Energy Savings addresses the pressing issue of high energy bills and environmental concerns during colder months by exploring the psychology of energy conservation and the technology behind efficient heating. It highlights how our behaviors shift in winter often leading to increased energy consumption and offers strategies for modifying these habits. The book emphasizes that understanding why we consume more energy is crucial for adopting effective energy saving practices. The book delves into various heating technologies from traditional furnaces to modern heat pumps and solar heating analyzing their efficiency and environmental impact. For example adopting thermostat management techniques can lead to significant savings. The book presents a holistic view of winter energy consumption by building upon research in behavioral economics environmental science and mechanical engineering. Structured to guide readers through a comprehensive understanding Winter Energy Savings begins with fundamental concepts of energy consumption and progresses to practical strategies for reducing energy use. These include home weatherization tips and guidelines for selecting the most appropriate heating system offering a roadmap to mitigate the environmental and economic impacts of winter energy use.

Beyond Smart Cities José A. Ondiviela, 2021-10-21 Cities are experiencing unprecedented times. In addition of managing the best possible post pandemic recovery Cities are at the beginning of the 4th industrial revolution and all want to play a relevant role in it. To achieve this they must retain and attract the necessary talent. There is a fierce competition where cities transform to become as attractive as possible. But what makes a city attractive from emotional and rational sides to talented citizens. For mayors and city directors how can I prepare my city for this goal. What kind of transformations in the medium long term should I develop. And in the short term what processes and technologies SmartCity should I put in place. And from the point of view of citizens how do I choose the best city to develop my full potential. Which one offers me the best citizenship contract. Where am I going to enjoy the best services with the highest quality of life and lower taxes cost of life. In addition the city must be attractive with a strong identity and dynamism and promising future. Can I find the cities that best suit my aesthetic and emotional preferences and that also offer me the services that I consider a priority at the lowest cost to my pocket.
