Medieval Sensibilities Damien Boquet, Piroska Nagy, 2018-07-26 What do we know of the emotional life of the Middle Ages Though a long neglected subject a multitude of sources spiritual and secular literature iconography chronicles as well as theological and medical works provide clues to the central role emotions played in medieval society In this work historians Damien Boquet and Piroska Nagy delve into a rich variety of texts and images to reveal the many and nuanced experiences of emotion during the Middle Ages from the demonstrative shame of a saint to a nobleman's fear of embarrassment from the enthusiasm of a crusading band to

the fear of a town threatened by the approach of war or plague Boquet and Nagy show how these outbursts of joy and pain while universal expressions must be understood within the specific context of medieval society During the Middle Ages a Christian model of affectivity was formed in the laboratory of the monasteries one which gradually seeped into wider society interacting with the sensibilities of courtly culture and other forms of expression Bouquet and Nagy bring a thousand years of history to life demonstrating how the study of emotions in medieval society can also allow us to understand better our own social outlooks and customs

This study responds to developments of the sensation novel within literature television and popular culture and takes into account recent studies of the genre *The Mystery of Emotions* R D Hinshelwood,2023-03-16 Psychoanalysis is above all the science of the emotions but as yet there is no single accepted theory of affects Instead there are many all of them too limited based as they are on idiosyncratic introspection R D Hinshelwood presents an extensive scoping of the prominent theories from the philosophy of mind and academic psychology alongside a review of psychoanalytic ideas based on instinct theory or object relations This wide review of divergent theories from various disciplines helps to mitigate variation and identify commonalities From this scoping exercise Hinshelwood creates a form of qualitative meta analysis which enables the most common dimensions to come to the fore namely 113 features of affects form a more general theory with four dimensions This more systematic view offers an affective space as a model for thinking about the nature of affects their origins and their consequences At the same time Hinshelwood retains the personal He starts with the memory which initiated his quest to understand how much we are rooted in the experience of our feelings and includes a chapter documenting his own idiosyncrasies to bring his own bias to the fore In this way the book preserves the especially personal and intimate quality of its universal topic *Secret memoirs of the court of Petersburg [by C.F.P. Masson]. Tr. [from Mémoires secrets sur la Russie]*. Charles François P. Masson,1801 *Mary Elizabeth Braddon* Anne-Marie Beller,2012-11-01 An important figure in the development of crime fiction Mary Elizabeth Braddon 1835 1915 wrote more than 80 novels numerous plays poems essays and short stories and edited two magazines during her 55 year literary career Her bestselling *Lady Audley* s *Secret* secured her reputation as a leading sensation novelist Though critics called her work immoral Braddon s novels influenced the detective fiction of the late Victorian period With entries on all her published writing characters relationships and influences and themes and contexts as well as numerous illustrations a career chronology and a chronological and alphabetical listing of all of her works this companion to Braddon s mystery fiction is the definitive reference on this provocative but overlooked writer *Our Secret Rules* Jordan Weiss,2013-09-09 We all live according to rules that regulate our behaviors Some rules ones we are conscious of are clear Others however are unconscious and when we do things that go against them we experience stress anxiety apprehension and emotional exhaustion and we never know why This book offers a

unique system that helps uncover our most secret rules Once we are aware of them we can then learn to live within their boundaries or we can attempt to change them **The Religious Monitor, and Evangelical Repository** ,1834 Includes the minutes of the annual meeting of the Associate Synod of North America
