Books In The New Testament:

The Books of the New Testament Leighton Pullan, 2017-06-22 THE NEW TESTAMENT Sidenote Its Name After the gift of the Holy Spirit Himself we may justly reckon the New Testament as the most precious gift which our Lord Jesus Christ has given since His Ascension to those who believe on His Name The word testament which is in Latin testamentum corresponds with our word covenant and the phrase New Testament signifies the record of that new covenant in which God bound man to Himself by the death of His Son The truth that this was a new covenant distinct from the covenant which God made with Abraham was taught by our Lord when He instituted the memorial of His death and said This cup is the new covenant in My Blood We do not know precisely at what date the Christians began to call this record the New Testament but we do know that they used this name before A D 200 Sidenote Its Language In the time of our Lord the popular language of Palestine was Aramaic a language which was akin to Hebrew and borrowed some words from Hebrew Hebrew was known by learned people but the language which the Son of God learned from His blessed mother and His foster father was Aramaic and He spoke the Galilean dialect of that language From a few words preserved in the Gospels it is plain that the gospel was first preached in that tongue In the 7th century after Christ the Mohammedan conquerors who spoke Arabic began to supplant 2 Aramaic by Arabic and this is now the ordinary language of Palestine As many people who spoke Aramaic were at one time heathen both the Jews and the Christians adopted the habit of calling their language Syriac rather than Aramaic The great centre of Christian Syriac literature was Edessa and in the eastern part of the Roman Empire Syriac was the most important and most elegant language next to Greek It is still used in the Church services of many Oriental Christians and it is spoken in ordinary conversation in parts of North Mesopotamia and Kurdistan Further west it is only spoken in a few villages of Anti Libanus In the course of this book it will be necessary to refer occasionally to the Aramaic language It is highly probable that some of the earliest Christian writings were in Aramaic but all the books of the New Testament which we now possess are in Greek The Greek language was known by many people in Palestine and it was splendidly fitted to be the medium of God s revelation It was widely known among the civilized nations of the time and it is so rich and expressive that religious ideas are better conveyed in Greek than in almost any other tongue Whereas it was essential that the gospel should be preached first in Aramaic it was equally essential that it should be written in Greek for the benefit of people who did not live in Palestine or who lived there as strangers Sidenote The Canon The New Testament Scriptures consist of twenty seven different books written by nine different authors Each book has some special characteristics corresponding with the mind of the writer and the circumstances under which it was written The Books of the New Testament Leighton Pullan, 1901 **Books of the New Testament** Ian Boxall, 2007 Aimed at level one students this work encourages interaction with the New Testament texts and provides pointers for further reading and learning It describes the world out of which the New Testament came and what can be known of the key figures of Jesus and Paul discussing the 27 books in turn **The Books of the New Testament**
