A Public Faith How Followers Of Christ Should Serve The Common Good:

A Public Faith Miroslav Volf, 2011-08 An intellectual and applied Christian engagement with what it really means to flourish as human beings in relationship to God and one another *A Public Faith* Miroslav Volf, Professor of Systematic Theology and Christian Ethics Miroslav Volf, 2014-05-14 An intellectual and applied Christian engagement with what it really means to flourish as human beings in relationship to God and one another **Public Faith in Action** Miroslav Volf, Ryan McAnnally-Linz, 2017-09-19 Celebrated Theologian Offers Wisdom for Civic Engagement Christian citizens have a responsibility to make political and ethical judgments in light of their faith and to participate in the public lives of their communities from their local neighborhoods to the national scene But it can be difficult to discern who to vote for which policies to support and how to respond to the social and cultural trends of our time This nonpartisan handbook offers Christians practical guidance for thinking through complicated public issues and faithfully following Jesus as citizens of their countries The book focuses on enduring Christian commitments that should guide readers in their judgments and encourages legitimate debate among Christians over how to live out core values The book also includes lists of resources for further reflection in each chapter and room for debate questions to consider Good News for Common Goods Wes Markofski, 2023 What is the relationship between evangelical Christianity and democracy in America In *Good News for Common Goods* sociologist Wes Markofski explores how multicultural evangelicals across the United States are addressing race poverty inequality politics and religious and cultural difference in America s increasingly plural and polarized public arena Based on extensive original research on multicultural evangelicals active in faith based community organizing community development political advocacy and public service organizations across the country including over 90 in depth interviews with racially diverse evangelical and non evangelical activists community leaders and neighborhood residents Markofski shows how the varieties of public religion practiced by evangelical Christians are not always bad news for non evangelicals people of color and those advancing ethical democracy in the United States Markofski argues that multicultural evangelicals can and do work with others across race class religious and political lines to achieve common good solutions to public problems and that they can do so without abandoning their own distinctive convictions and identities or demanding that others do so Just as ethical democracy calls for a more reflexive evangelicalism it also calls for a more reflexive secularism and progressivism

Commonwealth and Covenant Marcia Pally, 2016 In *Commonwealth and Covenant* Marcia Pally argues that in order to address current socioeconomic problems we need not more economic formulas but rather a better understanding of how the world is set up an ontology of how we and the world work Without this good proposals that arise lack political will and go unimplemented Pally describes our basic setup as separability amid situatedness or distinction amid relation Though we are all unique individuals we become our singular selves through our relations and responsibilities to the people and environments around us Pally argues that our culture s overemphasis on separability individualism run amok results in greed

adversarial and deceitful political discourse and chicanery resource grabbing broken relationships and anomie Maintaining that separability and situatedness can and must be considered together in public policy Pally draws on intellectual history philosophy and especially historic Christian and Jewish theologies of relationality to construct a new framework for addressing present economic and political ills A Faith of Our Own Jonathan Merritt,2012-05-08 Every day major headlines tell the story of how Christianity is attempting to influence American culture and politics But statistics show that young Americans are disenchanted with a faith that has become culturally antagonistic and too closely aligned with partisan politics In this personal yet practical work Jonathan Merritt uncovers the changing face of American Christianity by uniquely examining the coming of age of a new generation of Christians Jonathan Merritt illuminates the spiritual ethos of this new generation of believers who engage the world with Christ centered faith but an un polarized political perspective Through personal stories and biblically rooted commentary this scion of a leading evangelical family takes a close thoughtful look at the changing religious and political environment addressing such divisive issues as abortion gay marriage environmental use and care race war poverty and the imbalance of world wealth Through Scripture the examples of Jesus and personal defining faith experiences he distills the essential truths at the core of a Christian faith that is now just coming of age A Calling to Care Timothy W. Herrmann,Kirsten D. Riedel,2018-06-04 Despite the widely differing perspectives held by those who work in higher education there is one goal upon which all educators and educational leaders agree students should leave college stronger than they came Now more than ever today s students come to college with unique intellectual emotional relational and spiritual challenges They need more than appropriate curricula programs facilities and resources Educating college students well requires a concern for and commitment to a holistic vision of their care This volume examines the calling that Christian educators in both curricular and cocurricular settings share in relation to the students they serve Join this unique blend of experienced practitioners and researchers including Miroslav Volf Sharon Daloz Parks and John Foubert in considering how we can best nurture our students toward health wholeness and purpose *Beyond the Academy* David Thang Moe,2024-10-11 The term public theology was introduced by Martin E Marty in a 1974 article Since then scholarly discussions on public theology have become more popular in academic circles This book however is about the invitation for moving beyond the academy It provides two reasons for doing so First an overtly academic public theology is in crisis today Although public theology may be flourishing in the academy its relevance for real life is limited Second there is the ecclesial flourishing among grassroots Christian communities across Asia who witness to their lived faith in public and hidden life Their voices are largely unheard due to the gaps between the academy and the church This volume argues that we should consider their voices as key sources for developing a relevant lived Asian public theology The author makes the case for reimagining the paradigm shifts in lived Asian public theology of religions and for bridging the unhappy gaps between the academic and grassroots voices *Faithful Witness in a Fractured World* Nicole L. Johnson,Michael T. Snarr,2019-09-11

Christians have always looked to models within the Christian faith to guide their lives At a time when the church is more identifiable by ugly partisan politics what we call crappy Christianity than by compassionate neighbor love this book highlights the lives and work of seven individuals who are pursuing their Christian calling in humility and profound love for and service to others this book highlights the lives and work of seven individuals who are pursuing their Christian calling in humility and profound love for and service to others Their commitments have led to vocations in working with homeless women employing refugees lobbying on Capitol Hill for environmental protection healing trauma in urban communities peacemaking in Israel Palestine advocating for immigrants and walking alongside people in addiction recovery Their individual and collective witness offer compelling examples of authentic Christian life which is marked in part by active embodied faith in pursuit of the common good a broad and inclusive love for all people rightly ordered political identities and loyalties and a commitment to work toward holistic redemption of both people and the systems that constitute our life together In contrast to much of contemporary American Christianity these models of faith demonstrate that Christians should focus much more on what we are for rather than what we are against
