A Rhetoric Of Argument 3rd Edition:

A Rhetoric of Argument Jeanne Fahnestock, Marie Secor, 2004 The stasis approach pioneered by Fahnestock and Secor distinguishes among four basic questions that arguments are written to answer What is it Definition arguments How did it get that way Causal arguments Is it good or bad Evaluation arguments What should we do about it Proposal arguments These four questions now standard in many argument texts give students a constructive engaging way to analyze arguments by other writers and to construct their own arguments GoogleBooks

A Rhetoric of Argument Jeanne Fahnestock, Marie Secor, 1990 This composition text focuses on argument and persuasion using examples exercises readings and writing assignments The text guides students through developing a thesis finding and organizing evidence and writing and revising several different types of argumentative papers The second edition de emphasizes the language of formal logic and all the readings examples and exercises have been updated Additional coverage has been given to refutation It is widely used in both advanced composition and second semester freshman courses

A Rhetoric for Argument Jeanne Fahnestock, Marie Secor, 1981-12-01

Examining Argumentation in Context Frans H. van Eemeren, Frans Hendrik Eemeren, 2009 Examining Argumentation in Context Fifteen studies on strategic maneuvering contains a selection of papers on strategic maneuvering in argumentative discourse Starting point of all of these contributions is that a satisfactory analysis and evaluation of strategic maneuvering is possible only if the argumentative discourse is first situated in the communicative and interactional context in which it occurs While some of the contributions present general views with regard to strategic maneuvering other contributions report on the results of empirical studies examine strategic maneuvering in a particular legal or political context or highlight the presentational design of strategic maneuvering Examining Argumentation in Context therefore provides an insightful view of recent developments in the research on strategic maneuvering which is currently prominent in the study of argumentation

Arguing on the Toulmin Model David Hitchcock, Bart Verheij, 2007-01-24 Summarizing in *The Uses of Argument* Toulmin emphasized a number of points that are by now familiar but still deserve attention

- 1 Reasoning and argument involve not only support for points of view but also attack against them
- 2 Reasoning can have qualified conclusions
- 3 There are other good types of argument than those of standard formal logic
- 4 Unstated assumptions linking premisses to a conclusion are better thought of as inference licenses than as implicit premisses
- 5 Standards of reasoning can be field dependent and can be themselves the subject of argumentation

Each of these points is illustrated by his layout of arguments The rebuttal illustrates the first point the qualifier the second point and the warrant and backing the last three points

2 RECEPTION OF TOULMIN'S BOOK As Toulmin himself notes in his essay in this volume which was delivered as an address in 2005 his fellow philosophers were initially hostile to the ideas in his book They were taken up however by specialists in fields like jurisprudence and psychology who found that they fit the forms of argument and reasoning that they were studying And Toulmin's model was embraced by the field of speech communication in the United States whose textbooks on argumentation now include an obligatory chapter on the Toulmin model of micro arguments

Rhetorical Style Jeanne Fahnestock, 2011-09-29 A comprehensive guide to the language of argument Rhetorical Style offers a renewed appreciation of the persuasive power of the English language

Coalescent Argumentation Michael A. Gilbert, 2013-11-05 Coalescent Argumentation is based on the concept that arguments can function from agreement rather than disagreement To prove this idea Gilbert first discusses how several components emotional visceral physical and kisceral intuitive are utilized in an argumentative setting by people everyday These components also characterized as modes are vital to argumentative communication because they affect both the argument and the resulting outcome In addition to the components modes this book also stresses the goals in argumentation as a means for understanding one s own and one s opposer s positions Gilbert argues that by viewing positions as complex human events involving a variety of communicative modes we are better able to find commonalities across positions and therefore move from conflict to resolution By focusing on agreement and shared goals in all modes arguers can coalesce diverse positions and more easily distinguish between minor or unrelated differences and core disagreements This permits much greater latitude for locating shared beliefs values and attitudes that will lead to conflict resolution
