Valuing Hindu Women's Domestic Shrine Traditions as Reproductive Labor Ashlee Norene Andrews, 2024-10-07 Historically in middle class Bengali Hindu households it has been the matriarch's responsibility to arrange and maintain the domestic shrine and to perform daily rituals of deity worship and caretaking termed in this book as domestic shrine traditions These traditions are often assimilated with the other domestic caretaking labor women are expected to complete for their families Utilizing a years long ethnography with Bengali American Hindu women and drawing from Marxist feminist Social Reproduction Theory this book argues that domestic shrine traditions are reproductive labor that is essential to the transnational and transgenerational sustenance of Hindu traditions and subjectivities As the first monograph focused on Hindu women's domestic shrine traditions in the United States this book illuminates both the value of these traditions for the women who maintain them and how these traditions connect immigrant Hindus to family and ethno religious identity in ways unmatched by the public Hindu temple or organization

The Oxford History of Hinduism: The Goddess Mandakranta Bose, 2018-05-30 The Oxford History of Hinduism The Goddess provides a critical exposition of the Hindu idea of the divine feminine or Dev conceived as a singularity expressed in many forms With the theological principles examined in the opening chapters the book proceeds to describe and expound historically how individual manifestations of Dev have been imagined in Hindu religious culture and their impact upon Hindu social life In this quest the contributors draw upon the history and philosophy of major Hindu ideologies such as the Puranic and Vaishnavite belief systems A particular distinction of the book is its attention not only to the major goddesses from the earliest period of Hindu religious history but also to goddesses of later origin in many cases of regional provenance and influence Viewed through the lens of worship practices legend and literature belief in goddesses is discovered as the formative impulse of much of public and private life The influence of the goddess culture is especially powerful on women's life often paradoxically situating women between veneration and subjection This apparent contradiction arises from the humanization of goddesses while acknowledging their divinity which is central to Hindu beliefs In addition to studying the social and theological aspect of the goddess ideology the contributors take anthropological sociological and literary approaches to delineate the emotional force of the goddess figure that claims intense human attachments and shapes personal and communal lives

Struggles for Hindu Sacred Space in the Netherlands Priya Swamy, 2024-09-19 This book asks us to consider

what is absent rather than what is present when studying religions Priya Swamy argues that absent religious spaces are in themselves abstract locations that painfully memorialize feelings of shame oppression and marginalization She shows that these traumas of absence the complex entwined and emotional responses to absent spaces can be articulated through mob violence and destruction but also anticolonial struggles or human rights issues This study focusses on the absence of temples across the global Hindu diaspora taking the tumultuous narrative of the Devi Dhaam community in Amsterdam Southeast as a central location to detail the over thirty year struggle to build a Hindu temple in a neighbourhood of vibrant mosques and churches In 2010 their makeshift space was pulled away from them provoking tears among elderly devotees rage among board members and devastation in the wider community Leaving their goddess with no place to live some devotees feared for the dangerous repercussions that would follow from uprooting a divine presence from its home By exploring the ways in which the trauma of absent religious spaces has become a formative aspect of localized but also globalized Hindu identity this book rethinks the way that empty lots piles of rubble and abandoned buildings around the world are themselves powerful monuments to the trauma of absent temple spaces
