Britain Colonized Hollywoods Appropriation Of British Literature:

Britain Colonized Jennifer M. Jeffers, 2006-08-06 *Britain Colonized* analyzes how and why filmmakers use cliché Hollywood formulas and American cultural standards when adapting British literature. The films discussed in this book are evidence of the way one nation remakes another often in the image of itself or what it needs the Other to be as the British Empire once did. Reterritorialization on the part of Hollywood manifests American cultural and capitalist hegemony over the English speaking world. *Britain Colonized* identifies the phenomena portending the future of British and Anglophone literary and cultural studies as a group of citations appropriated for American ends. *The History of British Literature on Film, 1895-2015* Greg M. Colón Semenza, Bob Hasenfratz, Robert J. Hasenfratz, 2017-01-26 From *The Death of Nancy Sykes* 1897 to *The Hobbit: The Battle of the Five Armies* 2014 and beyond cinematic adaptations of British literature participate in a complex and fascinating history. *The History of British Literature on Film 1895-2015* is the only comprehensive narration of cinema's 100 year old love affair with British literature. Unlike previous studies of literature and film which tend to privilege particular authors such as Shakespeare and Jane Austen or particular texts such as *Frankenstein* or particular literary periods such as Medieval, this volume considers the multiple functions of filmed British literature as a cinematic subject in its own right, one reflecting the specific political and aesthetic priorities of different national and historical cinemas. In what ways has the British literary canon authorized and influenced the history and aesthetics of film and in what ways has filmed British literature both affirmed and challenged the very idea of literary canonicity? Seeking to answer these and other key questions, this indispensable study shows how these adaptations emerged from and continue to shape the social, artistic, and commercial aspects of film history. ***Moral Complexities in Turn of the Millennium British Literature*** Mara E. Reisman, 2022-11-08 *Moral Complexities in Turn of the Millennium British Literature* offers a critical analysis of moral complexity and social responsibility in works by Kazuo Ishiguro, Patrick McGrath, Graham Swift, Andrea Levy, and Jeanette Winterson. Mara Reisman argues that through their writing, these authors reveal and upset literary, cultural, and political fictions and encourage readers to think carefully about language, power, community, and social justice. The book examines moral issues in two different ways: how books by these authors address morally complex social, political, and cultural issues and how their books serve a moral function by challenging readers to be socially engaged. Reisman provides an in-depth analysis of *The Remains of the Day*, *Asylum*, *The Light of Day*, *Small Island*, and *The Daylight Gate* and uses these books to discuss twentieth and twenty-first century British politics and culture. These books address a wide variety of issues often associated with moral judgments: war, racism, adultery, maternal neglect, murder, professional misconduct, witchcraft, and religion. Despite this diversity and settings that range from the seventeenth century to the late twentieth century, these books include similar arguments about how empathy, personal responsibility, and civic engagement can create more productive social relations and a less divided world. *A Companion to Literature, Film, and Adaptation* Deborah Cartmell, 2014-08-25

This is a comprehensive collection of original essays that explore the aesthetics economics and mechanics of movie adaptation from the days of silent cinema to contemporary franchise phenomena Featuring a range of theoretical approaches and chapters on the historical ideological and economic aspects of adaptation the volume reflects today s acceptance of intertextuality as a vital and progressive cultural force Incorporates new research in adaptation studies Features a chapter on the Harry Potter franchise as well as other contemporary perspectives Showcases work by leading Shakespeare adaptation scholars Explores fascinating topics such as unfilmable texts Includes detailed considerations of Ian McEwan s *Atonement* and Conrad s *Heart of Darkness*

Dickens Adapted John Glavin, 2017-03-02 From their first appearance in print Dickens s fictions immediately migrated into other media and particularly in his own time to the stage Since then Dickens has continuously apparently inexhaustibly functioned as the wellspring for a robust mini industry sourcing plays films television specials and series operas new novels and even miniature and model villages If in his lifetime he was justly called *The Inimitable* since his death he has become just the reverse the *Infinitely Imitable* The essays in this volume all appearing within the past twenty years cover the full spectrum of genres Their major shared claim to attention is their break from earlier mimetic criteria does the film follow the novel to take the new works seriously within their own generic and historical contexts Collectively they reveal an entirely other Dickensian oeuvre which ironically has perhaps made Dickens better known to an audience of non readers than to those who know the books themselves

