Political Philosophy from an Intercultural Perspective Bianca Boteva-Richter, Sarhan Dhouib, James Garrison, 2021-06-27 The objective of the following collected volume is to encourage a critical reflection on the relationship between power and non power in our contemporary world and proceeding from various philosophical traditions to investigate the multifaceted aspects of this relationship The authors respective investigations proceed from an intercultural perspective and fall predominantly in the domain of political theory and philosophy This volume takes an intercultural political perspective which means on the one hand involving non European philosophies in a global debate about power relations and their effects in the world and on the other hand confronting local traditions of thought with a global inquiry in order to enter into a philosophical political dialogue with these traditions An intercultural approach of this type to political philosophy seeks not only to join others in reflecting upon global problems but also to decenter of our understanding of the world drawing attention to new ways of thinking Insofar as the authors of the planned volume deal with concrete philosophical political problems unfolding in various regions of the world they seek to shed light on burning issues like migration human rights violations dictatorship and language global poverty power asymmetries experiences of injustice with the further goal of offering a particularly intercultural analysis of these

problems along with approaches to resolving them To date there is no book that collects various essays from different countries and perspectives and poses political philosophical problems from an intercultural point of view **A Theory of Truces** Nir Eisikovits,2016-01-27 This book argues that understanding truces is crucial for our ability to wind down wars We have paid too much attention to the idea of permanent peace yet few conflicts end in this way The book describes how truce makers think which truces can be morally justified and provides a philosophical history of truce making in the Western tradition The Conceptual Foundations of Transitional Justice Colleen Murphy,2017-04-19 Many countries have attempted to transition to democracy following conflict or repression but the basic meaning of transitional justice remains hotly contested In this book Colleen Murphy analyses transitional justice showing how it is distinguished from retributive corrective and distributive justice and outlines the ethical standards which societies attempting to democratize should follow She argues that transitional justice involves the just pursuit of societal transformation Such transformation requires political reconciliation which in turn has a complex set of institutional and interpersonal requirements including the rule of law She shows how societal transformation is also influenced by the moral claims of victims and the demands of perpetrators and how justice processes can fail to be just by failing to foster this transformation or by not treating victims and perpetrators fairly Her book will be accessible and enlightening for philosophers political and social scientists policy analysts and legal and human rights scholars and activists *Transitional Justice and Rule of Law Reconstruction* Padraig McAuliffe,2013-06-26 This short and accessible book is the first to focus exclusively on the inter relation between transitional justice and rule of law reconstruction in post conflict and post authoritarian states In so doing it provides a provocative reassessment of the various tangled relationships between the two fields exploring the blind spots contradictions and opportunities for mutually beneficial synergies in practice and scholarship between them Though it is commonly assumed that transitional justice for past human rights abuses is inherently conducive to restoring the rule of law differences in how both fields conceptualise the rule of law the scope of transition and obligations to citizens have resulted in divergent approaches to transitional criminal trial international criminal law restorative justice and traditional justice mechanisms Adopting a critical comparative approach that assesses the experiences of post authoritarian and post conflict polities in Latin America Asia Europe and Africa undergoing transitional justice and justice sector reform simultaneously it argues that the potential benefits of transitional justice are exaggerated and urges policy makers to rebalance the compromises inherent in transitional justice mechanisms against the foundational demands of rule of law reconstruction This book will be of interest to scholars in the fields of transitional justice rule of law legal pluralism and peace building concerned by the failure of transitional justice to leave a positive legacy to the justice system of the states where it operates This is a bold and nuanced scrutiny of the international system s approach to transitional justice and the much vaunted rule of law project Dr McAuliffe should be congratulated for this well researched book which should be a must read for not only scholars and researchers in transitional

justice and peace and conflict studies but also policy makers in the international system Dr Hakeem O Yusuf Senior Lecturer University of Strathclyde and author of Transitional Justice Judicial Accountability and the Rule of Law **Theorizing**

Transitional Justice Claudio Corradetti, Nir Eisikovits, 2016-02-17 This book addresses the theoretical underpinnings of the field of transitional justice something that has hitherto been lacking both in study and practice With the common goal of clarifying some of the theoretical profiles of transitional justice strategies the study is organized along crucial intersections evaluating aspects connected to the genealogy the nature the scope and the most appropriate methodology for the study of transitional justice The chapters also take up normative and political considerations pertaining to specific transitional instruments such as war crime tribunals truth commissions administrative purges reparations and historical commissions Bringing together some of the most original writings from established experts as well as from promising young scholars in the field the collection will be an essential resource for researchers academics and policy makers in Law Philosophy Politics and Sociology **A Relational Theory of the Atonement** Kirk Loughheed, 2023-07-21 While the atonement is a central component of Christianity there is little agreement in the tradition about how it should be understood This book develops and defends a novel relational theory of atonement inspired by African relational ethics This book brings important themes from African ethics into conversation with the contemporary philosophical literature on the atonement The author employs an African relational ethic that says an act is right inasmuch as it is friendly where friendliness is understood as identifying with others and expressing solidarity with them This relational ethic sheds new light on the problem of sin by emphasising the relational disharmony it produces between God and humans When applied to the Atonement the passion and death of Christ can be understood as an ultimate act of friendliness in reconciling humanity to God The author also explores questions about the nature of justice forgiveness and reconciliation He shows how constructive punishment ought to be included in genuine forms of reconciliation and as such how punishment can be part of his Relational Theory of the Atonement The last part of the book develops alternative theories of the atonement based on two important African normative theories located in personhood and in life force Overall the book makes the case that the Relational Theory of the Atonement should be considered as a serious competitor to longer established Western theories A Relational Theory of the Atonement will appeal to scholars and advanced students interested in philosophy of religion philosophical theology African philosophy and comparative philosophy **The History Problem** Hiro Saito, 2017-04-01 Seventy years have passed since the end of the Asia Pacific War yet Japan remains embroiled in controversy with its neighbors over the war's commemoration Among the many points of contention between Japan China and South Korea are interpretations of the Tokyo War Crimes Trial apologies and compensation for foreign victims of Japanese aggression prime ministerial visits to the Yasukuni Shrine and the war's portrayal in textbooks Collectively these controversies have come to be called the history problem But why has the problem become so intractable Can it ever be resolved and if so how To answer these questions author Hiro Saito mobilizes the

sociology of collective memory and social movements political theories of apology and reconciliation psychological research on intergroup conflict and philosophical reflections on memory and history The history problem he argues is essentially a relational phenomenon caused when nations publicly showcase self serving versions of the past at key ceremonies and events Japan South Korea and China all focus on what happened to their own citizens with little regard for foreign others Saito goes on to explore the emergence of a cosmopolitan form of commemoration taking humanity rather than nationality as its primary frame of reference an approach increasingly used by a transnational network of advocacy NGOs victims of Japan s past wrongdoings historians and educators When cosmopolitan commemoration is practiced as a collective endeavor by both perpetrators and victims Saito argues a resolution of the history problem and eventual reconciliation will finally become possible The History Problem examines a vast corpus of historical material in both English and Japanese offering provocative findings that challenge orthodox explanations Written in clear and accessible prose this uniquely interdisciplinary book will appeal to sociologists political scientists and historians researching collective memory nationalism and cosmopolitanism and international relations and to anyone interested in the commemoration of historical wrongs
