Better Times Facet Iii Finding Better Times:

Better Times - Facet Iii Gary B. Boyd, 2014-07-17 Spavin Lawson kept his promise to the united human population of 32nd Century Texas City. He and his wife Clarissa had gathered the brightest minds they could find and put together the Technology Development Plan. The Plan was a template to build a civilization based upon ecologically sound principles. Unfortunately, the completion of The Plan required a population density that did not exist in the 32nd Century. Cataclysmic events a millennium earlier had reduced humans to uncivilized tribes totaling fewer than ten thousand people in what was once North America. Unknown to the citizens of the new city, long lost humans who were struggling to survive on Mars and Luna also assisted in the development of The Plan. A secret node on the Technology Development Plan was dedicated to the eventual reunification of all Humankind. Spavin could not entrust the future of his progeny and the human race to chance. He knew that the two hundred year plan would need a boost at the critical point of Reunification. With his family and Shadow Warrior Nevlyn Bydman, he used his time dilator so he could guide the completion of The Plan and ensure Humankind would find better times.

Better Times - Facet Ii Gary B. Boyd, 2014-06-06 From 32nd Century Wyoming, Spavin Lawson led a group of one thousand refugees from the bunker that housed Resurgent City in a search for better times. The 22nd Century Government bunker had exceeded the design specifications of its creators thanks to the leadership of its first elected Mayor. A small city had expanded and prospered inside the mountain. The original population of less than two hundred souls had grown into nearly five thousand. Unfortunately, the ancient nuclear power plant that provided the people the power to survive had leaked radiation for generations. The net effect of the radiation and the cave environment had altered the population. The people had developed genetic albinism with eyes well suited to the dimly lit cave city. Small in stature yet curious and adaptive, the Tribe followed the tall, dark haired man and his wife without question. The outside world was foreign and frightening, but within days the people realized that The Judges of Resurgent City had held them in a grasp of religious fervor not based on factuality or reality. The journey they embarked upon was destined to lead them to the coast of Texas. Spavin, Lawson, physicist by training, believed the coast would provide better opportunities for the otherwise doomed population. He reckoned that South Texas coast would allow the petite, pale people to re-establish the human race on Earth. That location was further from the immediate geological and environmental effects of the Yellowstone super volcano eruption that had induced a global deep freeze ten centuries earlier. His greatest concerns for Humankind were the long term effects of the high radiation exposures and the lack of genetic diversity.

Better Times - Facet I Gary B. Boyd, 2014-05-05 Spavin Lawson enjoyed his quiet life as the leader of a team of theoretical physicist who worked for the U S Government's Temporal Ministry. The quiet, dedicated scientist was content with his life in Wilkes Barre, Pennsylvania. Together with his wife Clarissa, he had a nice home and two teenaged daughters, Sasha and Stephanie. They experienced the epitome of the American dream. Unfortunately, three centuries of abuse had finally caught up with the planet. They warned of climate change that had been pooh

poohed for more than one hundred years came crashing ashore With new sea levels and relentless hurricanes assaulting the coasts hordes of survivors were forced inland only to find that droughts had decimated the breadbasket of the world Spavin knew that the United States of the 22nd Century was not survivable His idyllic lifestyle came to an abrupt end With his family Spavin embarked upon a journey to seek better times The Lawsons journey was unlike any journey in the annals of Man
