Baxter, 2015-05-19 This book summarizes seventy of my honoring the dead books that I was directed to write by the dead The dead would direct me in my dreams usually within a week after they die to write a book for their loved ones They would tell me what to write what photographs to use and to whom to send the book This is the reason why I had decided to publish this book The dead don't forget you after they die Don't forget them People don't change after they die I've had many good experiences and a few very bad experiences with them If I was able to communicate with the dead you can too It's a very interesting story how I had acquired this capability which I discussed in this book I was not born with that capability I also discuss two of my prior lifetimes which have also helped me communicate with the dead These are all things that I suggest

that you know about It all helps like it has helped me Its all true and it can be verified in the seventy books that I have written This book summarizes what is in those seventy books This book gives a number of examples that nothing happens by accident You can be whatever you want to be I did it and you can do it too In this lifetime I meet my mother in my 1620 AD lifetime who had given me my current capabilities *What Makes People Rich and Nations Powerful* , **Knights of the Golden Rule** Peter J. Frederick,2014-07-15 This is a book about American intellectuals as would be social reformers and what happens to them in the arena of practical politics Specifically it examines the lives of ten highly idealistic Christian socialist and anarchist intellectuals of the 1890s who were profoundly influenced indeed inspired by the prophetic social messages and exemplary lives of Tolstoy Mazzini and Ruskin The ten Americans including ministers journalists professors and poets were constantly thwarted in their efforts to apply the Golden Rule and the ethics of Jesus not only to the socioeconomic institutions of their society but to their own lives as well These ten Christian knights rode high on clouds of words carrying swords of good intentions tilting at windmills often of their own despair As a result they paid the price as Emerson said of being too intellectual This is indeed a story of noble dreams frustration agonizing self doubts and ultimately of failure Peter J Frederick develops his argument by comparing and contrasting the intellectuals in pairs examining the many forms frustrated activism can take His study emerges as a critique of the Social Gospel movement from a New Left perspective implicitly it is a critique of the contemporary New Left approached with empathetic understanding Ethical decisive action he concludes is essential not only for effective reform but for the psychic well being of the intellectual
