Books On Relationships:

The Little Black Book On Relationships Kacie Crisp,2012-04-08 A fresh approach to creating a relationship that can really last while also being easy and fun Written by and about a couple that s done it this book includes information and techniques that are not available anywhere else This is not your typical marriage advice handbook this book has tools that really work Some of the topics included are How flirting can save your marriage how sharing can ruin your marriage how to know in advance if he or she will be good in bed What to do while waiting for Prince Charming or Ms Right creating a romance that can last forever in 10 second increments Why you DON T want your romance to resemble a movie the emotions that will ruin your marriage the difference between love and abuse

The Art of Love Bud Harris,Massimilla Harris,2010-05 Are you seeking to renew a relationship considering a new relationship troubled with establishing a long term relationship divorced and trying to understand why your marriage failed experiencing problems in love romance sex intimacy or marriage a therapist or counselor who would like to provide an accessible resource for your clients Millions of books on relationships have been printed over the years Why do we need another We need *The Art of Love* *The Craft of Relationship* for the same reasons that over four and a half million readers wanted Spencer Johnson s *Who Moved My Cheese* Following Johnson s methods of teaching to a broad modern audience *The Art of Love* *The Craft of Relationship* presents the profound principles that form a loving relationship in an easily accessible manner Using a very simple approach it will help people shift their attitudes and provide them with the skills to create loving long lasting partnerships There are so many titles in print on change because it is an ongoing challenge for most of us So are relationships With more than six decades of experience working with couples we knew we had vital information lessons and insights to share but we insisted that the book be short engaging and easy to read A helpful book does not have to be dense to be packed with wisdom skills and ideas that can open the door to a new era of fulfilling relationships We have brought complex material and common sense into a format that is carefully constructed to achieve results by being communicative and consistent enjoyable and hopeful Unlike the textbook appearance of most self help books that include psychological jargon case examples and exercises *The Art of Love* *The Craft of Relationship* uses stories and dialogue to teach profound insights and valuable skills It sticks to people talking in a way the reader can identify with and understand It brings hope because the reader who is experiencing stress in a relationship can see that other people like them are too And that learning a few basic skills can bring lasting change and renew love The best news is that our book will be useful to many people because it will give them a new way to look at their relationship and the skills to handle problem after problem in a way that builds love and trust Our mission is to appeal strongly to those who are considering a relationship seeking to renew one or are looking for a way to understand a partner and a process for dealing with problems in love romance sex intimacy and living together

The Nature of Love and Relationships Tom Omid, Tom Omid Ph D, 2011-11-01 Description The Nature of Love and Relationships studies the fast deteriorating situation of relationships in modern societies with the objective of finding practical solutions It is a comprehensive book about man women relationships that is developed based on scientific facts but written in a simple language for the general public Contrary to the present approach to address the symptoms of relationship conflicts this book explores the deep rooted problems of relationships as a pandemic It is written for the understanding of the general public although the discussions are based on scientific methodologies and analyses The table of content and preliminary pages of this book show the main theme and the structure of the book Every chapter contains many innovative and educational ideas about relationships while couples limitations to relate are explained in great detail In a nutshell the book studies the main issues of relationships in an easy to understand scientific structure To reverse the frightening trends in relationships radical changes are needed in terms of both people s mindset and social mechanisms This book is the product of the author s research expertise and efforts to save his own marriage during the last fifteen years The book contains around 135 000 words and over thirty five simple diagrams and tables Synopsis Over the last few decades we have developed wrong perceptions about the nature of love and the purpose of relationships With drastic changes in social values and lifestyles our expectations from relationships have skyrocketed in line with our escalating personal aspirations But all these idealistic needs have only led to more distress for everybody The rising divorce rate and endless family conflicts reflect the hectic environment of relationships These facts also reveal that our present methods of dealing with relationship hurdles have failed While focusing on the symptoms of relationship failures we have ignored the roots of the problems as a social pandemic So it is time now to analyse the real sources of problems and face up to the high complexity of relationships in new societies It appears that we need radical solutions compatible with our new social values and expanding personal needs A main goal of this book is to help couples review their mentality about the capacity and purpose of relationships Another objective is to suggest a framework that can assist couples assess their relationships more realistically Too many relationships are ruined nowadays due to partners biased judgments and hasty decisions The ultimate goal of this book is to bring objectivity back into relationships At the very least it is time to appreciate the need for viewing relationships

