British Muslim Converts Choosing Alternative Lives:

British Muslim Converts Kate Zebiri, 2014-10-01 Indispensable for anyone trying to understand Islam in the West When the Western mass media talk of conversion to Islam we are bombarded with accounts of vulnerable people brainwashed into a culture of extremism However in reality the vast majority who convert are well educated and doing so as the result of a long considered and heartfelt decision What is more their numbers are multiplying The only exploration of this unique group in British society this well argued and powerful book investigates the fascinating contribution that Western converts to Islam are making to Islamic thought

Esposito, Ibrahim Kalin, 2011-03-30 Islamophobia has been on the rise since September 11 as seen in countless cases of discrimination racism hate speeches physical attacks and anti Muslim campaigns This collection of essays takes a multidisciplinary approach to the problem bringing together the expertise and experience of Muslim American and European scholars Contributors discuss and evaluate good practices already in place and offer new methods for dealing with discrimination hatred and racism

Religion and Knowledge Mathew Guest, Elisabeth Arweck, 2016-04-15 Religions have always been associated with particular forms of knowledge often knowledge accorded special significance and sometimes knowledge at odds with prevailing understandings of truth and authority in wider society New religious movements emerge on the basis of reformulated often controversial understandings of how the world works and where ultimate meaning can be found Governments have risen and fallen on the basis of such differences and global conflict has raged around competing claims about the origins and content of religious truth Such concerns give rise to recurrent questions faced by academics governments and the general public How do we treat statements made by religious groups and on what basis are they made What authorities lie behind religious claims to truth How can competing claims about knowledge be resolved Are there instances when it is appropriate to police religious knowledge claims or restrict their public expression This book addresses the relationship between religion and knowledge from a sociological perspective taking both religion and knowledge as phenomena located within ever changing social contexts It builds on historical foundations but offers a distinctive focus on the changing status of religious phenomena at the turn of the twenty first century Including critical engagement with live debates about intelligent design and the new atheism this collection of essays brings recent research on religious movements into conversation with debates about socialisation reflexivity and the changing capacity of social institutions to shape human identities Contributors examine religion as an institutional context for the production of knowledge as a form of knowledge to be transmitted or conveyed and as a social field in which controversies about knowledge emerge

Muslims in Britain Sophie Gilliat-Ray, 2010-06-10 Drawing upon sociology history anthropology and politics this book provides an informed understanding of the daily lives of British Muslims

Managing Spoiled Identity Beata Abdallah-Krzepkowska, Katarzyna Górak-Sosnowska, Joanna Krotofil, Anna Piela, 2022-12-19 This is the first systematic study of Polish women s conversion to Islam in English Through interviews with Polish female converts to

Islam and ethnographic observation we learn about their journey to Islam in a country where Muslims constitute less than 0.5% of the population and experience daily struggles related to maintaining their national and religious identities sometimes considered to be spoiled. The analysis presented in the book illuminates different factors that shape the converts' religious lives, attempts to establish Polish Islam with its unique cultural flavor, a new hybrid language that includes Polish, English, and Arabic elements, intersectional identities as women, Muslims, Poles, and Eastern European immigrants among those who live outside of Poland. This study offers a fascinating window into the lives of Muslims in a sociopolitical context that is considered to be on the margins of the Muslim world.

The Making of a Salafi Muslim Woman Anabel Inge, 2017. Salafism, often called Wahhabism, is widely seen as a fundamentalist interpretation of Islam that subjugates women. Yet growing numbers of young British women, many of them converts or from less conservative Muslim backgrounds, are actively embracing it. With unprecedented access to Salafi women's groups in the UK, Anabel Inge provides the first in-depth account of their lives, probing the reasons for their conversion and their subsequent dilemmas and difficulties.

Extremists in Our Midst Abdul Haqq Baker, 2011-07-12. Baker provides a unique insider perspective on factors affecting British Muslim converts and their susceptibility to violent radicalisation, including firsthand accounts of convicted terrorists: Richard Reid, the Shoe Bomber; Zacarias Moussaoui, the 20th 9/11 bomber; and Abdullah el Faisal, who is alleged to have been a radicalising influence.

Loyal Enemies Jamie Gilham, 2014-06-15. *Loyal Enemies* uncovers the history of the earliest British converts to Islam, who lived their lives freely as Muslims on British soil from the 1850s to the 1950s. Drawing on original archival research, it reveals that people from across the range of social classes defied convention by choosing Islam in this period. Through a series of case studies of influential converts and pioneering Muslim communities, *Loyal Enemies* considers how the culture of Empire and imperialism influenced and affected their conversions and subsequent lives, before examining how they adapted and sustained their faith. Jamie Gilham shows that although the overall number of converts was small, conversion to Islam aroused hostile reactions locally and nationally. He therefore also probes the roots of antipathy towards Islam and Muslims, identifies their manifestations, and explores what conversion entailed socially and culturally. He also considers whether there was any substance to persistent allegations that converts had divided loyalties between the British Crown and a Muslim ruler, country, or community. *Loyal Enemies* is a book about the past, but its core themes about faith and belief, identity, Empire, loyalties, and discrimination are still salient today.

Sufism in America Julianne Hazen, 2016-12-13. *Sufism in America* sheds light on spiritual, mystical Islam in America. The Sufi path focuses on developing a personal relationship with God, doing what is beautiful in the sight of God, and struggling against the lower self to reach loving submission. Up to this point, very little has been written about the Sufi orders in America and those who participate in them. This study focuses on the Alami Tariqa in Waterport, New York, which was started in the 1970s by a shaykh from the Balkans. The Alami Tariqa strives to uphold sharia while adapting to the Western setting. Its membership is diverse, consisting mostly of American-born participants from

Christian and Jewish backgrounds in addition to a few Muslim immigrants from South Asia This study explores how this order has acculturated to the American setting why individuals choose to join the tariqa and what it means to pursue spiritual goals in a modern Western society Conclusions are drawn from interviews a survey and observations of teachings plus the author s experience working with this community for over ten years The book interweaves personal stories and insider views with academic insight to provide a compelling and detailed picture of Sufism as a living and dynamic tradition in America