Descriptive Adaptation Studies Patrick Catrysse , 2014-02-18 It is common practice nowadays for adaptation critics to denounce the lack of meta theoretical thinking in adaptation studies and to plead for a study of adaptation as adaptation one that eschews value judgments steps beyond normative fidelity based discourse examines adaptation from an intertextual perspective and abandons the single source model for a multiple source model This study looks into a research program that does all that and more It was developed in the late 1980s and presented in the early 1990s as a polysystem PS study of adaptations Since then the PS label has been replaced with descriptive This book studies the question of whether and how a PS approach could evolve into a descriptive adaptation studies DAS approach Although not perfect no method is DAS offers a number of assets Apart from dealing with the above mentioned issues DAS transcends an Auteurist approach and looks at explanation beyond the level of individual agency even if contextualized As an alternative to the endless accumulation of ad hoc case studies it suggests corpus based research into wider trends of adaptational behavior and the roles and functions of sets of adaptations DAS also allows reflection upon its own epistemic values It sheds new light on some old issues How can one define adaptation What does it mean to study adaptation as adaptation Is equivalence still possible and is the concept still relevant DAS also tackles some deeper epistemological issues How can phenomena be compared Why would difference be more real than sameness or change more real than stasis How does description relate to evaluation explanation and prediction etc This book addresses both theory minded scholars who are interested in epistemological reflection and practice oriented adaptation students who

want to get started From a theoretical point of view it discusses arguments that could support the legitimacy of adaptation studies as an academic discipline From a practical point of view it explains in general terms ways of conducting an adaptation study Patrick Cattrysse's work is of utmost importance to Adaptation Studies As the first extended attempt to develop a rigorous methodology which borrows in very meaningful ways from Adaptation Studies cousin Translation Studies this book should be on every Adaptation scholar's shelf While Hutcheon's Sanders and Leitch to name but a few laid the groundwork which allowed Adaptation Studies to establish itself as a field of inquiry in its own right Cattrysse moves the field into the next necessary stage that of developing conceptual tools which stand the test of critical investigation and allow Adaptation Studies to move beyond the single case study approach Katja Krebs University of Bristol This book is a bold initiative it proposes and illustrates a comprehensive new empirical research programme for film adaptation studies inspired by the way systems theory and norm theory have expanded Translation Studies One of the book's unusual strengths is the way the proposal is grounded in a thoughtful theoretical discussion of conceptual and methodological issues dealing with such notions as theory descriptivism definition diachrony and explanation This gives the work a significance that ranges well beyond Adaptation Studies alone it deserves the attention of scholars in the humanities in general Andrew Chesterman University of Helsinki This dense and theoretically informed study argues forcefully for a descriptive systems analysis approach to literature film adaptation building on the author's earlier corpus based study of film noir and adaptation Providing a wide ranging discussion of important critical questions including the place of logical positivism in humanistic studies this book will give adaptation scholars much to think about Well written carefully organized and consistently persuasive **DESCRIPTIVE ADAPTATION STUDIES** promises to be an important intervention in a field of increasing importance in humanistic studies Must reading for scholars in the field R Barton Palmer Clemson University

Bianchini, 2015-02-10 A study of the 30 year collaboration between playwright Samuel Beckett and director Alan Schneider Bianchini reconstructs their shared American productions between 1956 and 1984 By examining how Beckett was introduced to American audiences this book leads into a wider historical discussion of American theatre in the mid to late 20th century

The Haptic Aesthetic in Samuel Beckett's Drama P. McTighe, 2015-12-04 Samuel Beckett's work is deeply concerned with physical contact remembered half remembered or imagined Applying the philosophical writings of Jean Luc Nancy and Maurice Merleau Ponty that feature sensation this study examines how Beckett's later work dramatizes moments of contact between self and self self and world and self and other
