David Dickinson

Book Of Strange New Things:

The Book of Strange New Things Michel Faber, 2014-10-28 A monumental genre defying novel that David Mitchell calls Michel Faber's second masterpiece *The Book of Strange New Things* is a masterwork from a writer in full command of his many talents It begins with Peter a devoted man of faith as he is called to the mission of a lifetime one that takes him galaxies away from his wife Bea Peter becomes immersed in the mysteries of an astonishing new environment overseen by an enigmatic corporation known only as USIC His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter's teachings his Bible is their book of strange new things But Peter is rattled when Bea's letters from home become increasingly desperate typhoons and earthquakes are devastating whole countries and governments are crumbling Bea's faith once the guiding light of their lives begins to falter Suddenly a separation measured by an otherworldly distance and defined both by one newly discovered world and another in a state of collapse is threatened by an ever widening gulf that is much less quantifiable While Peter is reconciling the needs of his congregation with the desires of his strange employer Bea is struggling for survival Their trials lay bare a profound meditation on faith love tested beyond endurance and our responsibility to those closest to us Marked by the same bravura storytelling and precise language that made *The Crimson Petal and the White* such an international success *The Book of Strange New Things* is extraordinary mesmerizing and replete with emotional complexity and genuine pathos

Prizing Scottish Literature Stevie Marsden, 2021-02-15 This history of the Saltire Society Literary Awards demonstrates the significance the awards have had within Scottish literary and cultural life The book explores how the prizes have influenced understandings of Scottish literature over eight decades and explores what they reveal about the wider mechanisms of how literary prize culture functions in the UK today

[Make-Believe](#) David Dickinson, 2020-01-30 I will tell you a story that will make you believe in God No story can guarantee being able to do this Yet novelists can tell stories that make us think about what we believe about God and why Despite repeated predictions of the death of the novel thousands of works of fiction are published and read in Britain each year Although Western society is less religiously observant than it was many 21st century novelists persist in pursuing theological religious and spiritual themes *Make Believe* seeks to explain why With chapters offering analyses of novels from several genres so called literary fiction historical fiction science fiction fantasy and dystopia David Dickinson discusses a wide spectrum of novelists Authors who are avowedly atheistic and authors who have a vested interest in perpetuating biblical stories are both featured Well known writers such as Rushdie McEwan McCarthy and Martell rub shoulders with some you may be meeting for the first time Appealing to literature students and people who simply enjoy reading whether Christian or not this study of God in novels invites us to open our minds and allow aspects of our culture to shape our understanding of God and to change our ways of talking about the divine

Perishing Heathens Julius H. Rubin, 2017-10 In *Perishing Heathens* Julius H Rubin tells the stories of missionary men and women who between 1800 and

1830 responded to the call to save Native peoples through missions especially the Osages in the Arkansas Territory
 Cherokees in Tennessee and Georgia and Ojibwe peoples in the Michigan Territory Rubin also recounts the lives of Native converts many of whom were from mixed blood m tis families and were attracted to the benefits of education literacy and conversion During the Second Great Awakening Protestant denominations embraced a complex set of values ideas and institutions known as the missionary spirit These missionaries fervently believed they would build the kingdom of God in America by converting Native Americans in the Trans Appalachian and Trans Mississippi West Perishing Heathens explores the theology and institutions that characterized the missionary spirit and the early missions such as the Union Mission to the Osages and the Brainerd Mission to the Cherokees and the Moravian Springplace Mission to the Cherokees Through a magnificent array of primary sources Perishing Heathens reconstructs the millennial ideals of fervent true believers as they confronted a host of impediments to success endemic malaria and infectious illness Native resistance to the gospel message and intertribal warfare in the context of the removal of eastern tribes to the Indian frontier *Future Folk Horror* Simon Bacon,2023-07-24 *Future Folk Horror* Contemporary Anxieties and Possible Futures analyzes folk horror by looking at its recent popularity in novels and films such as *The Ritual* 2011 *The Witch* 2015 and *Candyman* 2021 Countering traditional views of the genre as depictions of the monstrous rural and pagan past trying to consume the present the contributors to this collection posit folk horror as being able to uniquely capture the anxieties of the twenty first century caused by an ongoing pandemic and the divisive populist politics that have arisen around it Further this book shows how through its increasing intersections with other genres such as science fiction the weird and eco criticism as seen in films and texts like *The Zero Theorem* 2013 *The Witcher* 2007 2021 and *Annihilation* 2018 as well as through its engagement with topics around climate change racism and identity politics folk horror can point to other ways of being in the world and visions of possible futures

Bodies on the Verge Joseph A. Marchal,2019-05-24 A collection that resets the terms of interpreting the Pauline letters Interpretation of Paul s letters often proves troubling since people frequently cite them when debating controversial matters of gender and sexuality Rather than focusing on the more common defensive responses to those expected prooftexts that supposedly address homosexuality the essays in this collection reflect the range rigor vitality and creativity of other interpretive options influenced by queer studies Thus key concepts and practices for understanding these letters in terms of history theology empire gender race and ethnicity among others are rethought through queer interventions within both ancient settings and more recent history and literature Features New options for how to interpret and use Paul s letters particularly in light of their use in debates about sexuality and gender Developing approaches in queer studies that help with understanding and using Pauline letters and interpretations differently Key reflections on the two clobber passages Rom 1 26 27 and 1 Cor 6 9 that demonstrate the relevance of a far wider range of texts throughout the Pauline corpus **Narrative and Cognition in Literature and Science** Michael Sinding,Aura Heydenreich,Klaus Mecke,2025-07-21 This volume

explores cognitive perspectives on how science and narrative shape one another Narrative is a principle of cognition and cognition is fundamental to narrative This duality enables a deeper mapping of the feedback between story and the natural sciences Science as a culturally organized and systematic mode of knowing the world may seem opposed to narrative thinking Yet they are deeply interwoven Scientists tell many kinds of stories across genres and media In thought experiments lab experiments written arguments and histories and philosophies of fields they recount and interpret unfoldings of events at often uncanny scales from particle collisions to the evolution of life to cosmic expansion Science stories go beyond science Early science is entwined with myth religion and magic We still mythologize beneficent or evil geniuses the promises and perils of technology Teachers journalists politicians and lawyers all tell science stories for their own purposes Literary artists use scientific ideas and forms reimagining physical forces causality and time in storyworlds themes and figures This is the first cognition focused multi disciplinary analysis of these narrative science relations **Kaapse bibliotekaris** ,2016 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957 **Talking Book Topics** ,2015 [The Iowa Review](#) ,2016
