Beyond Westphalia National Sovereignty And International Intervention:

Beyond Westphalia? Gene M. Lyons, Michael Mastanduno, 1995-04 Intervention has been a common feature of international politics This text distinguishes between unilateral and international intervention examining whether recent political changes have shifted the balance between the sovereign rights of states and the authority of the international community

State Sovereignty and Intervention Helle Malmvig, 2006-10-03 This new volume shows how state sovereignty is more fluid and contested than is usually appreciated within both conventional and constructivist literature Whereas previous constructivist works have investigated the temporal contingency of state sovereignty the spatial contingency of this concept has been neglected This book tackles this situation showing the reader how the meaning of state sovereignty was constituted differently in the case of the intervention in Kosovo and the case of non intervention in Algeria in the late 1990s This essential study clearly and concisely takes existing constructivist and poststructuralist work on state sovereignty one step further arguing that state sovereignty not only is open to different constructions over time but also across space probes further into the conceptual relationships between sovereignty intervention arguing that legitimations of non intervention also can be analyzed as a practice which gives meaning and content to the concept of state sovereignty contributes to the emerging debate on the importance of methodology in constructivist studies turning the philosophical and meta theoretical assumptions of constructivism and poststructuralism into an informed analytical strategy guiding the book's empirical discourse analysis

Global Issues beyond Sovereignty Maryann Cusimano Love, 2019-10-07 Other global issues books are a rather eclectic mash up of topics headlines du jour with an and now this organizational scheme The hot topics may have cooled by press time and the presentation to students is disjointed not clear The approach is often a scare em and leave em presentation of a global horror show of problems without clear arguments about the connections among the issues or integrated discussions of solutions In contrast *Global Issues Beyond Sovereignty* provides a thesis and a common narrative throughout the issue chapters The range of responses to manage global issues are compared and discussed throughout Global problems move at internet speed governments do not move so quickly This creates gaps in what citizens expect the state to do and what countries have the capacities to do This paradox is a problem not only for weak or failing states even the strongest states in the system struggle in how to effectively respond to global issues from cybersecurity to environmental toxins States cannot solve or manage trans sovereign issues alone The power of the private sector is growing both legal and illegal for profit and non profit while state power is flat or in some places declining While private sector actors have means to impact transnational issues they do not have a public mandate to do so Countries increasingly must learn how to play well with others this is easier said than done Attempts to manage global issues flow through three channels public sector responses private sector responses and mixed public private partnerships All three channels are explored throughout the book uniting the issue chapters in a common discussion of challenges and responses The conclusion presents lessons learned

for theory and practice from managing global issues

The New Millennium: Challenges and Strategies for a Globalizing World Sai Felicia Krishna-Hensel, 2017-11-22 This title was first published in 2000 An important look at the complexity of the challenges faced by the international system at the beginning of the new millennium The shape of the New World Order is being driven largely by forces unleashed through factors such as economic globalization and technological development The book emphasizes the importance of interdisciplinary analysis in order to understand the extent and diversity of the factors which condition the dynamics of this transformation Essential reading for students of human rights security finance and technology

Justifying Interventions in Africa N. Wilén, 2012-02-21 This new paperback edition of Justifying Interventions in Africa includes a new preface written by Professor Annika Björkdahl from Lund University Analysing the UN interventions in Liberia Burundi and the Congo Wilén poses the question of how one can stabilize a state through external intervention without destabilizing sovereignty She critically examines the justifications for international and regional interventions through a social constructivist framework

Politicizing the International Criminal Court Steven C. Roach, 2006-08-24 The establishment of the International Criminal Court ICC in July 1998 has attracted growing interest in the evolving role of politics in international law Steven C Roach's innovative and systematic work on the political and ethical dimensions of the ICC is the first comprehensive attempt to situate the politics of the ICC both theoretically and practically Linking the ICC's internal politicization with its formative development Roach provides a unique understanding of this institution's capacity to play a constructive role in global politics He argues that an internal form of politicization will allow the ICC to counter outside efforts to politicize it whether this involves the political agenda of a state hegemon or the geopolitical interests of UN Security Council permanent members Steering a new path between conventional approaches that stress the formal link between legitimacy and legal neutrality and unconventional approaches that treat legitimacy and politics as inextricable elements of a repressive international legal order Roach formulates the concept of political legalism which calls for a self directed and engaged application of the legal rules and principles of the ICC Statute Politicizing the International Criminal Court is a must read for scholars students and policymakers interested in the dynamics of this important international institution

The New Dynamics of Multilateralism James P. Muldoon, Jr., JoAnn Fagot Aviel, Richard Reitano, Earl Sullivan, 2010-08-31 With contributions from scholars and practitioners this volume focuses on the practical applications of multilateralism and how global issues governance and institutions are changing the practice and character of diplomacy

The Prevention and Intervention of Genocide Samuel Totten, 2011-12-31 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task

The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years. The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s. Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention. The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed. Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking. Later chapters treat the issue of intervention why and how it has met with only limited success. Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful. The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it. Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides. The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation. The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions.

The Evolution of the Doctrine and Practice of Humanitarian Intervention Francis Kofi Abiew, 2024-02-12

The topic of humanitarian intervention has become increasingly significant since the end of the Cold War. Despite a substantial body of literature on the subject in the past recent developments justify a contemporary study of the subject. This book is not only timely given the crises which have occasioned United Nations interventions over the past several years but enduring as international political structures undergo stress and reform and as international law and international relations theorists grapple with the sovereignty intervention problem. It defends the emergence of a right of humanitarian intervention and argues that state sovereignty is not incompatible with humanitarian intervention. After a thorough review of historical precedents the book concludes by assessing contemporary developments in terms of sources of support for intervention on humanitarian grounds.

The Oxford Handbook of Transformations of the State Stephan Leibfried, Evelyne Huber, Matthew Lange, Jonah D. Levy, Frank Nullmeier, John D. Stephens, 2015-06-11

This Handbook offers a comprehensive treatment of transformations of the state from its origins in different parts of the world and different time periods to its transformations since World War II in the advanced industrial countries the post Communist world and the Global South. Leading experts in their fields from Europe and North America discuss conceptualizations and theories of the state and the transformations of the state in its engagement with a changing international environment as well as with changing domestic economic social and political challenges. The Handbook covers different types of states in the Global South from failed to predatory rentier and developmental in different kinds of advanced industrial political economies corporatist statist liberal

import substitution industrialization and in various post Communist countries Russia China successor states to the USSR and Eastern Europe It also addresses crucial challenges in different areas of state intervention from security to financial regulation migration welfare states democratization and quality of democracy ethno nationalism and human development The volume makes a compelling case that far from losing its relevance in the face of globalization the state remains a key actor in all areas of social and economic life changing its areas of intervention its modes of operation and its structures in adaption to new international and domestic challenges
