A Plea for Religious Liberty (1644) Roger Williams, 2014-05-01 Roger Williams ca. 1603-83 religious leader and one of the founders of Rhode Island was the son of a well-to-do London businessman. Educated at Cambridge, A.B. 1627, he became a clergyman and in 1630 sailed for Massachusetts. He refused a call to the church of Boston because it had not formally broken with the Church of England, but after two invitations he became the assistant pastor, later pastor of the church at Salem. He questioned the right of the colonists to take the Indians' land from them merely on the legal basis of the royal charter and in other ways ran afoul of the oligarchy then ruling Massachusetts. In 1635 he was found guilty of spreading new authority of magistrates and was ordered to be banished from the colony. He lived briefly with friendly Indians and then in 1636 founded Providence in what was to be the colony of Rhode Island and Providence Plantations. His religious views led him to become briefly a Baptist, later a Seeker. In 1644, while he was in England getting a charter for his colony from Parliament, he wrote the work from which this dialogue is taken. During much of his later life he was engaged in polemics on political and religious questions. **A Plea for Religious Liberty** 1644 is his most famous work.

Government Surveillance of Religious Expression Kathryn Montalbano, 2018-10-25 Recent revelations about government surveillance of citizens have led to questions about whether there should be better defined boundaries around privacy. Should government officials have the right to specifically target certain groups for extended surveillance? United

States municipal territorial and federal agencies have investigated religious groups since the nineteenth century While critics of contemporary mass surveillance tend to invoke the infringement of privacy the mutual protection of religion and public expression by the First Amendment positions them along with religious expression comfortably within in the public sphere This book analyzes government monitoring of Mormons of the Territory of Utah in the 1870s and 1880s for polygamy Quakers of the American Friends Service Committee AFSC from the 1940s to the 1960s for communist infiltration and Muslims of Brooklyn New York from 2002 to 2013 for suspected terrorism Government agencies in these case studies attempted to understand how their religious beliefs might shape their actions in the public sphere It follows that government agents did not just observe these communities but they probed precisely what constituted religion itself alongside shifting legal and political definitions relative to their respective time periods Together these case studies form a new framework for discussions of the historical and contemporary monitoring of religion They show that government surveillance is less predictable and monolithic than we might assume Therefore this book will be of great interest to scholars of United States religion history and politics as well as surveillance and communication studies
