history of the Salton Sea examines how settler colonialism restructures physical environments in ways that further Indigenous dispossession, racial capitalism, and degradation of the natural world. In other words, *The Settler Sea* asks how settler colonialism entraps nature to do settlers' work for them. The Salton Sea, Southern California's largest inland body of water, occupies the space between the lush agricultural farmland of the Imperial Valley and the austere desert called America's Sahara. The sea sits near the boundary between the United States and Mexico and lies at the often-contested intersections of the sovereign lands of the Torres Martinez Desert Cahuilla and the state of California. Created in 1905 when overflow from the Colorado River combined with a poorly constructed irrigation system to cause the whole river to flow into the desert, this human-maintained body of water has been considered a looming environmental disaster. The Salton Sea's very precariousness, the way it sits

uncomfortably between worlds existing always in the interstices of human and natural influences between desert and wetland between the skyward pull of the sun and the constant inflow of polluted water is both a symptom and symbol of the larger precariousness of settler relationships to the environment in the West and beyond Voyles provides an innovative exploration of the Salton Sea looking to the ways the sea its origins and its role in human life have been vital to the people who call this region home

Quest for the Unity of Knowledge David Lowenthal, 2018-11-01 Is unity of knowledge possible Is it desirable Two rival visions clash One seeks a single way of explaining everything known and knowable about ourselves and the universe The other champions diverse modes of understanding served by disparate kinds of evidence Contrary views pit science against the arts and humanities Scientists generally laud and seek convergence Artists and humanists deplore amalgamation as a threat to humane values These opposing perspectives flamed into hostility in the 1950s Two Cultures clash They culminate today in new efforts to conjoin insights into physical nature and human culture and new fears lest such syntheses submerge what the arts and humanities most value This book stemming from David Lowenthal's inaugural Stockholm Archipelago Lectures explores the Two Cultures quarrel's underlying ideologies Lowenthal shows how ingrained bias toward unity or diversity shapes major issues in education religion genetics race relations heritage governance and environmental policy Aimed at a general academic audience Quest for the Unity of Knowledge especially targets those in conservation ecology history of ideas museology and heritage studies