in a new light consistent with the characteristics of new lifestyles Instead of searching all our lives for a soul mate and an ideal relationship we must find a way to relate more effectively while strengthening our identity and individualism too Love man woman relationship personality conflicts and factors gender differences relationship needs and models compatibility factors and tests the meaning of love *Love Can Last* Sterling Hearn, 2012-11 Don't wait for your relationship to be in shambles before you seek relationship assistance By reading *Love Can Last* you and your partner will be able to get on the same page and succeed in your relationship This book will even help couples that already have a good relationship When we grow up there is no relationship 101 We have to learn about relationships from watching our parents and their risky trial and error approach When we choose our partners we are essentially taking a gamble that they are the one with whom we belong By loving them we are gently placing our heart mind body and soul in their hands We can only hope that they will love and respect us enough to keep us safe from unnecessary heartache and stress We can better prepare them for handling our emotions if we prepare ourselves for how we want to interact with our partner This book will help you and your partner get on the same page in your relationship These important topics in *Love Can Last* will help shift your perspective so that each of you can take more responsibility for the way that your relationship works Both partners have the power to steer the relationship clear of the pitfalls that lead straight to divorce By reading *Love Can Last* you will be able to incorporate key elements into your relationship that will help you get through tough times and strengthen the foundation of your relationship making you stand stronger together for many years to come By realizing that God is there for you both and to help keep others from interfering in your relationship you will stand united in your quest to keep your partner happy If you can forget about the concept that a relationship is 50/50 and give 100 percent to your partner you will see a huge difference with how you treat each other **Love in the Real World** Rhonda Pritchard, 1996 At last A relationship book that confirms what many successful long term couples already know perfect relationships are more of a fantasy than a reality Don't aim for the stars in your relationship try and settle for good enough Many personal growth books convey the idea that here is a state of perfect happiness to be reached This book takes apart the myths of relationships and will help people work towards accepting the differences in each other *RELATIONSHIPS* Dr. Danna Brissie, 2014-06-06 This book evolved from years of practice of a psychotherapist treating hundreds of individuals and couples After several years Dr Brissie began to notice patterns in the problems of couples and devised a theory as to why relationships fail and developed solutions which proved successful in her practice The most popular part of the book is an identification of roles individuals assume in their primary relationships with their spouses or significant others For example a Critical controlling person usually chooses a Rebellious Passive or Aggressive person A Rescuer chooses a Compliant person both groups could never understand how they were ever attracted to each other or complained he/she is not the same person I first met After couples were able to see these characteristics in themselves and others they learned to better communicate and work on undesirable behaviors Most

couples learned the greatest enemy to a relationship is built resentment by one or both parties thus making communication a vital part of a healthy relationship The realities of divorce is also included in the book describing the ultimate impact on all members of the family and the families of origin Another part of the book is designed to help individuals gain insight into knowing themselves better thus improving communications skills and improving all relationships No self help book is complete without helping readers improve their self esteem and educating them about how therapy can help The author presents suggestions for finding a good therapist The book is written without psychological jargon thus making it easy to read and understand Many find it excellent as a future reference After the first publication the author was invited to be a keynote speaker at McLean Hospital one of Harvard s teaching hospitals during a mental health week The book is currently on Dr Harville Hendrix s recommended reading list It remains timely after many years in our current social networking multiple marriage complex society The author hopes you will find it helpful to you as it has been to the majority of her clients and readers
