ENOUGH! Islamophobia , Revelations Victor Bennett, 2015-10-30 I have read many books concerning the book of Revelations I have taken a different path if you will I have used the Bible itself to interpret the meaning of this book You will actually be amazed at the information in the pages of the Bible that refer to Revelations Most people are scared to read this book other just ignore it like the plague and yet right in the beginning the first few sentences actually tells us that this is a blessing to those who heed the Words written and obey them I do not belong to any denomination I do however consider myself as being a child of God I believe that I have done my best in showing you that by reading the Bible piecing the different verses or events you will then actually see how everything falls into a story that makes more sense than I or anyone else has offered Read the book and like the Berians check the scriptures to ensure that what I have written is true

Earthshaker John Benjamin, 2012-10-19 What in the world is going on Almost overnight our modern world has entered into a period of great change very suddenly and unexpectedly with the largest and most violent storms earthquakes solar flares flooding droughts severe weather anomalies and earth changes than the greater majority of us have ever experienced in our lifetimes The largest drought ever recorded in Americas history struck so quickly in 2012 that it was called a flash drought encompassing over half of the entire nation The full extent of the damage that this has caused through crop loss has yet to be realized on the worlds markets but there will most certainly be food shortages soon and prices are already beginning to skyrocket worldwide Water shortages and actual water wars are also beginning to occur The rest of the entire world is also experiencing these same disastrous events

Gigantic earthquakes are happening worldwide causing untold destruction So many people have lost their lives or have been displaced by these unexpected tragedies that there is simply no way to account for them all India had a power outage so great that seven hundred million people were without electricity for weeks and people worldwide fear that something of this same magnitude may also strike their area in the very near future What in the world is going on here This book provides the answer to this question and gives sound advice on what you can do to prepare yourself as well as your family and friends to survive the even more severe earth events that may be set to occur shortly in our modern rapidly changing world It is my earnest hope that this book will be a great help and source of strength for you in the uncertain times that lie directly ahead
